November 22, 2024

To the honorable members of the Board of Supervisors and the Citizens of San Diego County:

The Annual Comprehensive Financial Report of the County of San Diego (County) for the fiscal year ended June 30, 2024, is hereby submitted in compliance with Sections 25250 and 25253 of the Government Code of the State of California.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive internal control framework it established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Eide Bailly LLP, has issued an unmodified ("clean") opinion on the County of San Diego's basic financial statements for the year ended June 30, 2024. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

County Profile

San Diego County covers 4,526 square miles, approximately the size of the state of Connecticut, extending 70 miles along the Pacific Coast from Mexico to Orange County and inland 75 miles to Imperial County along the international border shared with Mexico. Riverside and Orange counties form the northern border. It is the most southwestern county in the contiguous 48 states.

San Diego County enjoys a wide variety of climate and terrain, from coastal plains and fertile inland valleys to mountain ranges and the Anza-Borrego Desert. The Cleveland National Forest occupies much of the interior portion of the County. The climate is mild in the coastal and valley regions, where most resources and population are located. The average annual rainfall totals roughly 10 inches on the coast and more than 33 inches in the inland mountains.

According to the State of California Department of Finance (DOF) as of May 2023, the County's population estimate for January 1, 2023 was 3.27 million, which declined 0.53 percent or roughly 17,500 from the January 1, 2022 estimate as of May 2022. San Diego is the second largest county by population in California according to the DOF, and the fifth largest county by population in the nation, as measured by the U.S. Census Bureau based on 2022 population estimates.

There are 18 incorporated cities in the County; the City of San Diego being the largest, with a population of approximately 1.37 million; and the City of Del Mar the smallest, at approximately 3,903 people, according to DOF population estimates as of May 2023.

The racial and ethnic composition of the County is as diverse as its geography. The San Diego Association of Governments (SANDAG) projects that in 2040, the San Diego region's population will continue to grow in its diversity with: 38.7 percent White; 34.3 percent Hispanic; 16.3 percent Asian and Pacific Islander; 4.1 percent Black and 6.6 percent all other groups including American Indian. A significant growth in the region's Asian and Pacific Islander population and a decline in the region's White population is seen in this projection.

County Government, Economy and Outlook

County Government

San Diego became one of California's original 27 counties on February 18, 1850, shortly after California became the 31st State in the Union. The County functions under a charter adopted in 1933, as subsequently amended. A five-member Board of Supervisors elected to four-year terms in district, nonpartisan elections governs the County. Each board member is limited to no more than two terms and must reside in the district from which he or she is elected.

The Board of Supervisors (Board) sets priorities and approves the County's two-year budget. The County may exercise its powers only through the Board of Supervisors or through agents and officers acting under the authority of the Board or authority conferred by law. The Board of Supervisors appoints the following officers: the Chief Administrative Officer (CAO), the County Counsel, the Probation Officer, and the Clerk of the Board of Supervisors. All other nonelected officers are appointed by the CAO. The CAO assists the Board of Supervisors in coordinating the functions and operations of the County; is responsible for carrying out all of the Board's policy decisions that pertain to the functions assigned to that officer; and supervises the expenditures of all departments. Elected officials head the offices of the Assessor/Recorder/County Clerk, District Attorney, Sheriff and Treasurer-Tax Collector.

The State Legislature has granted each county the power necessary to provide for the health and well-being of its residents. The County provides a full range of public services to residents, including law enforcement, detention and correction, emergency response services, health and human services, parks and recreation, libraries and roads. The County also serves as a delivery channel for many State services, including foster care, public health care and elections.

These services are provided by four business Groups (Public Safety, the Health and Human Services Agency, Land Use and Environment, and Finance and General Government), each headed by a General Manager who reports to the CAO.

Economy and Outlook

U.S. Economy

Gross domestic product (GDP) is one of the main indicators of the health of the nation's economy, representing the net total dollar value of all goods and services produced in the U.S. over a given time period. GDP growth is driven by a variety of economic factors, including personal consumption expenditures, gross private domestic investment, net exports of goods and services and government consumption expenditures and gross investment.

According to the U.S. Department of Commerce Bureau of Economic Analysis (BEA), the advance estimate of real GDP in 2023 increased 2.5 percent (from the 2022 annual level to the 2023 annual level), compared to the increase of 1.9 percent in 2022 (Bureau of Economic Analysis [BEA], Gross Domestic Product, Fourth Quarter and Year 2023 (Third Estimate), GDP by Industry, and Corporate Profits, March 2024). According to the BEA, the increase in real GDP in 2023 primarily reflected increases in consumer spending, nonresidential fixed investment, state and local government spending, exports, and federal government spending that were partly offset by decreases in residential fixed investment and inventory investment (ibid). Quarter over quarter, the percent changes in 2023 also shows increases in GDP and was strong in the third quarter with an increase of 4.9 percent before decelerating in the fourth quarter but still at an increase of 3.4 percent (ibid).

In the last couple of years, many economists predicted the possibility of a recession due to elevated inflation and high interest rates, but that possibility has now faded. According to the Beacon Outlook, the running economic narrative is becoming more optimistic about the year ahead, while the economic reality is looking less so (The Beacon Outlook United States, Winter 2024). Beacon Economics doesn't see 2023 as being a positive turning point for the economy, as the narrative suggests. Rather it was a year where the economy experienced another surge of growth largely fueled by excessive high values, excessive amounts of on hand household cash, and the stimulus effect of the widening Federal budget deficit. All of these forces are weakening, and as such, so is consumer spending (ibid). Quarter over quarter, UCLA Anderson forecast a weaker-than-trend growth rate for 2024 with 1.6 percent in the first quarter, 2.1 percent in the second and third quarters, and 2.0 percent in the fourth quarter, which then accelerates back close to the 2.5 percent trend growth starting the first quarter of 2025 (UCLA Anderson Forecast, June 2024 Economic Outlook). UCLA Anderson Forecast expects GDP growth at 2.5 percent in 2024 and 2.4 percent in 2025 (ibid).

According to the minutes of the July 30–31, 2024 meeting of the Federal Open Market Committee (FOMC) of the Federal Reserve ("the Fed"), recent indicators suggest that economic activity has continued to expand at a solid pace. Job gains have moderated, and the unemployment rate has moved up but remains low. Inflation has eased over the past year but remains somewhat elevated. In recent months, there has been some further progress toward the Committee's 2 percent inflation objective (Minutes of the Federal Open Market Committee, July 30–31, 2024). The Fed has incrementally hiked the federal funds rate since April 2022 as it seeks to achieve maximum employment and return inflation to 2 percent over the longer run. In support of these goals, the Committee decided to maintain the federal funds rate to 5-1/4 to 5-1/2 percent. Per the Fed, in considering any adjustments to the target range for the federal funds rate, the Committee will carefully assess incoming data, the evolving outlook, and the balance of risks. The Committee does not expect it will be appropriate to reduce the target range until it has

gained greater confidence that inflation is moving sustainable toward 2 percent (ibid). The Federal Reserve Board has projected the Federal funds rate to decrease to 5.1 percent in 2024, 4.1 percent in 2025 and 3.1 percent in 2026 (Federal Reserve System. Summary of Economic Projections, June 12, 2024). It is worth noting that on September 18 after the County's fiscal year ended on June 30, 2024, the Federal Open Market Committee took action to reduce the federal funds rate by 0.5% to a target range of 4.75 to 5.00%. It is anticipated that there will be additional decreases of 0.5% by the end of the 2024 calendar year.

The Federal Government produces two major inflation measures for consumption goods and services, the Consumer Price Index (CPI) and the Personal Consumption of Expenditures (PCE). Positive changes in these indexes are recorded as inflation. The Consumer Price Index (CPI), produced by the Bureau of Labor Statistics (BLS), is the most widely used aggregate price index, as well as the major source of information. According to the BLS, the Consumer Price Index for All Urban Consumers (CPI-U) for all items increased 3.1 percent for the 12 months ending January before seasonal adjustment, a smaller increase than December at 3.4 percent (Bureau of Labor Statistics News Release, Consumer Price Index, January 2024). The shelter index which increased 6.0 percent over the last year, accounting for over two thirds of the total 12-month increase in all items less food and energy. In contrast, the energy index fell 4.6 percent over the past 12 months. The gasoline index decreased 6.4 percent, the natural gas index declined 17.8 percent, and the fuel oil index fell 14.2 percent over this 12-month span (ibid). UCLA Anderson forecast a CPI of 3.3 in 2024 and 2.7 in 2025 (UCLA Anderson Forecast, June 2024 Economic Outlook). The second major measurement of inflation, the Personal Consumption Expenditures index, is produced by the Bureau of Economic Analysis and is the Fed's preferred measure of inflation. According to the BEA, PCE price index for December increased 2.6 percent from the same month one year ago, reflecting increases in both goods and services (Bureau of Economic Analysis [BEA], Personal Income and Outlays December 2023, January 26, 2024). The Fed forecast PCE at 2.6 percent in 2024, 2.3 percent in 2025, and 2.0 percent in 2026 (Federal Reserve System, Summary of Economic

Projections, June 12, 2024).

With regards to energy prices, the GasBuddy Fuel Price Outlook states that the U.S. oil production reached record-setting levels in 2023, as U.S. oil producers continued slowly raising output as oil prices remained conducive to bringing online additional production (GasBuddy Fuel Price Outlook 2024). GasBuddy further states, "however, while global refinery capacity has improved, robust growth in the global economy could pose a rising risk, gobbling up the newly added capacity" (ibid). Patrick De Haan, the Head of Petroleum Analysis for GasBuddy, says "as 2023 fades away, I'm hopeful those \$5 and \$6 prices for gasoline and diesel will also fade into memory. The global refining picture continues to improve, providing more capacity and peace of mind that record-setting prices will stay away from the pump this year. 2024 will feature some volatility, unexpected outages and disruptions, and potentially weather-related issues, but I do not expect it to feature record prices anywhere" (ibid). The U.S. Energy Information Administration (EIA) projects that gas prices will decline in the following years. Retail gasoline price is forecasted to decline nearly 20 cents to \$3.31 in 2024 and will remain the same in 2025 (U.S. Energy Information Administration, Short-Term Energy Outlook, February 2024).

In the housing market, the U.S. Department of Housing and Urban Development (HUD) January monthly update shows the activity in housing was mixed overall. The Federal Housing Finance Agency (FHFA) seasonally adjusted purchase-only house price index for November estimated that home values rose 0.3 percent month-over-month and 6.6 percent year-over-year, up from an annual gain of 6.3 percent in October (U.S. Department of Housing and Urban Development, Housing Market Indicators Monthly Update, January 2024). With respect to home sales, purchases of new single-family homes, which are based on purchase agreements, increased 8.0 percent month-over-month in December and were 4.4 percent higher year-over-year. As for existing homes, the National Association of REALTORS® reported that December sales of existing homes decreased 1.0 percent month-over-month in November and were down 6.2 percent year-over-year. Because existing home sales are based on closings, December sales reflect contract signings in October and November. For all of 2023, existing home sales in

2023 dropped 18.7 percent and were the slowest pace since 1995 (ibid). According to HUD, mortgage financing became more expensive as the Federal Reserve raised interest rates. House prices peaked in June 2022 and began to decline modestly, as the higher rates put downward pressure on prices. But that trend reversed itself in February 2023 as current owners became increasingly reluctant to sell (ibid).

The 30-year fixed rate mortgage rate (FRM) rose steadily in 2022 reaching a high of 7.08 percent in November 2022 and then trended down to a low of 6.09 percent in February 2023 as inflation appeared to be retreating. Mortgage rates climbed again, peaking at 7.79 percent in October 2023, as indications of economic strength put upward pressure on rates, but have descended since with the slowing of inflation (ibid). In the latest Freddie Mac mortgage rate report, the 30-year FRM reached an average weekly high in February of 6.90 percent for the week ending February 23, 2024 (Freddie Mac, Primary Mortgage Market Survey, February 22, 2024). The Mortgage Bankers Association (MBA) forecast is that the average 30-year FRM will decrease to 6.6 percent in 2024 compared to the average in 2023 of 7.3 percent and will continue to decrease to 6.0 percent in 2025, and 5.8 percent in 2026 (MBA Mortgage Finance Forecast, July 19, 2024). Focusing on 2024, MBA predicts that the 30-year FRM will increase at 7.0 percent in the second quarter which is an increase compared to the first quarter of 2024 (6.7 percent) and will then decrease to 6.8 percent in the third quarter, 6.6 percent in the fourth quarter of 2024 (ibid).

As for unemployment, the national unadjusted unemployment rate in 2023 remained steady at 3.6 percent reflecting no change from the year prior. Starting the year of 2024, the unemployment rate rose to 4.1 percent in January. (Bureau of Labor Statistics, [Unadj] Unemployment Rate Series extracted on February 23, 2024). According to the UCLA Anderson Forecast, the recent rise in unemployment can be traced in the main to new entrants to the labor market rather than layoffs. The layoff rate as measured by the ratio of new unemployment claims to payroll employment is at historically low levels. However, slower growth in the economy in 2024 will result in fewer new jobs and therefore, an increase in the unemployment rate (UCLA Anderson Forecast,

December 2023 Economic Outlook). The Federal Reserve Board has projected unemployment rate to increase to 4.0 percent in 2024, 4.2 percent in 2025, and 4.1 percent in 2026 (Federal Reserve System, Summary of Economic Projections, June 12, 2023).

Taken together, the signs point to a slowing national economy in 2024 and 2025 (Los Angeles Economic Development Corporation, LAEDC 2024 Economic Forecast, February 2024). While a recession is not expected in the next two years, it cannot be ruled out. This likelihood can also be influenced positively and negatively by external factors, such as ongoing geopolitical conflicts, which reinforces that nothing is certain (ibid).

California Economy

California's economy is large and diverse, with global leadership in innovation-based industries including information technology, aerospace, entertainment, and biosciences. A global destination for millions of visitors, California supports a robust tourism industry, and its farmers and ranchers provide for the world. California accounts for more than 14 percent of the nation's GDP which is, by far, the largest of any State according to the BEA (Gross Domestic Product by State, 1st Quarter 2024, June 28, 2024). Even though recession worries have faded, increased military activity abroad and a sense of greater geopolitical risk have kept uncertainty about the future high (UCLA Anderson Forecast, December 2023 Economic Outlook). These uncertainties combined with a slower growing U.S. economy in 2024 leads to a slower-growing California economy (ibid). In 2023, economic growth in California was at 2.1 percent, notably lower than the national rate of 2.5 percent (BEA, Gross Domestic Product by State, 1st Quarter 2024, June 28, 2024), and is anticipated to slow to about 1.7 percent in 2024 and 1.6 percent in 2025 (Los Angeles Economic Development Corporation (LAEDC), LAEDC 2024 Economic Forecast, February 2024).

The State of California has been experiencing budget turbulence over the past year, shifting from a historic surplus of nearly \$100 billion to a substantial deficit within one year. According to the State budget enacted on June 26, 2024, California addressed the \$46.8 billion deficit, an increase from the Governor's Proposed Budget deficit of \$37.9 billion released in January,

through a mix of broad-based solutions including reductions in funding for various items, revenue or internal borrowing, fund shifts, delay to avoid both increased future obligation and potential shortfalls, and deferrals of certain payments to later years (Department of Finance [California 2024-25 State Budget](#), accessed on August 3, 2024). Looking beyond Fiscal Year 2024–25, Legislative Analyst's Office (LAO) projected back in December 2023 that the State faced operating deficits in the range of \$30 billion per year. By pulling back substantially on one-time and temporary spending, as well as making some ongoing reductions, the Governor's May Revision shrinks these projected deficits from around \$30 billion to an average of less than \$10 billion (LAO The 2024–25 Budget: Multiyear Budget Outlook, May 2024).

In the job market, there are normally two measures of employment considered when analyzing labor markets in California; the household survey metric which counts the number of people employed and the enterprise survey metric which counts the number of payroll jobs. The household survey reports that the number of people employed in April 2024 was just 2.3 percent below the number in the pre-pandemic peak (UCLA Anderson Forecast, June 2024 Economic Outlook). The labor force decline is attributable to retirements, migration out-of-state, and individuals choosing to spend their time in non-market activities such as child raising. Over the same period, California's non-farm payroll jobs increased, and it now exceeds the pre-pandemic level by 482,300 jobs (ibid). In 2023, the non-farm employment added 372,000 wage and salary jobs reaching 18 million jobs, a 2.1 percent increase over 2022 (LAEDC, LAEDC 2024 Economic Forecast, February 2024). Nearly all major industry sectors in California experienced job growth, with the most significant gains in the private sector in private education and health, leisure and hospitality, and professional and business services. The public sector also contributed to the increase. The information sector, however, witnessed substantial job declines with a 3.3 percent drop from 2022, likely attributed to the dual Hollywood strikes and the recent layoffs and hiring slowdown in the tech industry. In the coming years, California's job creation rate is expected to slow. LAEDC forecasts a projected annual growth rate of 1.2 percent in 2024 and a further decrease of growth to 0.7

percent in 2025. This translates to an addition of 211,600 new jobs in 2024 and 123,100 jobs in 2025 (ibid).

The decline in employment over and above the decline in the labor force has led to an increase in the California unemployment rate. In 2022, California's unemployment rate returned to pre-pandemic levels. However, entering 2023, the State's unemployment rate, starting at 4.7 percent, rose to 5.1 percent in December, marking an increase from a year ago (California Employment Development Department, Local Area Unemployment Statistics, accessed on August 3, 2024). In June 2024, the preliminary unemployment rate in California rose slightly to 5.3 percent (ibid). Over the next two years, LAEDC forecast that the annual unemployment rate is anticipated to continue to rise from 4.6 percent in 2023 to 5.0 percent in 2024 and 5.1 percent in 2025. Despite this increase, the unemployment rate remains comparable to pre-pandemic levels and has significantly improved from its peak of 16.1 percent in April 2020 following the onset of the COVID-19 pandemic (ibid).

Today, the challenges facing California's economy are very much the same as they were prior to the pandemic. Housing costs in California have long been higher than the national average. In recent years, these costs have grown substantially—in some cases, growing at historically rapid rates (LAO, California Housing Affordability Tracker, April 2024). Prices for mid-tier homes are more than twice as expensive as the typical mid-tier U.S. home. Perhaps even more importantly for a first-time home buyer, a bottom-tier home in California is now about 33 percent more expensive than a mid-tier home in the rest of the U.S., a gap that has widened over the last decade (ibid). With existing home sales at depression levels, builders are responding with new developments (UCLA Anderson Forecast, December 2023 Economic Outlook). Relative to the rest of the nation, California's new home construction is holding up. Over the first three quarters of 2023 new building permits declines by over 20 percent in the Northeast and in the West excluding California compared to the first three quarters of 2022. The decline was 16.2 percent and 11.3 percent in the Midwest and the South respectively. For California, the decline was only 8.8 percent. UCLA Anderson expects that the new home

products in the state and eased permitting will continue to ease the nationwide residential building downturn's impact on the state (ibid). The California Association of Realtors (C.A.R.) sees an increase in existing single-family home sales of 22.9 percent in 2024 to reach 327,100 units, up from the projected 2023 sales figure of 266,200. The 2023 figure is 22.2 percent lower compared with the pace of 342,000 homes sold in 2022 (C.A.R., C.A.R. releases its 2024 California Housing Market, September 30, 2023). Housing supply in 2024 will remain below the norm despite a projected increase in active listings of between 10 percent to 20 percent, as market conditions and the lending environment continue to improve (ibid).

According to the UCLA Anderson Forecast, the higher mortgage rates should have sent prices lower. Though home prices are lower than their previous peak with the median price of existing single-family homes sold declining on a seasonally adjusted basis by 5.5 percent from May of 2022, they have been climbing since December (UCLA Anderson Forecast, December 2023 Economic Outlook). The California median home price is forecast to rise 6.2 percent to \$860,300 in 2024, following a projected 1.5 percent dip to \$810,000 in 2023 from \$822,300 in 2022. A persistent housing shortage and a competitive housing market will continue to put upward pressure on home prices (C.A.R., C.A.R. releases its 2024 California Housing Market, September 30, 2023). In terms of affordability, the annual household income needed to qualify for a mortgage on a mid-tier California home in March 2024 was about \$235,000 which is over 2 times the median California household income in 2022 at \$85,300. For a bottom-tier home, nearly \$140,000 in annual income is needed to qualify for a mortgage, more than 50 percent higher than median household income in 2022 (LAO, California Housing Affordability Tracker, April 2024). For 2024, C.A.R. states that the lower economic growth and cooling inflation will bring down mortgage interest rates in 2024 and create a more favorable market environment to spur California home sales next year. C.A.R. Senior Vice President and Chief Economist Jordan Levine said, "buyers will have more financial flexibility to purchase homes at higher prices, which could generate increased housing demand and result in more upward pressure on home prices" (C.A.R.,

C.A.R. releases its 2024 California Housing Market, September 30, 2023).

The affordability of rental units is also an important issue when it comes to housing. According to LAO, monthly rents have also grown significantly in recent years, but not as quickly as monthly payments needed to purchase a home (LAO, California Housing Affordability Tracker, April 2024). The monthly rent on a typical property is \$2,000 less than a monthly payment on a 2-bedroom home, with costs between buying and renting much higher in high-cost areas of the state (ibid).

With regards to sales tax, California's local one cent Sales & Use Tax receipts for sales during the months of July through September were 1.6% lower than the same quarter one year ago after adjusting for accounting anomalies (HdL Companies, San Diego County Sales Tax Update 3Q 2023, January 2024). The third quarter of the calendar year continued with a challenging comparison to prior year growth and stagnating consumer demand in the face of higher prices of goods. Fuel and service stations contributed the greatest overall decline as lower fuel prices at the pump reduced receipts from gas stations and petroleum providers. While global crude oil prices have stabilized, they remained 15 percent lower year-over-year. The general consumer categories were also down from the 2022 quarter, confirming consumers pulling back on purchases. Spending at building and construction suppliers moderately slowed. As for the autos-transportation sector, despite continued increases of new car registrations, revenue from this sector slipped 2.6 percent. The improved activity remains mostly attributed to rental car agencies restocking their fleets. Like other segments, elevated financing costs are expected to impede future retail volume. Use taxes remitted via the countywide pools dipped 3.0 percent, marking the fourth consecutive quarter of decline. While overall online sales volume is steady, pool collections dropped with the offsetting effect of more taxes allocated directly to local agencies via in-state fulfillment generated at large warehouses and through existing retail outlets. Restaurants remained an economic bright spot through summer exhibiting a 2.6 percent gain (ibid).

Overall, the California economy is forecasted to, once

again, grow faster than the U.S. but not by much. The risks to the forecast are political, geopolitical and the potential for interest rates to still disrupt the current expansion on the downside (UCLA Anderson Forecast, December 2023 Economic Outlook).

San Diego Economy

As of 2023, the San Diego region is home to more than 3.3 million residents, the second largest county in California accounting for 8.4 percent of the State's population, and fifth largest in the nation in terms of population according to the U.S. Census Bureau (U.S. Census Bureau, County Population Totals: 2020–2023, accessed on August 3, 2024). In 2022, San Diego County accounted for more than \$257.3 billion, or 8.1 percent of California's GDP, based on data from the BEA (Bureau of Economic Analysis, Real Gross Domestic Product by County, December 7, 2023). With breakthrough technology companies and research institutes, the largest military concentration in the world and a strong tourism industry, the San Diego region has one of the most dynamic economies in the United States. The region's quality of life attracts a well-educated, talented workforce and well-off retirees which have contributed to local consumer spending.

In the San Diego Business Journal 2024 Economic Trends Preview, Mark Cafferty, President and Chief Executive Officer of the San Diego Regional Economic Development Corporation (EDC), stated that "It's likely 2024 will not be called an easy year. The good news is the San Diego community has a better sense than in past Januarys about where challenges are and the direction the economy is headed" (SDBJ 2024 Economic Trends Preview, January 15, 2024). Cafferty further states that San Diego's economy has "four critical anchors" that position it to do well—Tourism, Innovation, Military and Defense, and the U.S.-Mexico border (ibid). In Tourism, San Diego solidified its position as a top destination in 2023 for both leisure and business travelers with a 10.1% year-over-year growth of 31.7 million visitors, bringing in record-breaking numbers in visitor spending of \$14.3 billion and hotel tax revenue collections of \$418 million (San Diego Tourism Authority, Annual Report Fiscal Year 2023, and San Diego County Visitor Industry Performance 2023). As the second-largest local industry, tourism remains vital to the San Diego

economy, creating 214,000 jobs, delivering a regional economic impact of \$23.4 billion (ibid). In Innovation, Juli Moran, San Diego Office Managing Partner of Deloitte, says “our unique community and innovation ecosystem across diagnostics, biotech/biopharmaceuticals and medical technology drove continued growth in the life science San Diego employment base” (SDBJ 2024 Economic Trends Preview, January 15, 2024). San Diego life science employment surpassed 77,770 jobs as medical technology companies based in San Diego continue to experience double-digit growth in revenue and headcount. Mike Krenn, CEO of Connect, says “equally important is the breadth and depth of our innovation cluster.” Krenn further states that “on a macroeconomic perspective, San Diego benefits from having equally strong life sciences and technology sectors.” In the past four years, San Diego companies raised \$24 billion dollars in venture capital and is now the fifth biggest venture capital hub in the country. This is a big contrast in comparison to the 10 years prior to 2015 where San Diego companies never raised more than \$1.1 billion collectively (ibid). As for defense spending and military jobs, San Diego represents more than 20 percent of the economy and the sector is continuing to experience consistent growth trends in recent years (ibid).

Tracking the consumer activity, Google Mobility analyzes the movement of a community compared to the baseline, which is the median value during the 5-week period from January 3 to February 6, 2020, prior to the COVID-19 pandemic shutdown. In San Diego, retail & recreation, grocery & pharmacy, parks, transit stations and workplaces visits continue to be below the baseline, while residential locations continue to be above the baseline (Google COVID-19 Mobility Report. California Mobility Data, accessed on February 24, 2024). Consumer spending in San Diego increased primarily due to online sales. As of the third quarter of 2023, HDL reports an increase in San Diego County sales tax of 0.9 percent with the unincorporated area increasing at 32.1 percent (HDL Companies, San Diego County Sales Tax Update 3Q 2023, January 2023). The County's substantial sales tax growth is attributed to increased taxpayer allocations in the business and industry group spiking that group 111 percent compared to a year ago. The countywide use-tax pool

allocation increased by 22 percent compared to a year ago reflects the county's resultant growth in pool share. As online retailers shift the fulfillment of internet orders from out-of-state to instate fulfillment centers, some revenues shift out of the pools and into direct allocations (ibid). Economist Lynn Reaser says that in 2024, “expect a slower pace of spending for many reasons. These include a lower saving rate, leveling off in wage gains, high interest rates, and less demand for some durable goods. Other downward trends are a resumption of student loan payments and higher delinquencies on sub-prime credit. These trends will be counterbalanced by healthy balance sheets and good worker income leading to continued consumer spending, albeit at a lower pace” (The San Diego Union-Tribune, San Diego in '24: Experts predict higher home prices, January 5, 2024).

When there is an increase in consumer purchases, more sales tax is collected by the County of San Diego. As of the Second Quarter Economic Update to the Board of Supervisors in mid-March, the County was projected to anticipate additional Sales & Use Tax revenue of \$15.8 million in Fiscal Year 2023–24. Since the Great Recession, the County's reliance on sales tax revenue has increased. Due to changes in funding and service delivery models by the State, sales tax revenue has become critical to supporting essential program areas in Public Safety, and Health and Human Services through dedicated revenue sources including Proposition 172 and Health and Public Safety Realignment. As of the Second Quarter, the County Proposition 172, and Health and Public Safety Realignment, and Sales & Use Taxes revenues are expected to be lesser than the Fiscal Year 2023–24 budgeted levels by \$34.2 million due to lower than expected receipts and public works project schedule changes. Consumer activity also supports the County's program revenue for Behavioral Health through the Mental Health Services Act and road repair activities through the State Gas Tax. As of the Second Quarter, the County Mental Health Services Act and State Gas Tax program revenues are expected to be higher than the Fiscal Year 2023–24 budgeted levels by \$5.4 million.

According to the San Diego Tourism Authority, San Diego hotels continued to receive strong demand, placing fourth nationwide in both hotel occupancy and

revenue per available room ranked sixth in average daily rate. The region's hotels witnessed a notable 5.5 percent year-over-year increase in average occupancy, reaching 73.7 percent, while average daily rate showed a significant rise of 10.9 percent (San Diego Tourism Authority, Annual Report Fiscal Year 2023). As hotel demand recovers from the effects of the pandemic, so does the County's Transient Occupancy Tax (TOT), the County's hotel room tax collected in the unincorporated area. In Fiscal Year 2022–23, TOT revenue was budgeted at a higher amount assuming a recovery to overall tourism to the region. However, actual TOT revenue came in more than anticipated at 39.1 percent more than was budgeted. In Fiscal Year 2023–24, the TOT revenue was budgeted at an increase of 15.5 percent, and as of Second Quarter of Fiscal Year 2023–24, TOT revenue was expected to be \$1.1 million higher than the budget based on prior year receipts and continued growth in the hotel industry and tourism as a whole.

In terms of employment, Kelly Cunningham of the San Diego Institute for Economic Research commented, "While total jobs fully recovered from pandemic shutdowns, employment dynamics continue happening as some sectors thrive and others diminish. As the past year progressed, regional employment appeared to flounder" (The San Diego Union-Tribune, San Diego in '24: Experts predict higher home prices, January 5, 2024). According to the U.S. Bureau of Labor Statistics, San Diego's metro area employment is at 1.59 million jobs as of December 2023, showing an increase of 1.5 percent from December 2022 (U.S. Bureau of Labor Statistics, San Diego Area Economic Summary, February 8, 2024).

Unemployment rose sharply during the start of the pandemic from 3.2 percent in February 2020 to 16.1 percent in April 2020 and started to slowly decline showing a lowest unemployment rate in May 2022 at 2.9 percent (California Employment Development Department, San Diego-Carlsbad MSA Industry Employment & Labor Force - By Month, accessed on February 24, 2024). In December 2023, the local San Diego unemployment rate was 4.3 percent, up from a revised 4.2 percent in November 2023, and above the year-ago estimate of 3.0 percent. This compares with an unadjusted unemployment rate of 5.1 percent for California and 3.5 percent for the nation during the

same period (California Employment Development Department, San Diego-Carlsbad Metropolitan Division Labor Force Data, January 19, 2024). By June 2023, the preliminary unemployment rate rose slightly to 4.5 percent, up from a revised 3.7 percent in May 2024, and above the year-ago estimate of 3.9 percent (California Employment Development Department, San Diego-Carlsbad Metropolitan Division Labor Force Data, July 19, 2024). At the beginning of the year, a panel of San Diego business leaders and economists mostly predicted that the unemployment rate would be higher by the end of the year than it was at the time, ranging and averaging at 4.5 percent (The San Diego Union-Tribune, San Diego in '24: Experts predict higher home prices, January 5, 2024). Increase in unemployment constraints consumer spending and associated County revenues, while inversely increasing the County's costs due to demand for the County's essential safety net services that residents rely upon in times of uncertainty and need.

When it came to wages, middle wage San Diego County workers made slightly more than the State average, however low wage on average and high earners made less than the State average in 2022 (California Employment Development Department, Occupational Employment Statistics, accessed March 5, 2023). The median household income for San Diego County in 2022 was \$96,974 but diminishing factors including inflation and the real estate market can reduce that overall buying power.

Recent data shows that inflation is slowing down, but it remains elevated, and consumers are still feeling the pressure from high prices. Prices in the San Diego area, as measured by the Consumer Price Index for All Urban Consumers (CPI-U), advanced 0.4 percent for the two months ending in January 2024 influenced by higher prices for shelter (Bureau of Labor Statistics, Consumer Price Index, San Diego Area, January 2024). Over the last 12 months, CPI-U increased 3.8 percent. Food prices increased 3.7 percent. Energy prices fell 11.6 percent, largely the result of a decrease in the price of natural gas service. The index for all items less food and energy increased 5.0 percent over the year (ibid).

San Diego is one of the least affordable areas in the country with only a small percentage of workers able to afford a median priced home. While many factors

have contributed to the housing crisis, the root cause is the fact that housing development has not kept pace with population growth, resulting in housing costs that have increased at a much faster rate than income levels. In 2023, the median price peaked in August with single family homes pushing past \$1.0 million and existing attached homes at \$670,000 (San Diego Regional Chamber of Commerce, June 2024 Monthly Indicators). San Diego home prices started to slowly decrease and by January 2023, the median price for single family homes decreased to about \$976,000 while the median price for existing attached homes decreased to \$650,000. Year-over-year, home prices show an increase of 15.0 percent for single family homes and 10.0 percent of existing attached homes (ibid). A panel of San Diego business leaders and economists predicted that the county's median home price ranging from \$800,000 to \$1.0 million and a median of \$880,000, which is lower than January (The San Diego Union-Tribune, San Diego in '24: Experts predict higher home prices, January 5, 2024).

Since the pandemic-stricken 2020, housing prices in San Diego have been up and down, leaving buyers and investors uncertain. But the trend has been mostly upwards (Little Big Homes, San Diego Housing Market Forecast for 2024, December 1, 2023). San Diego's sales numbers justify the fear of a retrogressing housing market. According to the California Association of Realtors, sales volume has dropped incredibly since August 2021. The demand-supply dynamics are heavily skewed in the San Diego real estate market. Demand has been outpacing the available inventory, causing a red-hot seller's market. According to Rocket Homes, San Diego County's homes for sale were 5,616 in October 2023. The number of homes sold was 1,559 homes in the same month. By computation, we are looking at a 3.6-month supply, which is way below the six-month supply that is considered balanced (ibid). In an article from The San Diego Union-Tribune, it says that "San Diegans are staying in their homes twice as long as they used to, which experts say is part of the reason for an unsteady housing market" (The San Diego Union-Tribune, San Diegans are staying in their homes twice as long as they used to, February 23, 2024). San Diego County homeowners stayed a median of 15 years before selling, said a Redfin study of 2023 data. That was up

from a median of 7.4 years in 2005, and higher than the national median of 11.9 years. Most experts point to rising interest rates and home prices as top reasons why current owners don't want to sell and find a new place. There are other factors, too, such as tax advantages in not moving, as well as households becoming multigenerational as for-sale housing shortages continue. The number of home listings in San Diego County fell to a low last year of 2,904 homes in April. It has since increased slightly to 3,056 homes listed for sale in mid-February. In the year before the pandemic, it was typical to have 7,000 to 8,000 homes for sale in a given month (ibid).

The housing crisis demands a departure from the belief that neighborhoods can't change. President and CEO of the San Diego Regional Chamber of Commerce Jerry Sanders emphasize the need for integrated housing; a diverse mix of housing-type is essential—apartments, condos, single-family homes—reflecting the multifaceted nature of San Diego (San Diego Workforce Partnership, Economic leaders tout cautious optimism for San Diego's economic future. February 8, 2024). To create more affordable housing in San Diego, Jerry Sanders says it comes down to creating more apartments in neighborhoods. But even with more housing, many of which come with a hefty price tag (ibid). According to the market rental rate data from Zillow, the average rent in San Diego is at \$2,964 as of January 2024, higher by 51.4 percent compared to the national average, making San Diego one of the most expensive regions for renters in the nation. Year-over-year, the rental rate in January increased 3.0 percent, which is comparable to the pre-pandemic trend and a far cry from the year-over-year rent increase of 17.9 percent and 8.3 percent in January 2022 and January 2023 respectively (Zillow Research. Zillow Observed Rent Index, accessed on February 26, 2024). Pushed on by historic rent increases throughout the pandemic and a nationwide push for housing, apartment construction in the U.S. hit a 36-year-high in 2023 (The San Diego Union-Tribune, San Diego apartment wave: More than 4,000 units opening this year, February 21, 2024). There are more than 4,000 new apartments opening across San Diego County in 2024, with the vast majority downtown. Yet it isn't just where you expect new complexes to be; zoning changes and a push for housing mean projects spread all over the

county (ibid).

As part of the Regional Housing Needs Assessment (RHNA) process, the California Department of Housing and Community Development (HCD) in consultation with San Diego Association of Governments (SANDAG), identified a need for over 171,000 new housing units in San Diego between 2021–2029. According to the latest SANDAG RHNA progress report, the total number of approved housing units is currently over 18,000 or at 10.6 percent of its goal (SANDAG RHNA Progress Report by Jurisdiction, accessed on February 27, 2004). The City of San Diego makes up 63 percent of the goal at about 108,000, and in the City's 2023 Annual Report on Homes, the City approved 10,346 new homes for construction, approximately 10 percent of the target (City of San Diego 2023 Annual Report on Homes, November 2023). Although still in the early stages of the 8-year RHNA planning cycle for housing, this progress lays the foundation for the additional work required to ensure that everyone can live where they choose. The City will continue to build upon this progress and prioritize the creation of more homes that meet the needs of all San Diegans regardless of age, income, family size, or neighborhood (ibid).

According to the Assessor/Recorder/County Clerk, foreclosures compared to total deeds recorded averaged 0.3 percent over the three-year period of 2003 through 2005, then rose significantly reaching 16.9 percent in 2008 and has declined to 0.3 percent in 2023. Total deeds recorded in 2023 was 83,523, a decrease of 20.1 percent from the previous year. Notices from lenders to property owners that they were in default on their mortgage loans peaked at 38,308 in 2009, and foreclosures reached a high of 19,577 in 2008 during the Great Recession. In comparison, San Diego County saw 2,152 notices of default in 2023, up 7.1 percent from the 2022. The percentage of properties with delinquent mortgage loans that went into foreclosure averaged at approximately 11.6 percent from 2003 through 2005. During the Great Recession, this indicator peaked at 57.5 percent in 2008 but since has declined to about 10.0 percent in 2023, a decrease of 2.0 percent and overall decrease in terms of the number of foreclosures from 2022. Overall, despite a noticeable uptick in default notices, the actual number of defaults

resulting in foreclosures has remained low in recent years. The County/Assessor/Recorder/County Clerk will continue to monitor and report on the foreclosure activities in San Diego County.

County's Economic Base

The County's economic stability is based on significant manufacturing presence and innovation clusters (e.g., energy storage, cyber-security, and clean tech), a large tourist industry attracted by the favorable climate of the region, a considerable defense-related presence from federal spending, and a thriving hub of biotech and telecommunications industries. Highlights of seasonally unadjusted County employment as of July 2024 revised data from the California Employment Development Department Labor Market Information Division are listed below:

- Non-farm industry employment totals 1.56 million jobs. This represents a gain of nearly 13,000 jobs from July 2023. Agriculture includes 10,000 jobs, or 0.6 percent of all industries in the region.
- Goods-producing industries make up 13.2 percent of non-farm employment or 204,800 jobs. The most significant sectors include manufacturing, which accounted for 7.2 percent of non-farm employment or 111,700 jobs; and construction, which accounted for 6.0 percent of total non-farm employment or 92,700 jobs.
- Private (non-government) services industries constitute the largest share of employment in the region and accounted for 71.1 percent of total non-farm employment, with 1,107,700 employed.
- Of these, professional and business services make up the largest non-government sector, comprising 17.3 percent of total non-farm employment, totaling 270,000 jobs. Other large non-government sectors in the private services industry category include trade, transportation, and utilities (222,000 jobs); educational and health services (255,100 jobs); and leisure and hospitality (209,300 jobs).
- Government accounted for 15.7 percent of total non-farm employment, or 244,400 jobs. San Diego's local governments, including education, contribute significantly to this sector.

County revenues that are affected by the state of the local economy include property taxes, sales taxes, and charges for services. Key factors impacting these

revenues include real estate activity and consumer spending which are in turn greatly influenced by interest rates and employment levels. Short- and long-term interest rates are currently higher compared to previous years due to the series of hikes that the Fed has enacted to address inflation.

General Management System

The General Management System (GMS) is the County of San Diego's ("County") foundation that guides operations and service delivery to residents, businesses and visitors. The GMS outlines the County's strategic intent, prioritizes its goals and use of resources, describes how it monitors progress on performance, ensures collaboration and recognizes accomplishments in a structured, coordinated way. By communicating and adhering to this business model, the County of San Diego is able to maintain an organizational culture that values transparency, accountability, innovation, and fiscal discipline and that provides focused, meaningful public services.

The County's operational approach to planning and decision making is through the integration of the General Management System (GMS) with the strategic framework adopted by the Board of Supervisors. The GMS is reflective of today's communities while preserving the core management principles of strategic planning, operational accountability, enterprise-wide collaboration, and employee connection.

At the core of the GMS is Community Engagement, based on the principle that all that we do should be for, and created in partnership with, the people we serve. The outer ring is included to reflect the core values of everything we do: integrity, equity, access, belonging and excellence. A just, sustainable, and resilient future for all.

These five GMS components form an annual cycle that is renewed each fiscal year with review of the Strategic Plan and development of a new Operational Plan. More information about the GMS and the Strategic Plan is available online at:

<https://www.sandiegocounty.gov/cao/>.

Context for Strategic and Operational Planning

To be effective, the goals that the County sets and the resources that are allocated must be consistent with

the purpose of the organization. The context for all strategic and operational planning is provided by the County's vision; a vision that can only be realized through strong regional partnerships with the community, stakeholders and employees.

Vision:

A just, sustainable, and resilient future for all

Mission:

Strengthen our communities with innovative, inclusive, and data-driven services through a skilled and supported workforce

Values:

The County recognizes that "The noblest motive is the public good." As such, there is an ethical obligation for employees to uphold basic standards as we conduct operations. The County is dedicated to:

- **Integrity** - Earn the public's trust through honest and fair behavior, exhibiting the courage to do the right thing for the right reason, and dedicating ourselves to the highest ethical conduct
- **Equity** - Apply an equity lens to appropriately design programs and services so that underserved communities have equitable opportunities. Using data driven metrics, lived experiences and the voices of our community we weave equity through all policies and programs
- **Access** - Build trust with the residents we serve through transparent communication and neighborhood engagement that is accessible in the languages, facilities and methods that meet their needs
- **Belonging** - Foster a sense of belonging, not just inclusion, for the people we serve and for the employees of the County who provide those services on a daily basis
- **Excellence** - Ensure exceptional service delivery to our customers by practicing fiscal prudence, encouraging innovation and leveraging best practices that promote continuous improvement to build strong, vibrant communities
- **Sustainability** - Secure the future of our region, by placing sustainability at the forefront of our operations deeply embedded into our culture. Dedicate ourselves to meeting our residents' current resource needs without compromising our

ability to meet the needs of generations to come

Strategic and Operational Planning (Budgetary) Process

The County ensures operations are strategically aligned across the organization by developing a five-year Strategic Plan that sets forth priorities the County will accomplish with public resources. The Strategic Plan is developed by the Chief Administrative Officer (CAO) and the County Executive Team, based on the policies and initiatives set by the Board of Supervisors, an enterprise review of the issues, risks and opportunities facing the region and reflects the changing environment, economy and community needs. All County programs support at least one of these four Strategic Initiatives through Audacious Goals, Enterprisewide Goals and Departmental Objectives that make achievement of the initiatives possible. The Strategic Initiatives include:

- Equity
- Sustainability
- Community
- Empower
- Justice

To ensure that the Strategic Plan incorporates a fiscal perspective, the CAO, Assistant CAO (ACAO) and General Managers annually assess the long-term fiscal health of the County and review a five year forecast of revenues and expenditures to which each County department contributes. This process leads to the development of preliminary short- and medium-term operational objectives and the resource allocations necessary to achieve them.

The Operational Plan provides the County's detailed financial recommendations for the next two fiscal years. However, pursuant to Government Code §29000 et seq., State law allows the Board of Supervisors to formally adopt only the first year of the Operational Plan as the County's budget. The Board approves the second year of the plan in principle for planning purposes. To demonstrate that resources are allocated to support the County's Strategic Plan, all program objectives in the Operational Plan and department performance measures are aligned with the Strategic Initiatives, Audacious Goals and/or Enterprisewide Goals.

State law permits modifications to the adopted budget during the year with approval by the Board of Supervisors, or in certain instances, by the Auditor and Controller.

The CAO provides a quarterly budget status report to the Board of Supervisors that may also recommend changes to address unanticipated needs or make technical adjustments to the budget.

Financial (Budgetary) Policies

The following is an overview of various laws and policies that guide the County's budgetary decision-making process.

California Government Code (GC) Sections 29000 through 29144 provide the statutory requirements pertaining to the form and content of the County's budget. Government Code Section 29009 requires a balanced budget in the recommended, adopted and final budgets, defined as "funding sources shall equal the financing uses."

County Charter Section 703 establishes the Chief Administrative Officer as responsible for all Groups/Agencies and their departments (except departments with elected officials as department heads), for supervising the expenditures of all departments and for reporting to the Board of Supervisors whether specific expenditures are necessary.

County Code of Administrative Ordinances Article VII establishes the components and timeline for the budget process and establishes the Chief Administrative Officer as responsible for budget estimates and submitting recommendations to the Board of Supervisors. This article also establishes guidelines for the use of General Fund fund balance and the maintenance of General Fund reserves in order to protect the fiscal health and stability of the County. Expenditures for services are subject to fluctuations in demand and revenues are influenced by changes in the economy and State and federal regulations. This section ensures the County is prepared for unforeseen events by establishing, maintaining and replenishing prudent levels of General Fund fund balance and reserves, and by ensuring that all one-time resources generated by the County are appropriated for one-time expenditures only.

The County has the following policies that serve as guidelines for financial and budgetary processes:

Board of Supervisors Policies

A-81 Procurement of Contract Services: The County may employ an independent contractor if it is determined that the services can be provided more economically and efficiently than by persons employed in the Classified Service.

A-87 Competitive Procurement: The County shall procure items or services on a competitive basis unless it is in the County's best interests not to use the competitive procurement process.

A-136 Use of County of San Diego General Management System for Administration of County Operations: Establishes the General Management System (GMS) as the formal guide for the administration of County departments, programs and services, and ensures that all County departments and offices operate in compliance with the GMS. The GMS includes two-year Operational Planning, in which the County's revenues are budgeted.

B-29 Fees, Grants, Revenue Contracts - Department Responsibility for Cost Recovery: Provides a methodology and procedure to encourage County departments to recover full cost for services whenever possible.

B-37 Use of the Capital Program Funds: Establishes funding methods, administration and control, and allowable uses of the Capital Program Funds.

B-58 Funding of the Community Enhancement Program: Establishes guidelines and criteria for allocating the appropriations for the Community Enhancement Program.

B-63 Competitive Determination of Optimum Service Delivery Method: Provides that selected departments analyze services, either County-operated or contracted, to determine if the quality, economy and productivity are equal to that of an alternative delivery method, including other government agencies, and to determine how the revenues can be maximized so the highest level or volume of services can be provided.

B-65 Long-Term Obligations and Financial Management Policy: Governs the management and planning for the long-term financial outlook and

obligations that bear the County of San Diego's name or name of any related Agency for the County.

B-72 Neighborhood Reinvestment Program: Establishes guidelines and criteria for allocating the appropriations for the Neighborhood Reinvestment Program.

E-14 Expenditure of Tobacco Settlement Revenue in San Diego County: Establishes that revenue received from the Tobacco Master Settlement Agreement (1998) shall be allocated to support a comprehensive tobacco control strategy, to increase funding for health care-based programs, and to supplement, but not replace, existing health care revenue.

G-16 Capital Facilities and Space Planning: Establishes a centralized, comprehensive, sustainable and equitable capital facilities planning program for the County of San Diego that establishes general objectives and standards for the location, size, design, and occupancy of County-owned or leased facilities.

Administrative Manual

0030-01 Procedure for Fees, Grants and Revenue Contracts for Services Provided to Agencies or Individuals Outside the County of San Diego Organization: Establishes a procedure within the framework of Board of Supervisors Policy B-29, to serve as guidance in the process of recovering full costs for services provided to agencies or individuals outside the County of San Diego organization under grants or contracts or for which fees may be charged.

0030-06 State Mandated Cost Recovery: Establishes guidelines to attempt full recovery of all State mandated costs resulting from chaptered legislation and executive orders.

0030-10 Transfers of Appropriations Between Objects within a Budget Unit: Establishes a procedure authorizing the Auditor and Controller, under the direction of the CAO, to transfer appropriations between objects within a budget unit (department).

0030-14 Use of One-Time Revenues: Establishes that one-time revenue will be appropriated only for one-time expenditures such as capital projects or equipment, not for ongoing programs.

0030-18 Establishing Funds and Transfer of Excess Cash Balances to the General Fund: Establishes the

procedure for approval and establishment of funds and a policy to transfer cash balances into the General Fund, as authorized by California Government Code Section 25252.

0030-23 Use of the Capital Program Funds (CPFs), Capital Project Development and Budget Procedures: Establishes procedures for developing the scope of capital projects, monitoring the expenditure of funds for capital projects, timely capitalization of assets and closure of capital projects within the CPFs.

0400-03 Budget Guidelines for Staffing: Provides general guidance to County departments on how the County budgets and forecasts for staffing during the annual budget build.

Strategic Initiatives and Achievements

The County ensures operations are strategically aligned across the organization by developing a five year Strategic Plan that sets forth the priorities it will accomplish with its resources. The Strategic Plan is developed by the Chief Administrative Officer (CAO), the Assistant CAO (ACAO), the General Managers and the Strategic Advisory, Guidance, and Evaluation Team based on the policies and initiatives set by the Board of Supervisors and an enterprise review of the issues, risks and opportunities facing the region and reflects the changing environment, economy and community needs.

In Fiscal Year 2021-22, the County of San Diego underwent a large organizational shift, with the majority of the members of the Board of Supervisors being newly elected. This marked the first time in two decades that all five sitting Supervisors had been in office for their first term. As the County looks toward the future, it was clear now is the time to build upon past successes, identify opportunities for improvement in our current processes, and ensure our operations are aligned with the policy initiatives of the Board of Supervisors.

The County began a new strategic planning process in the Summer of 2021, which included convening a Strategic Planning Team. The 2021 Strategic Planning Team consisted of staff experts from across the enterprise who possess unique subject matter expertise as well as an extensive operational knowledge and have served as integral members of

teams that have been implementing the new programs brought forward by the Board of Supervisors this year.

The overall themes that came out of the robust discussions were the desire to be a government that listens to, partners with, and supports the community we serve, while sustainably planning for the future. This process also included a reimagining of the County's governance documents which includes the Vision Statement, Mission Statement, and Values. There are new Strategic Initiatives, and Audacious Goals that go along with each to guide the departments in outcome-based goal setting that aligns with the County's Vision. In the County's Strategic Framework, Groups and Departments support five Strategic Initiatives: Equity, Sustainability, Community, Empower, and Justice. Audacious Goals assist departments in aligning with and supporting the County's Vision and Mission. In addition, department objectives demonstrate how departments contribute to the larger Audacious Goals.

Strategic Initiatives provide the framework for the County to set measurable goals. These initiatives are designed to span the entire organization, break down silos, and extend across groups for all departments to see their work contributing to the overall success of the region.

Equity

- Health
 - Reduce disparities and disproportionality and ensure access for all through a fully optimized health and social service delivery system and upstream strategies.
 - Focus on policy, systems and environmental approaches that ensure equal opportunity for health and well-being through partnerships and innovation.
- Housing
 - Utilize policies, facilities, infrastructure, and finance to provide housing opportunities that meet the needs of the community.
- Economic Opportunity
 - Dismantle barriers to expanding opportunities in traditionally underserved communities and businesses, especially communities of color and low income.

- Advance opportunities for economic growth and development to all individuals and the community

Sustainability

- Economy
 - Align the County's available resources with services to maintain fiscal stability and ensure long-term solvency.
 - Create policies to reduce and eliminate poverty, promoting economic sustainability for all.
- Climate
 - Actively combat climate change through innovative or proven policies, green jobs, sustainable facility construction or maintenance and hazard mitigation.
- Environment
 - Protect and promote our natural and agricultural resources, diverse habitats and sensitive species.
 - Cultivate a natural environment for residents, visitors and future generations to enjoy.
- Resiliency
 - Ensure the capability to respond and recover to immediate needs for individuals, families, and the region.

Community

- Engagement
 - Inspire civic engagement by providing information, programs, public forums or other avenues that increase access for individuals or communities to use their voice, their vote, and their experience to impact change.
- Safety
 - Support safety for all communities, including protection from crime, availability of emergency medical services and fire response, community preparedness and regional readiness to respond to a disaster.
- Quality of Life
 - Provide programs and services that enhance the community through increasing the wellbeing of our residents and our environments.
- Communications
 - Create proactive communication that is accessible and transparent.

- Offer interpreters for community meetings or translations of information to ensure residents have every opportunity to make informed decisions while listening to, participating in or using County services or programs.

Partnership

- Facilitate meaningful conversations, shared programming, grant opportunities, or other opportunities to maximize resources through community partnerships to benefit the region.

Empower

- Workforce
 - Invest in our workforce and operations by providing support services and excellent customer service to ensure continuity of operations remains at its best.
- Transparency and Accountability
 - Maintain program and fiscal integrity through reports, disclosures, and audits.
- Innovation
 - Foster new ideas and the implementation of proven best practices to achieve organizational excellence.

Justice

- Safety
 - Ensure a fair and equitable justice system in the defense and prosecution of crimes, investigations of abuse and neglect, and support and services for victims.
 - Focus efforts to reduce disparities and disproportionality across the justice system.
- Restorative
 - Contribute to a system of restorative justice that strives to repair harm to victims and to the community at large, as well provide inclusive opportunities for justice involved individuals to contribute to the region.
- Environmental
 - Advance equal protection and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies with an urgent focus on communities of color and low-income

communities recognizing they historically lacked the same degree of protection from environmental and health hazards.

- Ensuring equal access to decision-making processes that create healthy environments in which to live, learn and work.

All County programs support at least one of these five Strategic Initiatives through Audacious Goals, Enterprise-wide Goals and Department Objectives that make achievement of the initiatives possible.

Within the structure of the two-year operational planning process, the County plans for and attains interim progress toward achievement of the Strategic Initiatives. Some of the highlights over the last year include:

Equity

- The Health and Human Services Agency (HHSA) Housing and Community Development Services provided funding to help open or break ground on 1,390 new units of affordable housing across the County. This was accomplished by developing excess County property in partnership with the Department of General Services, leveraging state, federal and private funds, and investing local dollars like the Innovative Housing Trust Fund. One affordable housing development that opened, the Levant Senior Cottages is the first to complete construction on County excess land. The site was formerly used for an old child welfare center and now is home to 127 low-income senior households.

Sustainability

- The Climate Action Plan (CAP) Update was adopted by the Board of Supervisors in September 2024. This is the result of several years of careful planning, community engagement, agency collaboration and scientific modeling. The CAP was developed through a multi-year, comprehensive public engagement process to ensure the plan is shaped by community input and centered on environmental justice. Feedback was received through 21 workshops, 232 meetings and events, 563 survey responses, and other engagements. This includes an Equity Framework which can be used as a guide to ensure community preferences and equitable outcomes are prioritized in CAP implementation. Ultimately, the measures in

the CAP Update will reduce greenhouse gas emissions (GHGs) 44.5% by 2030 placing the County on a path to net-zero emissions by 2045.

- The Department of General Services prepared greenhouse gas (GHG) inventories of County operations for calendar year 2023 and achieved a 2.1% reduction in total greenhouse gas emissions compared to calendar year 2022.

Community

- The Assessor/Recorder/County Clerk increased the number of qualified disabled veterans and their surviving spouses for the Disabled Veterans' Exemption to more than 17,500 resulting in a total annual savings exceeding \$28.0 million in property taxes, making San Diego the #1 County Assessor's Office in the State of California.
- The Sheriff's Department implemented the Blue Envelope Program at all San Diego Sheriff stations, all 14 law enforcement agencies in San Diego County, and with 34 community partners. This program is designed to promote inclusivity and serve as an enhanced communication awareness tool between law enforcement and community members diagnosed with a condition or disability such as autism spectrum disorder, dementia, anxiety, or other conditions that might require additional accommodations or awareness during a law enforcement response.
- The County Health and Human Services Agency, Department of Homeless Solutions and Equitable Communities received funding from the Federal Communications Commission to help residents access quality and affordable internet through an Affordable Connectivity Outreach, Education and Navigation Program. This provided access to all six county health service regions through multilingual outreach. The program provides a monthly discount for internet services for eligible households, while a Community Health Worker team focuses on providing the program through culturally and linguistically responsive community engagement to communities across the county that have sociodemographic characteristics associated with long-standing health disparities.
- In support of the County's Regional Decarbonization Framework, the Office of Sustainability & Environmental Justice held five community conversations to shape events planned for their neighborhoods about local decarbonization and environmental justice

priorities. Approximately 250 people rolled up their sleeves to co-design future gatherings that will be held in each supervisorial district. The core organizations hosting these future climate gatherings are Climate Action Campaign, Urban Collaborative Project, Bayside Community Center, El Cajon Collaborative, San Diego 350, and Global Action Resource Center. A wide range of other organizations and public agencies also participated to help inform the process and share resources including Metropolitan Transit System (MTS), Air Pollution Control District (APCD), San Diego Community Power, and local city staff. Each event highlighted unique community values, culture, and heritage through music, art, poetry and Tribal acknowledgments.

Justice

- The Probation Department completed construction of the Youth Transition Campus Phase two that includes facilities for justice-involved youth, including housing units with direct access to exterior patios and recreational areas. The Educational Complex resembles a community school with classrooms that are trauma-informed and include multi-purpose rooms for school assemblies and graduations. In addition, the department expanded programming for the Youth Development Academy, Secure Youth Treatment Facility, to provide enhanced trauma-informed, culturally responsive care using a developmental and therapeutic approach to rehabilitation.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its annual comprehensive financial report for the fiscal year ended June 30, 2023. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its

eligibility for another certificate.

Other Awards and Recognitions

The County of San Diego workforce continually plans to cut costs, streamline processes, incorporate the newest technology and expand services to improve the lives of residents and save taxpayer dollars. While the goal is to improve communities, it is gratifying to be recognized for those efforts. The following is a sample of the recognition the County received during the past fiscal year for its leadership and excellence in operations:

The County earned 47 Achievement Awards from the National Association of Counties (NACo) for its innovative programs. Some of the award-winning programs include:

- The Department of Child Support Services (DCSS) received a Best in Category NACo award for Tomorrow's Leaders Today. DCSS' enhanced implementation of the County's Student Worker Program has achieved remarkable success in fostering a positive and productive work environment. By providing students with meaningful opportunities to contribute to the department's mission, DCSS not only benefits from fresh perspectives and innovative ideas but also allows students to gain valuable real-world experiences instrumental in their professional development. This relationship fosters a vibrant work culture that embraces diversity and continuous learning.
- The Land Use and Environment Group (LUEG) received 16 national awards from NACo for programs that address climate action, protecting agriculture, outdoor recreation, smart growth/land use planning, waste reduction/diversion, process improvements, preventing stormwater runoff, public education/engagement and literacy.
- The Department of Human Resources was received a national award from NACo for its *Expanding Inclusion Through Neurodivergent Excellence Initiative*. This program was recognized for revolutionizing recruitment and creating a more equitable work environment for neurodivergent individuals.
- The District Attorney's Juvenile Diversion Initiative (JDI) received a NACo award in the criminal justice and public safety category. JDI is

- a countywide early intervention program that prioritizes diversion options for youth instead of filing criminal charges. The goal of JDI is to reduce the number of youths who enter the juvenile justice system, engage the community and stakeholders in the youth's rehabilitation, and address the causes of the youth's unsafe behaviors while at the same time fostering accountability to crime victims and community. This voluntary program for youth between ages 12 and 18 provides comprehensive therapeutic services, pro-social skill-building opportunities, educational support, and restorative justice community conferencing to ensure participants are supported and the needs of victims are addressed.
- The County of San Diego was the recipient of a California State Association of Counties 2023 Challenge Award. The County received an award for the Promoting Menstrual Equity in San Diego County program expanding into all County facilities, serving as a model to other jurisdictions to replicate. The Challenge awards are presented to the most innovative programs across the categories.
 - LUEG's public-facing infographics supporting the 2024-25 Operational Plan won for best graphic and website design at the DNA Paris Design Awards 2024 at the European Design Circuit in Paris, France. The project also won a 2024 Graphic Design USA Digital Design Award. The competition received a record turnout of nearly 3,000 entries, and only the top 10% were selected as winners.
 - The County Treasurer-Tax Collector's Office won first Place in the 2023 *Pensions & Investments Eddy Awards* for public plans with more than 5,000 participants in the category of Ongoing Investment Education as it relates to the Deferred Compensation Program (401(a) and 457(b) plans).
 - For the fifth year in a row, the Edgemoor Distinct Part Skilled Nursing Facility in Santee made Newsweek's America's Best Nursing Homes 2024 list for California. Edgemoor is part of the Behavioral Health Services department, serving some of our most vulnerable residents, 24 hours a day with excellent care. The prestigious list highlights top nursing homes compared to others in the same state based on performance data, peer recommendations, the facility's handling of COVID-19 response and protocols.

Acknowledgments

We would like to express our appreciation to the accounting staff of County departments and the staff of the Auditor and Controller's department whose coordination, dedication and professionalism are responsible for the preparation of this report. We would also like to thank Eide Bailly LLP for their professional support in the preparation of the Annual Comprehensive Financial Report. Lastly, we thank the members of the Board of Supervisors, the Chief Administrative Officer, Group/Agency General Managers and their staff for using sound business practices while conducting the financial operations of the County.

Respectfully,

JOAN BRACCI

Independent Auditor's Report

To the Board of Supervisors
County of San Diego, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of San Diego, California (County), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the First 5 Commission of San Diego (Commission), a discretely presented component unit, which represent 100% of the assets, net position, and revenues of the discretely presented component unit, and the San Diego County Employees Retirement Association (SDCERA), a fiduciary component unit, which represents 58% of assets, 59% of net position, and 8% of revenues/additions of the aggregate remaining fund information, as of June 30, 2024. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as it relates to the amounts included for the Commission and SDCERA, are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

What inspires you, inspires us. | eidebailly.com

10681 Foothill Blvd., Ste. 300 | Rancho Cucamonga, CA 91730-3831 | T 909.466.4410 | F 909.466.4431 | EOE

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of the County's proportionate share of the net pension liability, the schedule of the County's contributions – net pension liability, the schedule of the County's proportionate share of the net OPEB liability, the schedule of the County's contributions – OPEB, and the schedules of revenues, expenditures, and changes in fund balance – budget and actual for the General Fund, Public Safety Fund, and Tobacco Endowment Fund, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund information and other supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund information and other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 22, 2024, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

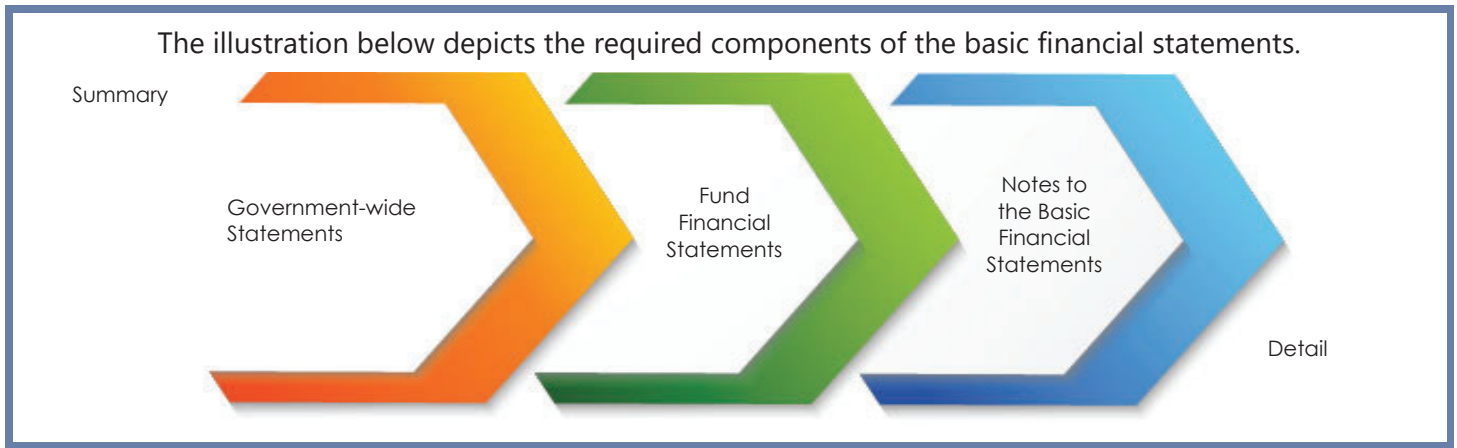

Rancho Cucamonga, California
November 22, 2024

This section of the County of San Diego's (County) Annual Comprehensive Financial Report provides a narrative overview and analysis of the basic financial activities of the County as of and for the year ended June 30, 2024.

The intent of the information presented here, in conjunction with the Letter of Transmittal is to provide the reader with a clearer picture of the County's overall financial status. Unless otherwise indicated, all amounts in this section are expressed in thousands of dollars.

Financial Highlights

- The assets and deferred outflows of resources of the County exceeded liabilities and deferred inflows of resources at the close of fiscal year 2024 by \$4.88 billion (net position). Of this amount, \$4.16 billion represents net investment in capital assets; \$2.16 billion is restricted for specific purposes (restricted net position); and the remaining portion represents negative unrestricted net position of \$(1.44) billion.
- Total net position increased by \$472.3 million as follows:
 - Governmental activities net position increased by \$464.6 million. The current and other assets, and capital assets increases of \$445.7 million, and \$228.3 million, respectively; coupled with \$23.5 million decrease in the Net OPEB liability; the \$91.3 million decrease in other liabilities; the Net Pension liability decrease of \$84.7 million; and the \$27.5 million decrease in deferred inflows of resources all had the effect of increasing net position; while the decrease to net position included the \$384.6 million decrease in deferred outflows of resources and the \$51.8 million increase in other long-term liabilities.
 - Business-type activities net position increased by approximately \$7.7 million. The \$1.5 million increase in capital assets; coupled with the \$400 thousand decrease in the Net Pension Liability; the \$100 thousand decrease in long-term liabilities; and the decrease of deferred inflows of resources of \$8.7 million, all had the effect of increasing net position; while, the current and other assets decrease of \$100 thousand, coupled with the \$1.4 million decrease in deferred outflows of resources, and increases in other liabilities of \$1.5 million had the effect of decreasing net position.
 - Program revenues for governmental activities were approximately \$5.07 billion. Of this amount, \$4.35 billion or 85.8% was attributable to operating grants and contributions coupled with capital grants and contributions, while charges for services accounted for approximately \$720 million or 14.2%.
 - General revenues for governmental activities were \$2.08 billion. Of this amount, property taxes and property taxes in lieu of vehicle license fees accounted for approximately \$1.64 billion or 78.8%; while transient occupancy tax, real property transfer tax, miscellaneous taxes, sales and use taxes, investment earnings and other general revenues accounted for \$440 million or 21.2%.
 - Total expenses for governmental activities were \$6.69 billion. Public protection accounted for \$2.36 billion or 35.3%, while health and sanitation accounted for \$1.46 billion or 21.8%. Additionally, public assistance accounted for \$1.99 billion or 29.8% of this amount.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) *Government-wide* financial statements, 2) *Fund* financial statements, and 3) *Notes* to the basic financial statements. Required supplementary information is included in addition to the basic financial statements.

The *Government-wide financial statements* are designed to provide readers with a broad overview of County finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all County assets and deferred outflows of resources, offset by liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *Statement of Activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenue and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the aforementioned government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges for services (business-type activities). The governmental activities of the County include general government, public protection, public ways and facilities, health and sanitation, public assistance, education, and recreation and cultural. The business-type activities of the County include airport operations, jail stores commissary operations, and sanitation services.

Fund financial statements are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable

resources available at the end of the fiscal year. Such information may be useful in evaluating a county's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Public Safety Special Revenue Fund, and the Tobacco Endowment Special Revenue Fund; all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining and individual fund information and other supplementary information section in this report.

Proprietary funds are generally used to account for services for which the County charges customers - either outside customers, or internal departments of the County. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The County maintains the following types of proprietary funds:

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for airport operations, jail stores commissary operations, and sanitation services. The Airport Fund is considered to be a major fund. Data from the other enterprise funds are combined into a single, aggregated presentation. Individual fund data for each nonmajor enterprise fund

is provided in the combining and individual fund information and other supplementary information section in this report.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. Internal service funds are used to account for: the financing of public works and communications equipment; the financing of materials and supplies (purchasing); start up services for new and existing county service districts; the County's public liability and employee benefits activities; the financing of fleet services; facilities management activities; and, the financing of information technology services. Because all of these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The County's *internal service funds* are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in the combining and individual fund information and other supplementary information section in this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required supplementary information (RSI) is also presented. It provides budgetary comparisons for the General Fund, Public Safety Special Revenue Fund, and the Tobacco Endowment Special Revenue Fund (all major funds) in separate Schedules of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual. It also provides information about the County's proportionate share of the San Diego County Employees Retirement Association (SDCERA) pension plan (SDCERA-PP) collective net pension liability, and

the SDCERA retiree health plan (SDCERA-RHP) collective net other postemployment benefits liability; and information regarding the County's contributions to the SDCERA-PP and SDCERA-RHP.

Combining financial statements/schedules and supplementary information section of this report presents combining and individual fund statements and schedules referred to earlier that provide information for nonmajor governmental funds,

enterprise funds, internal service funds, and fiduciary funds and are presented immediately following the required supplementary information section of this report.

Analysis of Net Position

Net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets and deferred outflows of resources of the County exceeded liabilities and deferred inflows of resources by \$4.88 billion at the close of fiscal year 2024, an increase of \$472.3 million or 10.6% over fiscal year 2023. This included a \$174.6 million increase in net investment in capital assets, (a 4.4% increase over fiscal year 2023), and an increase of approximately \$356.1 million in the County's restricted net position (a 19.7% increase over fiscal year 2023). Additionally, unrestricted net position decreased by \$63.3 million (a 4.6% decrease over fiscal year 2023).

The aforementioned increase of \$472.3 million in net position was composed of the following changes in total assets, deferred outflows of resources, liabilities, and deferred inflows of resources:

- Total assets increased by \$675.5 million. This included increases in current and other assets and capital assets of \$445.6 million and \$229.9 million, respectively. The net increase of \$445.6 million in current and other assets was primarily attributable to an increase in cash and investments (including restricted and unrestricted cash and investments with fiscal agents) of \$142.6 million – due in part to the County's issuance of the Certificates of Participation, Series 2023 (County Public Health Laboratory and Capital Improvements) (Green Bonds) bonds for approximately \$160.9 million; a \$302.9 million increase in receivables, net, chiefly due to Health and Human Services Agency Public Health related accruals; coupled with a \$16.4 million increase in

property taxes receivables, net, and, a \$200 thousand increase in prepaid assets; offset by a \$9.3 million decrease in inventories; a \$7.2 million decrease in lease receivables; while the \$229.9 million net increase in capital assets consisted primarily of a \$226.4 million increase in land, easements and construction in progress and a \$3.5 million increase in other capital assets, net of accumulated depreciation and amortization.

- Deferred outflows of resources decreased by \$386.0 million, principally attributable to a net decrease in pension related deferrals due to a significant decrease in the actuarially determined net pension liability including decreases in net difference between projected and actual earnings on pension plan investments, and pension related changes of assumptions or other inputs, of \$575.6 million, and \$270.3 million, respectively; coupled with a \$2.0 million decrease in unamortized loss on refunding of long-term debt, and a \$1.6 million decrease in net difference between projected and actual earnings on OPEB plan investments; offset by a \$2.1 million increase in contributions to the OPEB plan subsequent to the measurement date; a \$265.7 million increase in the difference between expected and actual experience in the total pension liability; a \$7.5 million increase in pension related changes in proportionate share and differences between employer's contributions and proportionate share of contributions; and a \$188.2 million increase in contributions to the pension plan subsequent to the measurement date.
- Total liabilities decreased by approximately \$146.7 million, mainly due to a \$85.1 million decrease in the actuarially determined net pension liability; coupled with a \$23.6 million decrease in the actuarially determined net OPEB liability; and a \$232.6 million decrease in unearned revenue, offset by a \$9.3 million increase in accrued payroll; a \$133.3 million increase in accounts payable, a \$51.7 million net increase in non-net pension, non-net OPEB long-term liabilities; and, a \$300 thousand increase to accrued interest.
- Deferred inflows of resources decreased by \$36.2 million chiefly attributable to a significant decrease in the actuarially determined pension and OPEB related deferred inflow of resources of \$25.9 million in the difference between expected and actual experience in the total pension liability, coupled with a \$3.6 million decrease in the pension related changes in proportionate share and differences between employer's contributions and proportionate share of contributions. A \$4.2 million decrease in other various non-pension/non OPEB related deferred inflows; offset by a \$5 million increase in the gain on refunding of long-term debt, coupled with a \$2.5 million increase in property taxes received in advance.

The largest portion of the County's net position reflects its net investment in capital assets of \$4.2 billion (land, easements, buildings and improvements, equipment, software, infrastructure, and right-to-use assets; less any related outstanding debt used to acquire those assets). The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's net investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be liquidated for these liabilities.

An additional portion of the County's net position (restricted net position) equaled \$2.2 billion and represents resources that are subject to external restrictions on how they may be used. External restrictions include those imposed by grantors, contributors, laws and/or regulations of other governments.

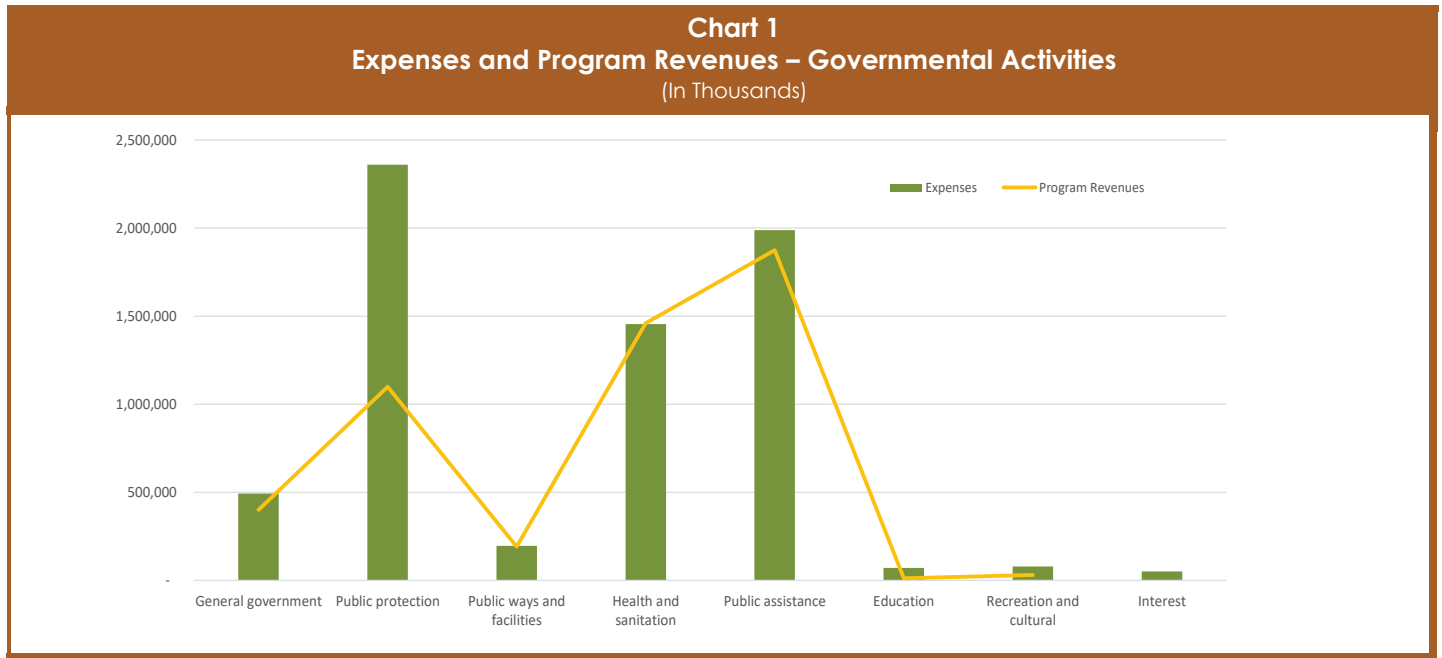

The remaining portion of the County's net position includes \$(1.4) billion in net negative unrestricted net position. The majority of this balance represents the negative unrestricted net position attributable to the County's outstanding Net Pension Liability and Net OPEB Liability.

Analysis of Changes in Net Position

At June 30, 2024, changes in net position equaled \$472.3 million. Principal revenue sources contributing to the change in net position were operating grants and contributions of \$4.30 billion and property taxes and property taxes in lieu of vehicle license fees totaling of \$1.64 billion. These revenue categories accounted for approximately 82.3% of total revenues. Principal expenses were in the following areas: public protection, \$2.36 billion, public assistance, \$1.99 billion; and health and sanitation, \$1.46 billion. These expense categories accounted for 85.9% of total expenses.

Governmental activities

At the end of fiscal year 2024, total revenues for the governmental activities were \$7.15 billion, while total expenses were \$6.69 billion. Governmental activities increased the County's net position by \$460 million.

Expenses:

Total expenses for governmental activities were \$6.69 billion, an increase of \$550 million or 8.95% (\$549 million increase in functional expenses offset and a \$1 million increase in interest expense). Public protection (35%) and public assistance (30%) were the largest functional expenses, followed by health and sanitation (22%).

The \$550 million net increase in functional expenses mainly consisted of the following:

- \$359.5 million net increase in salaries and benefits costs is primarily due to negotiated labor agreements and increase in retirement contributions;
- \$95 million increase in alcohol and drug treatment

and mental health programs;

- \$23.4 million increase in CalWORKS participant benefits;
- \$22.7 million decrease in Housing and Community Development primarily tied to Emergency Rental Assistance Program (ERAP) payments;
- \$17.9 million increase tied to January 22, 2024 Winter Storm Emergency Temporary Lodging and Food services to flood victims;
- \$14.3 increase in one-time expenses for the Next Generation Regional Communication System;
- \$10.5 million increase in Child and Family Well-Being programs;
- \$8.5 million increase due to additional ambulance transportation services;
- \$4.9 million decrease due to the completion of the PeopleSoft upgrade project; and,
- \$4.8 million increase primarily due to an increase in milestone payments for the Integrated Property Tax System implementation.

Chart 2
Revenues By Source - Governmental Activities
 (As a Percent)

Revenues:

Total revenues for governmental activities were \$7.15 billion, an increase of 10.5% or \$680 million from the previous year. This increase consisted of an increase in program revenues of \$610 million and an increase in general revenues of \$70 million as follows:

The \$610 million net increase in program revenue was primarily due to of the following:

- \$179.5 million increase tied to the American Rescue Plan Act;
- \$134.9 million increase tied to the County's T3 Strategy of Test, Trace and Treat to support Covid-19 response efforts;
- \$56.3 million increase tied to mental health and behavioral health programs;
- \$50.4 million increase in alcohol and drug treatment and mental health programs;
- \$45.3 increase in one-time funding dedicated for costs in health and human services programs;
- \$26.1 million increase in state aid tied to public assistance programs;
- \$16.2 million increase in one-time revenues for the Next Generation Regional Communication System;
- \$8.7 million increase tied to the Innovative Housing Trust Fund loan reimbursements;

- \$3.9 million decrease due to the end of the Microbusiness Grant; and,
- \$2.3 million decrease due to the Cannabis Tax Fund Toxicology Grant ending.

General revenues increased overall by approximately \$70 million, principally due to an increase of \$103 million in investment earnings, attributable to an overall net increase in the fair value of investments, coupled with an increase in interest rates led by the Federal Reserve; \$64 million increase in property taxes and \$37 million increase in property taxes in lieu of vehicle license fees, both attributable to the county-wide growth in assessed valuation; and increases in sales and use taxes of \$10 million; offset by a decrease in real property transfer taxes of \$2 million and a decrease in other revenue of \$142 million.

The County's governmental activities rely on several sources of revenue to finance ongoing operations. As shown in Chart 2, operating grants and contributions of \$4.3 billion accounted for 60.6%, the largest share of this revenue. These monies are received from parties outside the County and are generally restricted to one or more specific programs. Examples of operating grants and contributions include State and federal revenue for public assistance programs and health and sanitation programs.

Property taxes and property taxes in lieu of vehicle license fees are not shown by program, but are effectively used to support program activities county-wide. Combined, these general revenues equaled \$1.64 billion and accounted for 78.8% of governmental activities - general revenues. Additionally, charges for services were \$665 million and accounted for 13.3% of revenues applicable to governmental activities - program revenues.

Other factors concerning the finances of the County's major governmental funds are discussed in the governmental funds section of the "Financial Analysis of Major Funds."

- \$1.5 million increase in charges for services - service charges in the Sanitation District - Other Fund;
- \$900 thousand increase in Airport Fund grants received;
- \$800 thousand increase in charges for services - service charges in the San Diego County Sanitation District Fund;
- \$600 thousand decrease in contracted service expenses for the Airport Fund;
- \$500 thousand increase in charges for services revenue attributable mainly to an increase in commissary sales in the Jail Stores Commissary Fund; and,
- \$900 thousand increase in repairs and maintenance expense mainly attributable to a \$600 thousand increase in the Airport Fund coupled with a \$200 thousand increase in the San Diego County Sanitation District Fund and a \$100 thousand increase in the Sanitation District - Other Fund.

Financial Analysis of Major Funds

The County uses fund accounting to demonstrate and ensure compliance with finance-related legal requirements.

General Fund:

The General Fund is the chief operating fund of the County. At the end of fiscal year 2024, its unassigned fund balance was \$691.8 million, while total fund balance was \$3.0 billion, an increase of approximately \$181.8 million from fiscal year 2023.

This \$181.8 million net increase in fund balance was significantly attributable to the following:

Business-type Activities

Business-type activities, which are exclusively comprised of enterprise funds, are intended to recover all or a significant portion of their costs through user fees and charges. As shown in Chart 3, charges for services represent \$63 million or 83.9% of total revenues.

Net position of business-type activities increased by approximately \$7.7 million, or 2.7%. Key increases included the following:

- \$3.4 million increase tied to investment earnings attributable in part to an overall net increase from the prior year's fair value of investments and an increase in interest earned on deposits and investments;

- \$101 million increase in property taxes and property taxes in lieu of vehicle license fees, both attributable to the county-wide growth in assessed valuation; there was an 7.06% increase in assessed valuation;
- \$45.3 million increase in HSA realignment revenues, including available one-time funding based on statewide sales tax receipts and vehicle license fees that are dedicated for costs in health and human service programs;
- \$29.6 million decrease tied to the Emergency Rental Assistance Program revenue;
- \$17.9 million increase in expenditures due to January 22, 2024 Winter Storm Emergency Temporary

Lodging and Food services to flood victims;

- \$17.8 million increase in interest revenue attributable to the combination of higher daily balances and higher apportionment rates. During the year, the average daily balance of the San Diego County Investment Pool increased by 8.4% compared to fiscal year 2023. In addition, the apportionment rate increased by 1.18% during the year, from 2.63% to 3.81%;
- \$14.3 million increase in one-time expenditures for the Next Generation Regional Communication System; and,
- \$10.5 million increase due to continued growth activities in the Unincorporated Area.

Public Safety Special Revenue Fund:

This fund was established to account for Proposition 172 half-cent sales taxes collected and apportioned to the County by the California Department of Tax and Fee Administration to fund public safety activities. Per Government Code Section 30052, a "maintenance of effort" (pre-Proposition (Prop) 172 public safety funding level) must be maintained by the County to comply with the statute's spending requirements. In accordance with the Code, funds are allocated to the Sheriff, District Attorney, and Probation departments. Transfers out of this fund subsidize the following types of public safety activities: juvenile detention services; facilities maintenance and support; capital projects, equipment and other one-time expenditures; ongoing technology initiatives; and various region-wide services.

As of June 30, 2024, the total (restricted) fund balance in the Public Safety Special Revenue Fund was \$108 million, a \$50 million decrease from the previous fiscal year; mainly due to regional law enforcement; detention facility improvements; upgrades of information technology programs and applications; twin-engine helicopter; and medical and mental health services.

Tobacco Endowment Special Revenue Fund:

This special revenue fund is used to account for the \$411 million the County received from the Tobacco Asset Securitization Corporation (Corporation) related to the sale of 25 years of tobacco settlement revenue in fiscal year 2002; and an additional \$123 million the

County received from the Corporation resulting from the issuance of the San Diego County Tobacco Asset Securitization Corporation refunding bonds in fiscal year 2006. At the end of fiscal year 2024, fund balance was \$237.3 million, a decrease of approximately \$10.8 million from fiscal year 2023, principally due to approximately \$8.7 million in investment income, offset by a \$4.2 million unrealized investment loss, coupled with a \$15.1 million in transfers out to the General Fund for the support of health related program expenditures, along with \$133 thousand of administrative costs.

Airport Fund:

The Airport Fund is used to account for the maintenance, operations, and development of County airports. A major objective of the airport program is to develop airport property utilizing federal and state grants to enhance the value of public assets, generate new revenues, and catalyze aviation and business development. As of June 30, 2024, the total net position of the Airport Enterprise Fund was \$138.8 million, a \$4.2 million increase from the previous fiscal year. This net increase was principally due to a \$1 million increase in Airport Fund investment earnings; coupled with a \$1 million increase in grant revenue; a \$600 thousand decrease in contracted services expenses; a \$200 thousand decrease in equipment rental expenses; and, a \$200 thousand decrease in fuel expenses.

General Fund Budgetary Highlights

The County's final budget differs from the original budget (see Notes to Required Supplementary Information) in that it contains supplemental appropriations approved during the fiscal year for various programs and projects, as well as transfers of appropriations, budget corrections, rebudgets, and account reclassifications. For the fiscal year ended June 30, 2024, net expenditure appropriations increased by a net \$84.2 million and appropriations for transfers out increased by \$20.1 million.

Significant appropriation increases of note to the original budget were the following:

- \$31.1 million for a one-time contribution to the San Diego County Employees Retirement Association pension fund

- \$23.7 million for emergency assistance to residents following the 2024 severe winter storms
- \$14.0 million for various efforts to address substance use disorder
- \$11.3 million for law enforcement and criminal justice needs
- \$7.7 million for fire, emergency and medical needs
- \$5.3 million for mental health services for people in the justice system
- \$2.4 million for cannabis program activities
- \$2.0 million for environmental sustainability and climate related efforts

Actual revenues underperformed final budgeted amounts by \$370.2 million, while actual expenditures were less than the final budgeted amount by \$1.2 billion. The combination of revenue and expenditure shortfalls resulted in a revenue/expenditure operating variance of \$785.9 million. Other financing sources and uses of funds resulted in a net sources versus uses variance from budget of \$431.1 million. These combined amounts resulted in a variance in the net change in fund balance of \$1.2 billion.

Highlights of actual expenditures compared to final budgeted amounts are as follows:

Salaries and Benefits:

The final budget over expenditure variance across all functions in this category was \$62.1 million. Positive variances were realized in the Public Safety Group, Finance and General Government Group, Health and Human Services Agency and the Land Use and Environment Group primarily from lower than budgeted salaries and employee benefits costs due to staff turnover and vacancies.

Services and Supplies:

The final budget over expenditure variance across all County groups in this category was \$1.1 billion which was a combination of \$838.6 million from year end encumbrances and \$277.5 million from operating results. Overall, this expenditure variance primarily resulted from savings in various contracted services, procurement delays, lower costs than anticipated for various programs, and multi-year projects. This variance also includes appropriations for stabilization of anticipated pension costs in future years. Due to the

voter-approved passage of Measure C in 2018, an amendment to the County Charter entitled *Protecting Good Government Through Sound Fiscal Practices*, unused amounts that were appropriated for pension stabilization are legally restricted for pension-related costs and are included in the Restricted fund balance in the General Fund.

Delayed Expenditures:

Many County projects, such as maintenance, information technology, and various enterprise activities, take place over more than one fiscal year. At inception they are budgeted at full expected cost, resulting in budgeted over expenditure variances that are rebudgeted in the subsequent fiscal year. Examples include multi-year obligations for projects and programs associated with the public safety Regional Communication System, housing, American Rescue Plan Act-funded programs, information technology, addressing infectious diseases, energy efficiency, vehicle purchases, and various capital and major maintenance projects.

Capital Assets and Commitments

Capital Assets

As of June 30, 2024, the County's capital assets for both governmental and business-type activities were \$4.58 billion and \$187.9 million, respectively, net of accumulated depreciation/amortization. Investment in capital assets includes land, construction in progress, buildings and improvements, infrastructure (including roads, bridges, flood channels, and traffic signals), equipment, software, easements and right-to-use assets. Significant increases to capital assets in fiscal year 2024 included:

Governmental Activities:

- \$69.9 million towards acquisition of equipment.
- \$58.4 million towards construction and improvements of County-maintained roads, bridges, and other road-related infrastructure.
- \$46.1 million towards construction of County Public Health Laboratory. Total project costs are estimated at \$127.1 million.
- \$43.1 million towards major systems renovation of Hall of Justice (HOJ). Total project costs are estimated at \$56.1 million.
- \$41.7 million towards development of various

software applications.

- \$21.8 million towards construction of Youth Transition Campus. Total project costs are estimated at \$210.6 million.
- \$21.6 million towards improvement of various capital projects.
- \$16.1 million towards construction of Tri-City Healthcare District Psychiatric Facility. Total project costs are estimated at \$27.6 million.
- \$15.1 million towards renovation of George Bailey Detention Facility (GBDF). Total project costs are estimated at \$54.0 million.
- \$13.5 million towards renovation of County Administration Center (CAC). Total project costs are estimated at \$139.8 million.
- \$8.9 million towards renovation of Sheriff Ridgehaven Headquarters. Total project costs are estimated at \$31.6 million.
- \$7.4 million towards construction of Ramona Intergenerational Community Campus (RICC). Total project costs are estimated at \$15.0 million.
- \$7.4 million in infrastructure donated by developers.
- \$7.1 million towards various land acquisitions for the Multiple Species Conservation Program (MSCP).
- \$6.9 million towards construction of Southeast San Diego Live Well Center. Total project costs are estimated at \$76.0 million.
- \$5.8 million towards reconfiguration of South Region Live Well Center (SRLWC). Total project costs are estimated at \$9.1 million.
- \$5.0 million towards construction of East Otay Mesa Fire Station #38. Total project costs are estimated at \$20.3 million.
- \$4.5 million towards construction of Julian Library Community Room. Total estimated project costs are estimated at \$6.9 million.
- \$4.5 million towards expansion of Sweetwater Summit Regional Park Campground. Total estimated project costs are estimated at \$6.7 million.
- \$3.4 million towards replacement of East Mesa Juvenile Detention Facility (EMJDF) Generator. Total estimated project costs are estimated at \$6.2 million.
- \$3.0 million towards acquisition of Butterfield Ranch. Total estimated project costs are estimated at \$3.0 million.
- \$3.0 million towards improvements at Valley Center Park. Total estimated project costs are estimated at \$4.5 million.
- \$3.0 million towards construction of East Region Crisis Stabilization Unit (CSU). Total estimated project costs are estimated at \$28.8 million.
- \$3.0 million towards construction of Village View Park. Total estimated project costs are estimated at \$14.0 million.
- \$2.8 million towards construction of San Diego County Animal Shelter. Total project costs are estimated at \$37.6 million.
- \$2.7 million towards construction of Waterfront Park Active Recreation. Total project costs are estimated at \$3.7 million.
- \$2.6 million towards construction of Bancroft Safe Parking Spaces. Total project costs are estimated at \$3.7 million.
- \$2.4 million towards critical systems upgrade at Town Centre Manor Public Housing. Total project costs are estimated at \$6.3 million.
- \$1.7 million towards construction of Lakeside Equestrian Facility. Total project costs are estimated at \$19.4 million.
- \$1.6 million towards replacement and upgrade of East Mesa Juvenile Detention Facility (EMJDF) Intercom System. Total project costs are estimated at \$4.7 million.
- \$1.6 million towards construction of Four Gee Park. Total project costs are estimated at \$2.0 million.
- \$1.5 million towards modernization of San Diego Central Jail (SDCJ) Security and Emergency Power Equipment. Total project costs are estimated at \$6.5 million.
- \$1.4 million towards Lakeside Baseball Park Synthetic Turf Replacement and Energy Upgrades. Total project costs are estimated at \$4.5 million.
- \$1.3 million towards construction of Casa De Oro Library. Total project costs are estimated at \$21.8 million.
- \$1.1 million towards construction of New Space for

the Office of Sustainability at County Administration Center (CAC). Total project costs are estimated at \$2.0 million.

- \$1.1 million towards replacement of South Bay Regional Center (SBRC) Escalators and Elevators. Total estimated project costs are estimated at \$3.5 million.
- \$1.0 million towards expansion of Rancho San Diego Library. Total project costs are estimated at \$2.0 million.
- \$1.0 million towards renovation of Volunteers of America (VOA) Substance Use Residential Treatment Services (SURTS) Facility. Total project costs are estimated at \$10.0 million.

Business-type Activities

- \$1.6 million towards improvements to Live Oak Springs Water System.
- \$1.4 million towards rehabilitation of Ramona Airport Tower Transient Apron.
- \$1.1 million towards improvements to La Presa Sewer Line.

For the government-wide governmental activities financial statement presentation, depreciable capital assets are depreciated from the acquisition date to the end of the current fiscal year. Governmental funds financial statements record capital asset purchases as expenditures.

Capital Commitments

As of June 30, 2024, capital commitments included the following:

Governmental Activities:

\$267.7 million for the construction of County Public Health Laboratory; renovation of George Bailey Detention Facility; renovation of County Administration Center; construction of Casa de Oro Library; renovation and modernization of Sheriff Ridgehaven Headquarters; purchase and renovation of Healthcare Facility for Residential Substance Use Disorder Services; renovation of Fallbrook Local Park; major systems renovation of Hall of Justice; development of Integrated Property Tax System; expansion and reconfiguration of La Maestra Family Clinic; reconfiguration of South Region Family Resource

Center; construction of Tri-City Healthcare District Psychiatric Facility; construction of Ramona Intergenerational Community Campus; construction of Heritage Park Building; construction of Youth Transition Campus; critical systems upgrade at Town Centre Manor Public Housing; improvements to Smuggler's Gulch at Tijuana River Valley Regional Park; construction of San Diego County Animal Shelter; procurement of Two Live Well Mobile Office Vehicles; replacement of East Mesa Juvenile Detention Facility Generator; construction of Southeast San Diego Live Well Center; procurement of Two Mobile Probation Service Centers; major maintenance improvements to San Diego Central Jail Security and Emergency Power Equipment; construction of Jacumba Fire Station #43; improvements of County Roads and Bridges; and vehicle acquisitions.

Business-type Activities:

\$2.2 million for the Rehabilitation of Ramona Airport Tower Transient Apron.

(Please refer to Note 7 in the notes to the basic financial statements for more details concerning capital assets and capital commitments.)

Long-Term Liabilities

Governmental Activities:

At June 30, 2024, the County's governmental activities had outstanding long-term liabilities (without regard to the net pension liability or net OPEB liability) of \$1.883 billion.

Of this amount, approximately \$1.126 billion pertained to long-term debt outstanding. Principal debt issuances included: \$437 million in Tobacco Settlement Asset-Backed Bonds; \$211 million in taxable pension obligation bonds; \$375 million in certificates of participation (COPs) and lease revenue bonds (LRBs); \$101 million in unamortized issuance premiums; and \$2 million in loans.

Other long-term liabilities included: \$9 million in financed purchases; \$310 million in claims and judgments; \$168 million in compensated absences; \$11 million for landfill postclosure costs; \$244 million for leases; \$13 million for subscriptions; and \$2 million for pollution remediation.

During fiscal year 2024, the County's total COPs, LRBs, unamortized issuance premiums, and other bonds and loans for governmental activities increased by \$82.943 million.

The \$82.943 million net increase was due to the following increases and decreases:

The increase to debt was \$189.750 million and included:

- The issuance of \$160.910 million in certificates of participation for the County Public Health Lab Project;
- \$1.717 million in governmental loans assumed by the San Diego County Fire Protection District;
- \$18.781 million in unamortized premiums related to the new certificates of participation;
- \$8.342 million of principal accreted (added) to the outstanding Tobacco Settlement Asset-Backed Bonds' Capital Appreciation Bonds principal.

Decreases to debt were \$106.807 million and included:

- \$99.862 million in principal debt service payments;
- \$6.945 million due to the effects of unamortized issuance premiums.

Business-type Activities:

Long-term liabilities (without regard to the net pension liability or net OPEB liability) for business-type activities consisted of \$586 thousand for compensated absences, and \$184 thousand in subscriptions.

During fiscal year 2024, long-term liabilities for business-type activities decreased by \$37 thousand due to a net increase of \$45 thousand in compensated absences coupled with a \$82 thousand decrease in subscriptions.

(Please refer to Notes 12 through 18 in the notes to the financial statements for more details concerning long-term debt; changes in long-term liabilities; and funds used to liquidate liabilities.)

Credit Ratings

The County's issuer and credit ratings on its bonded program are as follows:

Table 3

Issuer Rating	Standard		
	Moody's	& Poor's	Fitch
Certificates of Participation San Diego County Capital Asset Leasing Corporation (SANCAL)	Aaa	AAA	AAA
Lease Revenue Refunding Bonds SDRBA (County Operations Center)	Aa1	AA+	AA+
Series 2016A Pension Obligation Bonds	Aaa	AAA	AAA
Tobacco Settlement Asset- Backed Bonds - Series 2006B CAB (First Subordinate)	not rated	CCC-	not rated
Tobacco Settlement Asset- Backed Bonds - Series 2006C CAB (Second Subordinate)	not rated	CCC-	not rated
Tobacco Settlement Asset- Backed Bonds - Series 2006D CAB (Third Subordinate)	not rated	CCC-	not rated
Tobacco Settlement Asset- Backed Bonds - Series 2019A (Class 1) Serial Bonds	not rated	A, A-	not rated
Tobacco Settlement Asset- Backed Bonds - Series 2019A (Class 1) Term Bonds	not rated	BBB+	not rated
Tobacco Settlement Asset- Backed Bonds Series 2019B-1 (Class 2) Senior CIB	not rated	BBB-	not rated
Tobacco Settlement Asset- Backed Bonds - Series 2019B-2 (Class 2) Senior CAB	not rated	not rated	not rated
San Diego County Redevelopment Agency Bonds	not rated	not rated	not rated

The County's issuer and credit ratings are assigned by three of the major rating agencies: Moody's Investors Service (Moody's), S&P Global Ratings (Standard & Poor's), and Fitch Ratings (Fitch). The County's existing triple A Issuer Ratings were affirmed in June 2024 by Moody's and Fitch and in October 2023 by Standard & Poor's.

In June 2024 Moody's reaffirmed the existing Aaa rating on the County's outstanding Pension Obligation Bonds. Fitch upgraded the County Pension Obligation Bonds to AAA in June 2024 and Standard & Poor's reaffirmed their AAA rating in October 2023.

The County's outstanding lease-backed obligations Aa1 rating from Moody's was reaffirmed June 2024. In FY 2024 Standard & Poor's and Fitch had no change to their AA+ ratings reaffirmed in October 2023 and June 2024. The one notch difference between the County's issuer and lease-backed rating reflects the standard legal structure for these abatement lease financings and leased assets.

In FY 2024 the Tobacco Settlement Asset-Backed Bonds Series 2006B, 2006C, and 2006D (Capital Appreciation Bonds) maintained ratings reaffirmed by Standard and Poor's in October 2023. The ratings for the Series 2019 Tobacco Settlement Asset-Backed Bonds, Classes A and B-1 (Serial and Term Bonds, and Current Interest Bonds, respectively) also remained unchanged except for one rating change from A- to A for the 2019 Class A bonds maturing on June 1, 2033.

All three rating agencies noted the County's strong financial management, which effects a very strong fiscal position, and a large and diverse tax base, which bolsters the County's strong economy.

Economic Factors and Next Year's Budget and Rates

The state of the economy plays a significant role in the County's ability to provide core services and the mix of other services sought by the public. Risk factors are continuously monitored, including employment, the housing market, and the national economy as a whole.

The following economic factors were considered in developing the fiscal year 2025 Operational Plan:

- The fiscal year 2025 General Fund adopted budget contains total appropriations of \$6.63 billion. This is an increase of \$416.2 million, or 6.7%, from the fiscal year 2024 General Fund adopted budget. Program Revenue comprises 67.3% of General Fund financing sources in fiscal year 2025, and is derived primarily from State and federal subventions, grants, and fees charged by specific programs. This revenue source is dedicated to, and can be used only for, the specific programs with which it is associated.
- General purpose revenue (GPR) funds local discretionary services, as well as the County's share of costs for services that are provided in partnership with the state and federal governments. GPR comprises approximately 29.8%

of the General Fund. In the fiscal year 2025 adopted budget, the County's GPR increased 8.7%; with budgeted GPR of \$1,973.1 million in fiscal year 2025 compared to \$1,814.8 million budgeted in fiscal year 2024.

- The largest source of GPR is property tax revenue, which represents 49.5% of total GPR in fiscal year 2025, and includes current secured, current supplemental, current unsecured and current unsecured supplemental property taxes. The term "current" refers to those taxes that are due and expected to be paid in the referenced budget year. For fiscal year 2025, property tax revenue is budgeted at \$976.1 million, which is \$66.2 million or 7.3% higher than the budget for fiscal year 2024 and the increase is mainly due to the anticipated 4.63% Assessed Value (AV) growth. For fiscal years 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022 and 2023 the final growth rates were 5.80%, 5.59%, 6.35%, 6.08%, 5.72%, 5.33%, 4.02%, 7.96% and 6.86% respectively. For fiscal year 2025, an assumed rate of 4.63% is projected in overall assessed value of real property.
- Current secured property tax revenue (\$938.4 million in fiscal year 2025) is expected to increase by \$57.4 million in fiscal year 2025 from the adopted budget level for fiscal year 2024. This revenue is generated from the secured tax roll, that part of the roll containing real property, including residential and commercial property as well as State-assessed public utilities. The fiscal year 2025 revenue amount assumes an increase of 4.63% in the local secured assessed value. The budget also makes certain assumptions regarding the County's share of countywide property tax revenues, the delinquency rate, exemptions and the amount of tax roll corrections and refunds on prior year assessments.
- Current supplemental property tax revenue (\$8.7 million in fiscal year 2025) is expected to slightly decrease by \$0.1 million in fiscal year 2025 from the adopted level for fiscal year 2024. This revenue is derived from net increases to the secured tax roll from either new construction or changes in ownership that occur subsequent to the January 1 lien date and are therefore more difficult to predict. These actions are captured on the supplemental tax roll.

- Current unsecured property tax revenue (\$28.9 million in fiscal year 2025) is not based on a lien on real property and is expected to increase by \$8.9 million in fiscal year 2025 from the adopted level for fiscal year 2024. The unsecured tax roll is that part of the assessment roll consisting largely of business personal property owned by tenants.
- Current unsecured supplemental property tax revenue (\$0.1 million in fiscal year 2025) remains largely unchanged. It is derived from supplemental bills that are transferred to the unsecured roll when a change of ownership occurs, and a tax payment is due from the prior owner. Or there may be a subsequent change in ownership following the initial change in ownership which occurs prior to the mailing of the initial supplemental tax bill.
- Property taxes in lieu of vehicle license fees (VLF) comprises 29.6%, or \$583.7 million, of budgeted GPR in fiscal year 2025. This revenue source was established by the State in fiscal year 2005 to replace the previous distribution of VLF to local governments. The annual change in this revenue source is statutorily based on the growth/reduction in the net taxable unsecured and local secured assessed value. With projected 4.63% increase in the combined taxable unsecured and local secured assessed value in fiscal year 2025, budgeted revenues are \$36.5 million higher than fiscal year 2024. The increase is partially associated with the change in actual assessed value in fiscal year 2024 which increased by 6.86% compared to a budgeted increase of 5.00%.
- Teeter revenue represents approximately 0.9%, or \$16.8 million, of budgeted GPR in fiscal year 2025. In fiscal year 1994, the County adopted the alternative method of secured property tax apportionment available under Chapter 3, Part 8, Division 1, of the California Revenue and Taxation Code (also known as the "Teeter Plan.") Under this plan, the County advances funds to participating taxing entities to cover unpaid (delinquent) taxes (the "Teetered Taxes.") The County's General Fund benefits from this plan by being entitled to future collections of penalties and interest that are due once the delinquent taxes are paid. A legal requirement of the Teeter Plan requires the County to maintain a tax loss reserve fund to cover losses that may occur if delinquent taxes are not paid, and the property goes into default and is sold for less than the outstanding taxes and assessments. Throughout the year, all interest and penalties collected on Teetered secured and supplemental property taxes are first deposited into the Teeter Tax Loss Reserve Fund. Any excess amounts above 25% of the total delinquent secured taxes and assessments may be transferred to the General Fund pursuant to Revenue and Taxation Code Section 4703.2(c). For fiscal year 2025, Teeter revenue is budgeted to decrease by \$0.5 million from fiscal year 2024 primarily due to projected lower collections from prior year receivables.
- Sales and use tax revenue is budgeted at \$62.3 million in fiscal year 2025, representing approximately 3.2% of GPR. This revenue is derived from taxable sales by retailers who sell or rent tangible personal property in unincorporated areas of the county, or from use taxes from consumers who purchase tangible personal property from out of State. Use taxes are also imposed on the storage, use, lease or other consumption of tangible personal property at any time a sales tax has not been paid by the retailer. Sales and use tax revenue in fiscal year 2025 is estimated to be \$17.2 million, or 38.2%, higher than the fiscal year 2024 adopted budget primarily due to the continued growth activities in the unincorporated area which increases the County's share of the Pool going forward.
- Intergovernmental revenue is budgeted at \$196.8 million in fiscal year 2025, an increase of \$20.7 million or 11.7% and is approximately 10.0% of total GPR. This increase is due to continuing growth in pass-through distributions and recognition of higher residual revenue from the distribution of former redevelopment funds. The intergovernmental revenue source represents funding the County receives from various intergovernmental sources, including Redevelopment Successor Agencies, the City of San Diego (pursuant to a memorandum of understanding related to the County's Central Jail), the federal government (Payments in Lieu of Taxes (PILT) for tax-exempt federal lands administered by the Bureau of Land Management, the National Park Service, and the U.S. Fish and Wildlife Service), and the State of California (reimbursement to the County for the Homeowner's Property Tax Relief (HOPTR) program). The largest portion of this funding is from redevelopment property tax

revenues. In 2011 pursuant to ABX1 26, redevelopment agencies were dissolved by the California legislature. The California Supreme Court upheld the constitutionality of the dissolution on December 29, 2011 and extended the date of dissolution to February 1, 2012. Based on Health and Safety Code Section 34183 (a)(1), the County auditor-controller shall remit from the Redevelopment Property Tax Trust Fund to each affected local taxing agency property tax revenues in an amount equal to that which would have been received under Health and Safety Code Sections 33401, 33492.140, 33607, 33607.5, 33607.7 or 33676. The residual balance (Health and Safety Code Section 34183(a)(4)), not allocated for specific purposes, will be distributed to local taxing agencies in accordance with Section 34188.

- Other revenues are budgeted at \$137.4 million in fiscal year 2025 and are approximately 7.0% of the total GPR. Various revenue sources make up this category including: Documentary Transfer Tax (DTT), interest on deposits and investments, fees, fines, forfeitures, prior year property taxes, penalties and cost on delinquency taxes, franchise fees, and other miscellaneous revenues. The fiscal year 2025 amount is a 15.2% or \$18.2 million increase from fiscal year 2024.

County management continuously evaluates and responds to the changing economic environment and its impact on the cost and the demand for County services. Specific actions are detailed in the fiscal year 2025 Adopted Operational Plan which can be accessed at https://www.sandiegocounty.gov/content/dam/sdc/auditor/pdf/adoptedplan_24-26.pdf.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the County's finances and to demonstrate the County's *accountability* for the money it receives. If you have questions about this report or need additional financial information, please contact the Auditor and Controller's Office, County of San Diego, located at 5530 Overland Avenue, Suite 410, San Diego, California 92123.

**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE GOVERNMENT-WIDE
STATEMENT OF NET POSITION**

June 30, 2024

(In Thousands)

Total fund balances - governmental funds	\$ 4,026,192
Capital assets used in governmental activities (excluding internal service funds) are not current financial resources and, therefore, are not reported in the balance sheet. This amount represents capital assets net of accumulated depreciation/ amortization.	4,497,845
Unamortized gain on refundings (to be amortized as interest expense).	(29)
Unamortized loss on refundings (to be amortized as interest expense).	24,033
Accrued interest on long-term debt.	(10,193)
Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds and recognized as revenue in the statement of activities.	590,782
Long-term interest receivable on housing loans.	30,019
Deferred outflows of resources - Contributions to the pension plan subsequent to the measurement date.	792,815
Deferred outflows of resources - Changes in proportionate share and differences between employer's contributions and proportionate share of contributions - Pension.	23,227
Deferred outflows of resources - Changes of assumptions or other inputs - Pension.	571,082
Deferred outflows of resources - Net difference between projected and actual earnings on pension plan investments.	361,034
Deferred outflows of resources - Differences between expected and actual experience in the total pension liability.	327,972
Deferred outflows of resources - Contributions to the OPEB plan subsequent to the measurement date.	18,567
Deferred outflows of resources - Net difference between projected and actual earnings on OPEB plan investments.	1,451
Deferred inflows of resources - Changes in proportionate share and differences between employer's contributions and proportionate share of contributions - Pension.	(6,084)
Deferred inflows of resources - Differences between expected and actual experience in the total pension liability.	(99,706)
Deferred inflows of resources - Net differences between projected and actual experience in the total OPEB investments.	42
Long-term liabilities, such as bonds, notes, loans payable, financed purchases, leases, claims and judgments, compensated absences, landfill postclosure, pollution remediation, net pension liability, and net OPEB liability are not due and payable in the current period and, therefore, are not reported in the funds. (See Note 2 to the financial statements; Table 3.)	(6,702,902)
Internal service funds are used by management to charge the costs of information technology, vehicle operations and maintenance, employee benefits, public liability, road and communications services, materials and supplies (purchasing), and facilities services to individual funds; and, to make loans for start-up services for new and existing county service districts. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in the governmental activities in the statement of net position. (See Note 2 to the financial statements; Table 3.)	137,748
Net position of governmental activities	<u>\$ 4,583,985</u>

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2024

(In Thousands)

Net change in fund balances - total governmental funds	\$	290,696
Governmental funds accrue property tax revenue which is deemed collectible within 60 days. However, for the statement of activities the total amount estimated to ultimately be collected is accrued.		3,381
Revenues that do not provide current financial resources are not reported as revenues in the funds (deferred inflows) but are recognized as revenue in the statement of activities.		190,542
Revenues earned on long-term housing loans.		3,058
Adjustment to nonspendable inventories.		(9,314)
Change in accounting estimate for postclosure costs - (public protection function) - San Marcos landfill.		10,626
Change in accounting estimate for pollution remediation - (general government function).		(195)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. (See Note 2 to the financial statements; Table 4.)		215,427
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net position. (See Note 2 to the financial statements; Table 4.)		4,118
Contributions to the pension plan subsequent to the measurement date.		793,250
Contributions to the OPEB plan subsequent to the measurement date.		18,630
The issuance of long-term debt (e.g. bonds, notes, loans, financed purchases, and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. (See Note 2 to the financial statements; Table 4.)		(77,145)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (See Note 2 to the financial statements; Table 4.)		(1,070,108)
Internal service funds are used by management to charge the costs of centralized services to individual funds. The net revenue (expense) of certain activities of internal service funds is reported within governmental activities. (See Note 2 to the financial statements; Table 4.)		91,676
Change in net position - governmental activities.	\$	<u>464,642</u>

Summary of Significant Accounting Policies

The Reporting Entity

The County of San Diego (the "County" or "CoSD"), is a political subdivision of the State of California (the "State") and as such can exercise the powers specified by the Constitution and laws of the State of California. The County operates under a charter and is governed by an elected five-member Board of Supervisors (the "Board").

The County provides a full range of general government services including police protection, detention and correction, public assistance, health and sanitation, recreation, library, flood control, public ways and facilities, inactive waste management, airport management and general financial and administrative support.

The County reporting entity includes all significant organizations, departments, and agencies over which the County is considered to be financially accountable. The component units discussed below are included in the County's reporting entity because of the significance of their operational and financial relationships with the County. As required by accounting principles generally accepted in the United States of America (GAAP), the financial statements present the financial position of the County and its component units.

These are entities for which the County is considered to be financially responsible and has a potential financial benefit/burden relationship.

Blended component units, although legally separate entities are, in substance, part of the County's operations and data from these component units are combined with the data from the primary government.

A discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the County.

Blended Component Units

The blended component units listed below are agencies and special districts whose governing board is the County Board of Supervisors. The County Board of Supervisors therefore has the ability to impose its will. These component units have a direct financial benefit/burden relationship with the County, are fiscally dependent on the County, and as such financial actions including the setting of rates, issuance of debt and the adoption of the annual budget remain with the County.

County of San Diego In Home Supportive Services Public Authority (IHSSPA) - The IHSSPA was established to assist eligible low-income elderly and persons with disabilities in San Diego County to live high quality lives in their own homes. The IHSSPA program is mandated by the State. As the employer of record, IHSSPA recruits, screens, and trains home care workers who are available to assist eligible consumers in their own homes. IHSSPA is reported as a *special revenue fund*.

County Service Districts (CSD) - The CSDs were established to provide authorized services such as road, park, fire protection and ambulance to specific areas in the County. They are financed by ad valorem property taxes in the area benefited or by special assessments levied on specific properties. The CSDs are reported as *special revenue funds*.

Flood Control District (FCD) - The FCD was established to provide flood control in the County's unincorporated area. It is financed primarily by ad valorem property taxes and charges to property owners. The FCD is reported as a *special revenue fund*.

Lighting Maintenance District (LMD) - The LMD was established to provide street and road lighting services to specified areas of the County. Revenue sources include ad valorem taxes, benefit fees, state funding and charges to property owners. The LMD is reported as a *special revenue fund*.

San Diego County Housing Authority (SDCHA) - The SDCHA was established to provide decent housing in a suitable environment for individuals who cannot afford standard private housing. Contracts with the U.S. Department of Housing and Urban Development provide the major funding sources. SDCHA is reported

in two *special revenue funds* - Housing Authority - Low and Moderate Income Housing Asset Fund, and the Housing Authority - Other Fund.

San Diego County Sanitation District (SD) - The *SD* was established to construct, operate and maintain reliable and sustainable sanitary sewer systems. Revenue sources include charges to property owners, other agencies, and grants. The *SD* is reported as an enterprise fund.

Sanitation District - Other (SD Other) - The *SD Other* was established to construct, operate and maintain reliable and sustainable sanitary sewer and potable water systems. Revenue sources include charges to property owners, other agencies, and grants. The *SD Other* is reported as an enterprise fund.

Blended component units governed by boards other than the CoSD Board of Supervisors are listed below. These component units are, in substance, part of the County's operations due to their relationship with the County and the nature of their operations. Specifically, the CoSD Board appoints either all or a majority of their board members and the services they provide solely benefit the County.

San Diego County Capital Asset Leasing Corporation (SANCAL) - *SANCAL* was established to finance the acquisition of County buildings and equipment. It is a nonprofit corporation governed by a five-member Board of Directors, which is appointed by the CoSD Board. *SANCAL* financial activities are reported in a *Debt Service Fund* and a *Capital Projects Fund*.

San Diego County Tobacco Asset Securitization Corporation (SDCTASC) - The *SDCTASC* was created under the California Nonprofit Public Benefit Corporation Law and was established to purchase tobacco settlement payments allocated to the County from the State of California, pursuant to a Tobacco Master Settlement Agreement. *SDCTASC* is governed by a Board of Directors consisting of three members, two of which are employees of the County and one independent director who is not an employee of the County. The *SDCTASC* is reported as part of the *Tobacco Securitization Joint Special Revenue Fund*.

San Diego Regional Building Authority (SDRBA) - The *SDRBA* was established under the Mark-Roos Local Bond Pooling Act of 1985 and authorized to issue

bonds for the purpose of acquiring and constructing public capital improvements and to lease them to its members, the County and the San Diego Metropolitan Transit Development Board (MTDB). The services provided by the *SDRBA* to the MTDB are insignificant.

The *SDRBA* is governed by a Commission consisting of three members, two of which are County Supervisors appointed by the County Board of Supervisors and concurrently serve on the Board of Directors of the San Diego Trolley, Inc. and the Board of Directors of MTDB. The third Commissioner is a member of MTDB and is appointed by the MTDB Board. The *SDRBA*'s financial activities are reported in a *debt service fund*.

Tobacco Securitization Joint Powers Authority of Southern California (TSJPA) - The *TSJPA* was created by a joint exercise of powers agreement between the County and the County of Sacramento pursuant to Government Code Sections 6500 et seq. The *TSJPA*'s purpose is to finance a loan to the San Diego County Tobacco Asset Securitization Corporation (the Corporation) via the sale of tobacco asset-backed bonds. The Corporation in turn uses the loan proceeds to purchase the County's future tobacco settlement revenues under a purchase and sale agreement. The *TSJPA* is administered by a Board of Directors consisting of three members, two members who are appointed by the CoSD Board and the third member is appointed by the Sacramento County Board of Supervisors. The *TSJPA* is reported as part of the *Tobacco Securitization Joint Special Revenue Fund*.

Separately issued financial reports for *IHSSPA*, *SDCTASC*, *SDRBA*, and *TSJPA* can be obtained from the County Auditor and Controller's Office located at 5530 Overland Avenue, Suite 410, San Diego, California 92123.

Discrete Component Unit

The *First 5 Commission of San Diego (Commission)* was established by the Board as a separate legal entity under the authority of the California Children and Families First Act and Sections 130100 et seq. of the Health and Safety Code. The *Commission* administers the County's share of tobacco taxes levied by the State for the purpose of implementing early childhood development programs. The County appoints all of the *Commission*'s board and can remove appointed members at will.

The *Commission* is discretely presented because its Board is not substantively the same as the County's, and it does not provide services entirely or almost entirely to the County. A separately issued financial report can be obtained by writing to First 5 Commission, 9655 Granite Ridge Drive, Suite 120, San Diego, CA 92123.

Fiduciary Component Unit

The *San Diego County Employees Retirement Association (SDCERA)* is a cost-sharing, multiple-employer public retirement system organized under the 1937 Retirement Act. *SDCERA* is an independent governmental entity separate and distinct from the County of San Diego and provides retirement, disability, death, and health insurance allowance benefits for *SDCERA* members and beneficiaries. The County is a major participant in the *SDCERA* plans. The County appoints a majority of the *SDCERA* Retirement Board and is considered to have a financial burden as it is legally obligated to make contributions to the plans. The activity of *SDCERA* is reported within the following fiduciary funds - *SDCERA Pension Trust Fund* and *SDCERA Other Postemployment Benefits Trust Fund*.

Financial Reporting Structure

Basic Financial Statements

The basic financial statements include both government-wide financial statements and fund financial statements which focus on the County as a whole in the government-wide financial statements and major individual funds in the fund financial statements.

Government-Wide Financial Statements

The government-wide financial statements (statement of net position and statement of activities) display information about the County as a whole and the change in aggregate financial position resulting from the activities of the fiscal period, except for its fiduciary activities. These statements include separate columns for the governmental and business-type activities of the County (including its blended component units) as well as its discretely presented component unit. In the statement of net position, both the governmental and business-type activities columns are presented on a consolidated basis by column, and

are reported using the economic resources measurement focus and the accrual basis of accounting, which incorporates capital assets as well as long-term debt and obligations.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, interfund services provided and used are not eliminated in the process of consolidation. All internal balances in the statement of net position have been eliminated, with the exception of those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the primary government total column. The statement of activities presents functional revenue and expenses of governmental activities and business-type activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. In the statement of activities, internal service funds' revenue and expenses related to interfund services have been eliminated. Revenue and expenses related to services provided to external customers have not been eliminated and are presented within governmental activities.

The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public protection, public ways and facilities, health and sanitation, public assistance, education, and recreation and cultural activities. The business-type activities of the County include Airport, Jail Stores Commissary, and Sanitation District.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given

function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

The fund financial statements are presented after the government-wide financial statements. They display information about major funds individually and in the aggregate for governmental and proprietary funds. In governmental and fiduciary funds, assets and liabilities are presented in order of relative liquidity. In proprietary funds, assets and liabilities are presented in a classified format that distinguishes between all current and noncurrent assets and liabilities. Current assets in the classified format are those considered available to generate or use cash within twelve months of the end of the fiscal period. Examples include cash, various receivables and short-term investments. All other assets are considered noncurrent. Current liabilities are obligations to be paid within the next fiscal year. Examples include payables and the current portion of long-term liabilities. For all fund types, deferred outflows of resources are presented after assets; and deferred inflows of resources are presented following liabilities. For further information see Deferred Outflows and Inflows of Resources.

Major individual governmental funds are reported as separate columns in the fund financial statements and are presented on a current financial resources measurement focus and modified accrual basis of accounting. Separate fund financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for and reports all financial resources of the County not accounted for and reported in another fund. Revenues are primarily derived from taxes; licenses, permits and franchise fees; fines, forfeitures and penalties; use of money and property; aid from other governmental agencies; charges for current services; and other revenues. Expenditures are

expended for functions of general government, public protection, public ways and facilities, health and sanitation, public assistance, education, and recreation and cultural activities. Expenditures also include capital outlay and debt service.

The *Public Safety Special Revenue Fund* accounts for Proposition 172 half-cent sales taxes collected and apportioned to the County by the California Department of Tax and Fee Administration and are restricted for funding public safety activities. Per Government Code Section 30052, a "maintenance of effort" (pre-Proposition 172 public safety funding level) must be maintained by the County to comply with the statute's spending requirements. In accordance with the Code, these funds are allocated to the Sheriff, District Attorney and Probation departments. Transfers out of this fund subsidize the following types of public safety activities: juvenile detention services; facilities maintenance and support; capital projects, equipment and other one-time expenditures; on-going technology initiatives; and various region-wide services.

The *Tobacco Endowment Special Revenue Fund* accounts for tobacco settlement payments allocated to the County from the State of California, pursuant to the Master Settlement Agreement concluded on November 23, 1998 between the major tobacco companies and 46 states (including California), the District of Columbia and four U.S. Territories. According to Board of Supervisors Policy E-14, tobacco settlement monies are to be used for healthcare-based programs.

The County also reports the *Airport Fund* as a major Enterprise Fund. The Airport Fund is reported in a separate column in the fund financial statements using the economic resources measurement focus and the accrual basis of accounting. This fund is used to account for the maintenance, operations, and development of County airports. A major objective of the airport program is to develop airport property utilizing federal and state grants in order to enhance the value of public assets, generate new revenues and be a catalyst for aviation and business development.

The County reports the following additional funds and fund types:

Enterprise Funds - these nonmajor funds account for jail stores commissary and sanitation district activities; including operations and maintenance, financing of clothing and personal sundry items for persons institutionalized at various county facilities, sewage collection and treatment services.

Internal Service Funds account for the financing of public works and communications equipment; the financing of materials and supplies (purchasing); start up services for new and existing County service districts; the County's public liability and employee benefits activities; the financing of fleet services; facilities management activities; and the financing of information technology services. Goods or services provided by servicing County departments are paid for on a cost reimbursement basis by receiving departments.

The following *fiduciary funds* include the activities of the San Diego County Employees Retirement Association, a fiduciary component unit of the County; and funds which account for resources that are held by the County as a trustee or custodian for outside parties and cannot be used to support the County's programs.

San Diego County Employees Retirement Association Pension (and Other Postemployment Benefits) Trust Fund - This fund is used to account for financial activities of the Pension Plan and Other Postemployment Benefits Plan administered by San Diego County Employees Retirement Association.

Pooled Investments - Investment Trust Funds account for investment activities on behalf of external entities and include the portion of the County Treasurer's investment pool applicable to external entities. In general, external entities include school districts, independent special districts and various other governments.

County of San Diego Successor Agency Private Purpose Trust Fund is a fiduciary fund type used by the County to report trust arrangements under which principal and income benefit other governments. This fund reports the assets, liabilities, and activities of the County of San Diego Successor Agency; formed pursuant to California Assembly Bill ABx1 26.

Custodial funds account for assets held by the County in a custodial capacity. The funds reported as custodial funds are not required to be reported in pension (and other employee benefit) trust funds, pooled investments - investment trust funds, or private purpose trust funds. Custodial funds account for the receipt, temporary investment, and remittance to individuals, private organizations, or other governments and also include property taxes collected on behalf of cities and other taxing agencies. The County's custodial funds use the economic resources measurement focus and accrual basis of accounting.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are susceptible to accrual when measurable and available. Sales taxes, investment earnings, state and federal grants, and charges for services are accrued when their receipt occurs within 180 days following the end of the fiscal year. Property taxes are accrued if they are collectible within 60 days after the end of the accounting period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims, and judgments, are recorded only when payment is due. General capital assets acquisitions and principal payments on general long-term debt are reported as expenditures in governmental funds. Proceeds of general long-term debt, leases, and subscriptions are reported as other financing sources.

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds and internal service funds are charges to customers for services. Operating expenses for enterprise funds and internal service funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both *restricted and unrestricted resources* are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance

Cash and Investments

The County's cash and cash equivalents for cash flow reporting purposes are considered to be cash on hand, demand deposits, restricted cash, and investments held in the County's Investment Pool (the "Pool").

The Pool is available for use by all funds. Each fund's portion of the Pool is displayed on the statements of net position/balance sheets as "pooled cash and investments." The share of each fund's pooled cash and investments account is separately accounted for and interest earned, net of related expenses, is apportioned quarterly based on the fund's average daily cash balance in proportion to the total pooled cash and investments based on amortized cost. \$12.748 million of interest earned by certain funds has been assigned to and reported as revenue of another fund. For fiscal year 2024, the General Fund was assigned \$12.726 million and the Other Governmental Funds were assigned \$22 thousand.

Governmental Accounting Standards Board Statement No. 72 (GASB 72) *Fair Value Measurement and Application* establishes a hierarchy of inputs to valuation techniques used to measure fair value and requires disclosures to be made about investment fair value measurements, the level of fair value hierarchy, and valuation techniques.

According to GASB 72, an investment is defined as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash. Investments not measured at fair value continue to include, for example, money market mutual funds which are valued at net asset value - \$1 per share (amortized cost).

The following investments that have a remaining maturity at the time of purchase of one year or less and are held by fiscal agents outside of the County's Pool are to be measured at amortized cost: Money market mutual funds, including commercial paper; and participating interest-earning investment contracts, such as negotiable certificates of deposit.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market-based measurement, not an entity-specific measurement.

Fair value measurements for pooled investments and investments with fiscal agents are categorized within the fair value hierarchy established by GASB 72. The hierarchy is based on the valuation inputs used to measure the fair value of assets and liabilities. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for an asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for an asset or liability. None of the County's investments are valued using Level 1 and Level 3 inputs.

Receivables and Payables

The major receivables for governmental and business-type activities are taxes, due from other governmental agencies, leases, and loans. All property taxes and accounts receivable are shown net of an allowance for uncollectibles, as applicable. Property taxes allowance for uncollectibles for governmental funds, pooled investment - investment trust funds, and Custodial Funds - Property Tax Collection Funds were \$15.941 million, \$9.569 million, and \$6.418 million, respectively; while the accounts receivable allowance for uncollectibles for governmental funds were \$5.690 million. Activities between funds that represent

lending/borrowing arrangements outstanding at the end of the fiscal year are disclosed in Note 8. All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Noncurrent interfund receivables between funds are reported as nonspendable fund balance in the General Fund; and as a restricted, committed or assigned fund balance in other governmental funds, as applicable.

Secured property taxes are levied based upon the assessed valuation as of the previous January 1st, (lien date) and the tax levy is recorded as of July 1st (levy date). They are payable in two equal installments due on November 1st and February 1st and are considered delinquent with ten percent penalties after December 10th and April 10th, respectively. An additional penalty of one and one-half percent per month begins to accrue on July 1st on defaulted secured property taxes. Unsecured property taxes are due as of the January 1st lien date and become delinquent, with 10 percent penalties, after August 31st. An additional penalty of one and one-half percent per month begins to accrue after October 31st on delinquent unsecured property taxes.

Governmental funds' property tax revenues are recognized in the fiscal year for which they are levied, provided they are due within the fiscal year and collected within 60 days after the fiscal year end. Property tax revenues are also recognized for unsecured and supplemental property taxes that are due at year end, and are collected within 60 days after the fiscal year end, but will not be apportioned until the next fiscal year due to the timing of the tax apportionment schedule.

County Leased Property

The County is a lessor of real property. The County recognizes a lease receivable and a deferred inflow of resources in the government-wide, governmental fund, and enterprise fund financial statements for leases with an initial, individual value of \$250 thousand or more.

At the commencement of a lease, the County initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the County determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

The County uses its estimated incremental borrowing rate as the discount rate for leases, using the appropriate rate under the BVAL Municipal AAA curve.

The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee.

The County monitors changes in circumstances that would require a measurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Inventories and Prepaid Items

Inventories include consumable inventories valued at average cost. They are accounted for as expenditures at the time of purchase and reported in governmental funds as an asset with an offsetting nonspendable fund balance amount. Proprietary fund types are carried at average cost and are expended when consumed. Prepaid items reflect payments for costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements, with expenditures/expenses recorded when consumed. Inventories and prepaid items recorded in the governmental funds are not in spendable form and thus, an equivalent portion of fund balance is reported as nonspendable.

Capital Assets

Capital assets are of a long-term character and include: land, easements, construction in progress, buildings and improvements, equipment, software, right-to-use assets, subscription assets, and infrastructure.

Infrastructure assets include roads, bridges and sewers.

Capital assets are recorded at *historical cost* if purchased or constructed. Donated capital assets are recorded at *estimated acquisition value* at the date of donation. Capital assets with original unit costs equal to or greater than the *capitalization thresholds* shown in **Table 1** are reported in the applicable *governmental activities* or *business-type activities* columns in the government-wide financial statements.

Asset Type	Threshold
Land	\$ 0
Easements	50
Buildings and improvements	50
Equipment	5
Software	5-100
Infrastructure	25-50
Right-to-use assets	250
Subscription assets	150

Depreciation and amortization are charged over the capital assets' estimated useful lives using the straight-line method for proprietary and governmental fund types. Governmental fund type depreciation and amortization are only shown in the statement of activities. Proprietary fund type depreciation and amortization are shown both in the fund statements and the government-wide statement of activities.

Estimated useful lives are shown in **Table 2**.

Asset Type	Useful Life
Buildings and improvements	10-50 years
Equipment	4-30 years
Software	2-10 years
Infrastructure	10-50 years
Right-to-use assets	Lease Term
Subscription assets	Subscription Term

Unearned Revenue

Under both the accrual and the modified accrual basis of accounting, revenue may be recognized only when it is earned. If assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for unearned revenue. Unearned revenue may be found in government-wide financial reporting as well as in the governmental, proprietary, and fiduciary funds' financial statements.

Deferred Outflows and Inflows of Resources

The County reports deferred outflows and inflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to future periods. Deferred inflows of resources represent an acquisition of net assets that applies to future periods.

Under the modified accrual basis of accounting, it is not enough that revenue has been earned if it is to be recognized as revenue of the current period. Revenue must also be susceptible to accrual; it must be both measurable and available to finance expenditures of the current fiscal period. If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding deferred inflow of resources. This type of deferred inflow is unique to governmental funds, since it is tied to the modified accrual basis of accounting, which is used only in connection with governmental funds.

Examples of deferred outflows and inflows of resources include property taxes received in advance, unavailable revenue, unamortized losses and gains on refunding of long-term debt (discussed below), and pension/OPEB related deferrals. Pension/OPEB related deferred outflows and inflows of resources include changes in proportionate share and differences between employer's contributions and proportionate share of contributions, changes in assumptions or other inputs, contributions to the pension/OPEB plan subsequent to the measurement date, differences between expected and actual experience in the total pension/OPEB liability and net difference between projected and actual earnings on pension/OPEB plan investments.

Occasionally, the County refunds some of its existing debt. When this occurs, the difference between the funds required to retire (reacquisition price of) the refunded debt and the net carrying amount of refunded debt results in a deferred amount on refunding. If there is an excess of the reacquisition price of refunded debt over its net carrying amount, it is treated as a deferred outflow of resources (a deferred loss on refunding). If there is an excess net carrying value amount of refunded debt over its reacquisition price, it is treated as a deferred inflow of resources (a deferred gain on refunding).

Subscription-Based Information Technology Arrangements

The County has entered into various subscription-based information technology arrangements (SBITAs). The County recognizes a subscription liability and a subscription asset in the government-wide financial statements, and in Enterprise Funds and Internal Service Funds, as applicable. The County recognizes subscription liabilities for SBITAs with an initial, individual value of \$150 thousand or more.

At the commencement of a SBITA, the County initially measures the subscription liability at the present value of the subscription payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of the subscription payments made. The subscription asset is initially measured as the initial measurement of the subscription liability, adjusted for payments made to the SBITA vendor at the commencement of the subscription term, plus capitalizable initial implementation costs. Subsequently, the subscription asset is amortized on a straight-line basis over the shorter of the subscription term or the useful life of the underlying information technology asset.

Key estimates and judgments related to SBITAs include how the County determines (1) the discount rate it uses to discount the expected SBITA payments to present value, (2) SBITA term, and (3) SBITA payments.

Future subscription payments should be discounted using the interest rate the SBITA vendor charges the County, which may be the interest rate implicit in the SBITA. However, if the implicit rate is not readily

determinable then the incremental borrowing rate may be used. Therefore, the County uses the Incremental Borrowing Rate as its discount rate.

The subscription term includes the period during which the County has a noncancellable right-to-use the underlying information technology assets. Subscription payments included in the measurement of the subscription liability are composed of fixed payments, variable payments that depend on an index or rate, variable payments that are fixed in substance, payments for penalties for terminating the SBITA, and any other payment to the SBITA vendor associated with the SBITA contract that are reasonably certain of being required based on assessments of all relevant factors.

The County monitors changes in circumstances that would require a remeasurement of its SBITA and will remeasure the subscription asset and subscription liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term debt on the statement of net position.

Lease Obligations

The County is a lessee for both real and personal property. The County recognizes a lease liability and a right-to-use asset in the government-wide financial statements. The County recognizes lease liabilities for leases with an initial, individual value of \$250 thousand or more.

At the commencement of a lease, the County initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The right-to-use asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the right-to-use asset is amortized on a straight-line basis over the shorter of the lease term or its useful life.

Key estimates and judgments related to leases include how the County determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

Future lease payments should be discounted using the interest rate the lessor charges the lessee, which may be the interest rate implicit in the lease. However, if the implicit rate is not readily determinable then the incremental borrowing rate may be used. Therefore, the County uses the Incremental Borrowing Rate as its discount rate.

The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the County is reasonably certain to exercise.

The County monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the right-to-use asset and lease liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Right-to-use assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Long-Term Obligations

Long-term liabilities reported in the statement of net position include the amount due in one year (current) and the amount due in more than one year (noncurrent).

General long-term liabilities consist of the noncurrent portion of claims and judgments, compensated absences, landfill postclosure and other noncurrent liabilities. General long-term liabilities are not reported as liabilities in governmental funds but are reported in the governmental activities column in the government-wide statement of net position. General long-term debt is not limited to liabilities arising from debt issuances but may also include noncurrent liabilities on other commitments that are not current liabilities properly recorded in governmental funds.

Debt may be issued at par (face) value, with a premium (applicable to debt issued in excess of face value) or at a discount (applicable to debt issued at amounts less than the face value).

In the government-wide financial statements and proprietary fund financial statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the governmental fund financial statements, bond premiums and discounts, as well as bond issuance costs, are recognized during the current period. The face amount of the debt issued and premiums are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Capital Appreciation Bonds (CABs) issued by the County represent bonds that are issued at a deep discount, pay no current interest but accrete or compound in value from the date of issuance to the date of maturity. CABs are presented at their maturity value less the unaccrued appreciation. Unaccrued appreciation represents the difference between the maturity value of the debt and their par (face) value. The unaccrued appreciation is accreted as interest over the life of the CABs.

Pension

The County recognizes its proportionate share of the San Diego County Employees Retirement Association Pension Plan's (SDCERA-PP) collective net pension liability. Essentially, the net pension liability represents the excess of the total pension liability over the fiduciary net position of the SDCERA-PP reflected in the actuarial report provided by the SDCERA-PP actuary. The net pension liability is measured as of the County's prior fiscal year-end. Changes in the net pension liability are recorded in the period incurred, as pension expense or as deferred outflows of resources or deferred inflows of resources depending on the nature of the change. The changes in net pension liability that are recorded as deferred outflows of resources or deferred inflows of resources are those that arise from changes in actuarial assumptions or other inputs, changes in proportionate share and differences between employer's contributions and proportionate share of contributions, differences between expected and actual experience in the total

pension liability, contributions to the pension plan subsequent to the measurement date, and the net difference between projected and actual earnings on SDCERA-PP investments.

For purposes of measuring the net pension liability and deferred outflows/inflows of resources information about the fiduciary net position of the SDCERA-PP and additions to/deductions from the SDCERA-PP fiduciary net position have been determined on the same basis as they are reported by SDCERA. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

OPEB

The County recognizes its proportionate share of the San Diego County Employees Retirement Association retiree health plan's (SDCERA-RHP) collective net other postemployment benefits liability (net OPEB liability). Essentially, the net OPEB liability represents the excess of the total OPEB liability over the fiduciary net position of the SDCERA-RHP reflected in the actuarial report provided by the SDCERA-RHP actuary. The net OPEB liability is measured as of the County's prior fiscal year-end. Changes in the net OPEB liability are recorded in the period incurred, as OPEB expense or as deferred outflows of resources or deferred inflows of resources depending on the nature of the change. The changes in net OPEB liability that are recorded as deferred outflows of resources or deferred inflows of resources are those that arise from changes in actuarial assumptions or other inputs, changes in proportionate share and differences between employer's contributions and proportionate share of contributions, differences between expected and actual experience in the total OPEB liability, contributions to the OPEB plan subsequent to the measurement date, and the net difference between projected and actual earnings on SDCERA-RHP investments.

For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources, information about the fiduciary net position of the SDCERA-RHP and additions to/deductions from the SDCERA-RHP fiduciary net position have been determined on the same basis as they are reported by SDCERA. For this

purpose, benefit payments are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

Employees' Compensated Absences

The County's policy is to permit employees to accumulate *earned* but *unused* vacation, compensatory time, holiday and sick leave benefits. Each of these benefits is subject to certain limits based on employee class, except for sick leave and compensatory time that is subject to Fair Labor Standards Act (FLSA) rules or the California Labor Code. All vacation pay and a certain portion of compensatory and sick pay for specified employee classes is accrued in the government-wide and proprietary funds financial statements. Except for specified employee classes, there is no liability for *unpaid accumulated* sick leave since the County does not cash out unused sick leave when employees separate from service with the County. However, employees eligible for retirement benefits that meet minimum balance requirements may apply unused sick leave toward determining their length of service for the purpose of calculating retirement benefits.

Accumulated leave benefits including vacation, sick leave, and compensatory time worked are recorded in the government-wide statement of net position. Amounts recorded as accumulated leave benefits include the employer's share of Social Security and Medicare taxes. These amounts would not be expected to be liquidated from expendable available financial resources, but would be expected to be liquidated in future years as employees elect to use these benefits as prescribed by Civil Service rules and regulations.

County employees in the unclassified service and certain employees hired prior to 1979 may receive up to 75% and 25%, respectively, of the cash value of all or a portion of their sick leave balances upon termination or retirement. The cash value of these benefits is included in the accumulated leave benefits noted above. This liability has been recorded in the current and long-term portion of compensated absences in the appropriate proprietary funds and government-wide statement of net position.

California Labor Code Section 4850 entitles safety officers who meet certain criteria to receive full salary in lieu of temporary disability payments for the period

of disability, not exceeding 365 days, or until such earlier date as he or she is retired on permanent disability pension. This liability is accrued in the current and long-term portion of compensated absences.

All County employees who have completed at least five years of continuous service in the County retirement system, and have a sick leave balance of at least one hundred hours, may convert, at retirement, all or a portion of their sick leave balance to retirement service credits on a hour-for-hour basis. The conversion of these balances to retirement service credits is included in the County's actuarial accrued liability, as part of the annual actuarial valuation which includes assumptions regarding employee terminations, retirement, death, etc.

General Budget Policies

An operating budget is adopted each fiscal year by the Board of Supervisors for the governmental funds. The annual resolution adopts the budget at the object level of expenditures within departments. Annual budgets are not required to be adopted for the Tobacco Securitization Joint Special Revenue Fund; and the Debt Service and Capital Projects Funds (other governmental funds). Please refer to the note to the required supplementary information for more details regarding the County's general budget policies.

Fund Balance

In the fund financial statements, governmental funds report fund balance in classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. These classifications include: nonspendable; restricted; and the unrestricted classifications of committed, assigned and unassigned. When both restricted and unrestricted resources are available for use, fund balance is generally depleted by restricted resources first, followed by unrestricted resources in the following order: committed, assigned and unassigned. The fund balance classifications are defined as follows:

Nonspendable fund balance - amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form"

criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts.

Restricted fund balance - amounts with constraints placed on their use that are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance - amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Supervisors. The Board of Supervisors may establish fund balance commitments by adoption of an ordinance, resolution, or formal board action memorialized by minute orders as may be required by law. All are equally binding. Those committed amounts cannot be used for any other purpose unless the County removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

Assigned fund balance - amounts that are constrained by the County's *intent* to be used for specific purposes, but are neither restricted nor committed. Intent should be expressed by the highest level of decision making authority (the Board of Supervisors), or by a body or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes. This intent is expressed by the Board of Supervisors approval of the use of fund balance to fund non-capital related expenditures and via action taken by the Board of Supervisors on November 5, 2013, which provides that fund balance may be committed by the Board and/or assigned by the Chief Administrative Officer for specific purposes.

Unassigned fund balance - the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted,

committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

Net Position

Net investment in capital assets - consists of capital assets net of accumulated depreciation reduced by the outstanding principal of capital related debt (adjusted by any unamortized premiums, discounts, losses and gains on refunding of debt, and unspent proceeds related to debt), incurred by the County to buy or construct, and lease capital assets shown in the statement of net position. Capital assets cannot readily be sold and converted to cash.

Restricted net position - consists of restricted assets reduced by liabilities related to those assets. Constraints placed on net position are externally imposed by creditors, grantors, contributors or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, charge or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

Unrestricted net position - consists of net position that does not meet the definition of net investment in capital assets or restricted net position.

Indirect Costs

County indirect costs are allocated to benefiting departments and are included in the program expense reported for individual functions and activities. Cost allocations are based on the annual *County-wide Cost Allocation Plan* which is prepared in accordance with Federal Office of Management and Budget (OMB) 2 CFR 200 Uniform Guidance.

Use of Estimates

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE 2**Reconciliation of Government-Wide and Fund Financial Statements****Balance Sheet/Statement of Net Position**

Explanations of certain differences between the governmental funds balance sheet and the government-wide statement of net position are detailed below:

Table 3 Governmental Funds Balance Sheet / Government-Wide Statement of Net Position Reconciliation At June 30, 2024	
Long-term liabilities, such as bonds, notes, loans payable, financed purchases, leases, claims and judgments, compensated absences, landfill postclosure, pollution remediation, net pension liability, and net OPEB liability, are not due and payable in the current period and, therefore, are not reported in the funds. The details of this \$6,702,902 difference are as follows:	
Bonds, notes and loans payable:	
Certificates of participation and lease revenue bonds	\$ 374,600
Taxable pension obligation bonds	211,225
Tobacco settlement asset-backed bonds	436,607
Loans - non-internal service funds	2,276
Unamortized issuance premiums (to be amortized as interest expense)	100,723
Financed purchases - non-internal service funds	8,727
Compensated absences - non-internal service funds	163,395
Leases - non-internal service funds	243,936
Subscriptions	13,079
Landfill postclosure - San Marcos landfill	11,419
Pollution remediation	1,550
Subtotal	\$ 1,567,537
Net pension liability - non-internal service funds	5,090,905
Net OPEB pension liability - non-internal service funds	44,460
Net adjustment to decrease fund balance - total governmental funds to arrive at net position - governmental activities	\$ 6,702,902
Internal Service Funds. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of internal service funds are included in governmental activities in the statement of net position. The details of this \$137,748 difference are as follows:	
Net position of the internal service funds	\$ 139,222
Less: Internal payable representing charges in excess of cost to business-type activities - prior years	(1,047)
Less: Internal payable representing charges in excess of cost to business-type activities - current year	(427)
Net adjustment to increase fund balance - total governmental funds to arrive at net position - governmental activities	\$ 137,748

Statement of Revenues, Expenditures, and Changes in Fund Balances/Statement of Activities

Explanations of certain differences between the governmental funds statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities are detailed below:

Table 4	
Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities Reconciliation	
For the Year Ended June 30, 2024	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. The details of this \$215,427 difference are as follows:	
Capital outlay	\$ 442,580
Depreciation/amortization expense	(227,153)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position - governmental activities	\$ 215,427
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net position. The details of this \$4,118 difference are as follows:	
The loss on the disposal of capital assets does not affect current financial resources but decreases net position	(4,029)
Donations of assets to the County do not provide current financial resources but increase net position	8,147
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position - governmental activities	\$ 4,118
The issuance of long-term debt (e.g., bonds, notes, loans, financed purchases, and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The details of this \$(77,145) difference are as follows:	
Debt issued or incurred:	
Premiums	\$ (18,781)
Face value of bonds issue	(160,910)
Face value of loans issued	(1,718)
Leases	(45,498)
Subscriptions	(3,099)
Principal payments	99,766
Financed purchase payments	2,431
Lease payments	45,520
Subscription payments	5,144
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position - governmental activities	\$ (77,145)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. The details of this \$(1,070,108) difference are as follows:	
Change in net pension liability, deferred inflows of resources and deferred outflows of resources	\$ (1,056,324)
Change in net OPEB liability, deferred inflows of resources and deferred outflows of resources	4,741
Compensated absences	(14,866)
Accrued interest	(288)
Accretion of capital appreciation bonds	(8,342)
Amortization of premiums	6,944
Amortization of gain on refundings	22
Amortization of loss on refundings	(1,995)
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position - governmental activities	\$ (1,070,108)
Internal Service Funds. The net revenue (or expense) of certain activities of internal service funds is reported with governmental activities. The details of this \$91,676 difference are as follows:	
Change in net position of the internal service funds	\$ 92,103
Less: Loss from charges to business activities	(427)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at change in net position - governmental activities	\$ 91,676

NOTE 3

Deposits and Investments

The Treasurer is responsible for authorizing all County bank accounts and pursuant to Government Code Sections 27000.1 - 27000.5, 27130 - 27137, and 53600 - 53686 is responsible for conducting County investment activities of the County's investment pool (the "Pool") as well as various individual investment accounts outside of the Pool. Additionally, the Treasurer has oversight responsibilities for investments with fiscal agents.

The Pool is a County sponsored "external investment pool" wherein moneys of the County and other legally separate external entities, which are not part of the County Reporting Entity, are commingled (pooled) and invested on the participants' behalf.

Pursuant to Sections 27130-27137 of the California Government Code, the Board of Supervisors has established the Treasury Oversight Committee (TOC) which monitors and reviews the Investment Policy. The TOC consists of three Ex-officio positions of the County, a Board of Supervisor's representative, and five members of the public, representing a City Official, a Special District Official, a School Official, and two members of the public having expertise in public finance per Government Code. The investment policy requires a financial audit to be conducted annually on a fiscal year basis, which includes limited tests of compliance with laws and regulations, with the duty of the TOC to review the audit. The Pool is not registered with the Securities and Exchange Commission (SEC) as an investment company. The Pool does not have any legally binding guarantees of share values.

A separately issued annual financial report for the Pool can be obtained from the Treasurer-Tax Collector at 1600 Pacific Highway, Room 112, San Diego, California, 92101 and can also be accessed at <http://www.sdttc.com>.

Total pooled cash and investments totaled \$15.477 billion consisting of: \$15.404 billion investments in the County pool; \$69.721 million in deposits; \$3.130 million of collections in transit; and, \$500 thousand in imprest cash.

Deposits

Government Code Section 53652 et. seq. and the Treasurer's Pool Investment Policy (Pool Policy) prescribe the amount of collateral that is required to secure the deposit of public funds.

Federal Deposit Insurance Corporation (FDIC) insurance is available for funds deposited at any one insured depository institution for up to a maximum of \$250 thousand for demand deposits and up to a maximum of \$250 thousand for time and savings deposits. The aforementioned Government Code and Pool Policy require that depositories collateralize public funds with securities having a market value of at least 10% in excess of the total amount of the deposits. These securities shall be placed in the institution's pooled collateral account and monitored by the State Treasurer of California or a mutually agreed upon third party custodian bank.

Custodial Credit Risk - Deposits

The custodial credit risk for deposits is the risk that the County will not be able to recover deposits that are in the possession of an outside party. Deposits are exposed to custodial credit risk if they are not insured or collateralized; or collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent, but not in the government's name.

The Pool does not have a formal policy regarding sweep (deposit) accounts, but utilizes national or state chartered banks where amounts exceeding the FDIC insurance limit are invested in repurchase agreements that are collateralized by U.S. Treasury and Federal Agency securities equal to or greater than the deposit amount in accordance with California Government Code.

California Government Code Section 53652 et. seq. requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law. At June 30, 2024, the County's deposits were not exposed to custodial credit risk, as these deposits were either covered by FDIC insurance or collateralized with securities held by a named agent depository except as noted below:

a. Cash in banks is defined as short-term, highly liquid deposits with an original maturity of three months or less. Deposits consist of cash in banks. At year-end, the Pool maintained accounts in JPMorgan Chase Bank, N.A. and U.S. Bank, N.A. The carrying amount of the Pool's deposits was \$69.721 million, and the bank balance at June 30, 2024 was \$63.579 million. The difference between the carrying amount and the bank balance includes temporary reconciling items such as outstanding checks and deposits in transit. Of the bank balance, \$250 thousand was covered by federal deposit insurance and \$63.329 million was collateralized with securities held by a depository agent on behalf of the Pool, or held in trust at US Bank, as required by California Government Code Section 53656. The California Government Code requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. Also, a financial institution may, in accordance with the California Government Code, secure local agency deposits using first trust deed mortgages; however, the fair value of the first trust deed mortgages collateral must be at least 150% of the total amount deposited.

b. The carrying amount of demand deposits with Fiscal Agents (outside of the Pool), other than demand deposits of the San Diego County Employees Retirement Association, was \$407.903 million and the bank balance per various financial institutions was \$408.700 million. Of the total bank balance, \$1.365 million was covered by federal deposit insurance; \$406.720 million was collateralized by a named agent depository; and \$615 thousand was uncollateralized.

Investments

Government Code Section 53601 governs the types of investments that may be purchased and makes certain restrictions on investment maturity, maximum portfolio percentages, term, value, credit quality and timing to minimize the risk of loss.

Permissible types of investments and financial instruments include: U.S. treasuries, U.S. Federal agencies, local agency obligations, banker's

acceptances, repurchase and reverse repurchase agreements, collateralized certificates of deposit, commercial paper, corporate medium-term notes, negotiable certificates of deposit, pass-through mortgage securities, supranationals, and money market mutual funds.

Investments in the Pool are stated at fair value in accordance with GASB Statement No. 72. Securities, which are traded on a national exchange, are valued at the last reported sales price at current exchange rates. Institutional money market mutual funds are carried at portfolio book value (net asset value). All purchases of investments are accounted for on a trade-date basis.

Unrealized gains or losses of securities are determined by taking the difference between amortized cost and the fair value of investments. The calculation of realized gains and losses is independent of the calculation of the net change in the fair value of investments. Realized gains and losses on investments that were held in more than one fiscal year and sold in the current year were included as a change in the fair value of investments reported in the prior year(s) and the current year.

In addition to the above, the Board annually adopts a Pooled Money Fund Investment Policy. This policy is based on the criteria in Government Code Section 53601 but adds further specificity and restrictions to permitted investments.

No policies have been established for investments with fiscal agents, however, moneys held by trustees on behalf of the County may generally only be invested in permitted investments specified in trustee or indenture agreements.

In conjunction with the discussion below concerning investment risks, please refer to **Tables 7** and **8**, respectively, which provide details on pooled investments and those held with fiscal agents at fiscal year-end. Additionally, **Table 10** provides a comparison of Pool policy restrictions with Government Code Section 53601 requirements.

Interest Rate Risk - Investments

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates.

To mitigate the effect of interest rate risk, the Pool maintains a laddered portfolio in compliance with the Investment Policy, which requires at least 15% of securities to mature within 90 days and at least 35% of securities to mature within one year. In addition, the Pool limits the maximum effective duration of the portfolio to two years. As of June 30, 2024, the Pool was in full compliance with all provisions of the Investment Policy and the California Government Code. Actual weighted average days to maturity by investment type is presented in **Table 7**.

California Government Code Section 53601 indicates that when there is no specific limitation on the term or remaining maturity at the time of the investment, then no investment shall be made in any security, other than a security underlying a repurchase or reverse repurchase agreement or securities lending agreement authorized by this section, that at the time of the investment has a term remaining to maturity in excess of five years, unless the legislative body has granted express authority to make that investment either specifically or as a part of an investment program approved by the legislative body no less than three months prior to the investment.

Generally, investments with fiscal agents are structured in such a way that securities mature at the times and in the amounts that are necessary to meet scheduled expenditures and withdrawals.

Credit Risk - Investments

Credit risk is the risk that an issuer or other counterparty to an investment may not fulfill its obligations.

The Pool’s Investment Policy, which is more restrictive than the Government Code, places a minimum standard on the ratings of investments held in the Pool. Investments in securities other than those guaranteed by the U.S. Treasury or Government Sponsored Enterprises must have a credit rating of no

less than “A” for long-term or “F1” for short-term. Nonrated securities include sweep accounts and repurchase agreements. Sweep accounts and collateralized certificates of deposit must be FDIC insured and collateralized with securities held by a named agent of the depository. Repurchase agreements are collateralized by securities, authorized by California Government Code Section 53601, having a market value of at least 102% of the amount of the repurchase agreement. The Pool did not have any repurchase agreements in its portfolio as of June 30, 2024.

Credit quality based on Fitch’s Fund Credit Quality Rating is noted below and in **Table 7**.

	Investment Pool Rating at June 30, 2024	Minimum Pool Investment Policy Ratings at Time of Purchase
Overall credit rating	AAAf/S1	
Short-term		F1
Long-term		A

Concentration of Credit Risk - Investments

Concentration of credit risk is the risk of loss attributed to the magnitude of a government’s investment in a single issuer. This occurs when there is a lack of diversification or having too much invested in a few individual issuers.

As disclosed in **Table 10**, the Treasury maintains investment policies that establish thresholds for holdings of individual securities. The Pool did not have any holdings meeting or exceeding the allowable threshold levels as of June 30, 2024.

The Pool's holdings of Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC) securities are issued by agencies that remain under conservatorship by the Director of the Federal Housing Agency. The U.S. government does not guarantee, directly or indirectly, the securities of the Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), FNMA, FHLMC, or the Tennessee Valley Authority.

The following issuers exceeded the 5 percent threshold of the total fair value of the County Pool’s investments as of June 30, 2024: Federal Home Loan Bank (12.48%); Inter-American Development Bank (5.30%); and Bank of American Corporation (5.11%).

No general policies have been established for investments with fiscal agents, to limit the amount of exposure to any one single issuer, however, moneys held by trustees on behalf of the County may generally only be invested in permitted investments specified in trustee or indenture agreements. Instruments in any one issuer that represent 5% or more of the County investments with fiscal agents by individual major fund or nonmajor funds in the aggregate at June 30, 2024 are shown in **Table 6**. Any investments explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from **Table 6**. Percentages by issuer for pooled investments are noted in **Table 7**.

Custodial Credit Risk - Investments

Custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty’s trust department or agent but not in the government’s name.

The Investment Policy requires that securities purchased from any bank or dealer including appropriate collateral (as defined by California State Law), not insured by FDIC, shall be placed with an independent third party for custodial safekeeping. Securities purchased by the Pool are held by a third-party custodian, The Northern Trust Company, in their trust department to mitigate custodial credit risk.

Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by GASB 72. These principles recognize a three-tiered fair value hierarchy, as follows:

Level 1: Investments reflect prices quoted in active markets for identical assets;

Level 2: Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active; and,

Level 3: Investments reflect prices based upon unobservable sources.

None of the County's investments are valued using Level 1 and Level 3 inputs.

The Pool uses the market approach as a valuation technique in the application of GASB 72. This method uses prices and other relevant information generated by market transactions involving identical or comparable assets or groups of assets.

Total pooled investments as of June 30, 2024, were valued at \$15.404 billion. The fair value of pooled investments categorized according to GASB 72 fair value hierarchy totaled \$14.762 billion, and are all classified as Level 2. Money market mutual funds totaling \$386.0 million, are valued at net asset value - \$1 per share (amortized cost) and local government investment pool funds, together with the local agency investment fund - totaling \$256.2 million, are not subject to the fair value hierarchy.

Total investments with fiscal agents as of June 30, 2024, were valued at \$419.5 million. The fair value of investments with fiscal agents according to the GASB 72 fair value hierarchy totaled \$207.2 million, and are all classified as Level 2. Fixed income tax exempt bonds were valued using matrix pricing, which is consistent with the market approach. The matrix pricing technique is used to value some types of financial instruments, such as debt securities, without relying exclusively on quoted prices for the specific securities. Instead, matrix pricing relies on the securities' relationship to other benchmark quoted securities. The following investments have a remaining maturity at the

time of purchase of one year or less, are held by fiscal agents outside of the County's Pool, and are measured at amortized cost: Money market mutual funds, \$102.9 million, together with the state and local securities totaling \$109.4 million, are not subject to the fair value hierarchy.

Table 9 summarizes pooled investments' and investments with fiscal agents' recurring fair value measurements and the fair value hierarchy as of June 30, 2024.

	June 30, 2024	Fair Value Measurements Using

- (1) For securities with maturities of 13 months or less, the rating must be in the highest short-term rating category (without regard to qualification of such rating symbol such as "+" or "-") by at least one Nationally Recognized Statistical Rating Organization (NRSRO). For securities with maturities greater than 13 months, the rating must be "A" or higher by at least one NRSRO.
- (2) Government Code Section 53635(a)(1-2) specifies percentage limitations for this security type for county investment pools.
- (3) Maximum Exposure Per Issuer - The maximum exposure to a single issuer shall be 10% of the fund value, inclusive of any other non-Commercial Paper, Medium-Term Notes, or Negotiable CD Investments.
- (4) Maximum Exposure Per Broker/Dealer - The maximum exposure to a single Repurchase Agreement (RP) broker/dealer shall be 10% of the portfolio value when the dollar-weighted average maturity is greater than five days or 15% of the portfolio when the dollar-weighted maturity is five days or less.
- (5) Institutions at or above the highest short-term rating category (without regard to qualifications of such rating symbol such as "+" or "-") by at least one NRSRO may pledge mortgage-based collateral for County deposits.
- (6) Money Market Mutual Fund ratings must be in the highest rating category by at least two NRSROs.
- (7) Local Agency Investment Fund (LAIF) is an unrated fund.
- (8) The following institutions are considered 'Supranationals': International Bank for Reconstruction and Development (IBRD), International Finance Corporation (IFC) and Inter-American Development Bank (IADB).

NOTE 4
Restricted Assets

Restricted assets include monies or other resources required to be set aside to repay principal and interest under debt covenants; and to comply with other legal or contractual requirements. For fiscal year 2024 restricted assets were as follows:

Fund	Legal or Contractual Requirements	Debt Covenants
General Fund	\$ 218	
Nonmajor Governmental Funds:		
Harmony Grove Community Facilities District - Special Revenue Fund		6
Housing Authority - Other Special Revenue Funds	246	
Capital Outlay Fund	1,444	
SANCAL Capital Project Fund		96,405
Tobacco Securitization Joint Special Revenue Fund		33,886
SANCAL Non-Capital Fund Pension Obligation Bonds		17,929
Debt Service Fund		669
SANCAL Debt Service Fund		24,530
San Diego Regional Building Authority Debt Service Fund		361

NOTE 5
Receivables

Details of receivables reported in the government-wide Statement of Net Position are presented in Table 12. Amounts that are not expected to be collected within the next fiscal year are identified below.

Due from Other Governmental Agencies - Governmental activities - \$13.794 million:

This amount includes: \$9.200 million in Senate Bill (SB) 90 cost reimbursements due to the County for the provision of State mandated programs mostly for Absentee Ballots and Sexually Violent Predators. The State Constitution requires reimbursement for these costs and interest will accrue on the reimbursement claims until they are paid according to Government Code Section 17617; and, \$4.594 million is the balance owed to the County from participating agencies that

financed their portion of the shared infrastructure costs for the Regional Communications System (RCS) NextGen Project upgrade.

Loans - Governmental activities - \$287.842 million:

This amount includes: \$196.412 million in housing rehabilitation loan programs for low-income or special needs residents, and loans for low income housing down payments; \$28.516 million in community development block grant loans; \$13.786 million owed to the Housing Authority - Low and Moderate Income Housing Asset Fund for Affordable Housing Development and Single-Family Rehabilitation Loans; \$30.019 million in interest receivable on housing long term loans; \$3.885 million in low income housing developer loans; \$4.069 million in COVID-19 Small Business Loan Receivable; \$9.604 million in Edgemoor Development Fund land sale notes receivable; \$1.123 million owed to the General Fund from the County of San Diego Successor Agency Private Purpose Trust Fund as a result of a loan to provide funding for project improvements for the Upper San Diego River Project; and \$328 thousand owed to the County Low and Moderate Income Housing Asset Fund (CLMIHAF) from the County of San Diego Successor Agency Private Purpose Trust Fund as a result of the Airport Enterprise Fund transferring its twenty percent outstanding loan principal balance to the CLMIHAF mandated by California Health and Safety Code 34191.4. At the fund level, in the General Fund and the CLMIHAF, these loans are presented as "Due From Other Funds". See Note 8 to the financial statements, "Interfund Balances". The remaining balance represents various other loans totaling \$100 thousand.

Loans- Business-type activities- \$2.771 million:

This amount includes \$34 thousand in Airport Enterprise Fund (AEF) loans to Airport lessees for the purchase of AEF reversionary interests in leasehold improvements existing at the expiration of previous leases; and \$2.737 million owed to the AEF from the County of San Diego Successor Agency Private Purpose Trust Fund as a result of a loan to fund airport projects. In the Airport Enterprise Fund, this loan is presented as "Due From Other Funds". See Note 8 to the financial statements, "Interfund Balances".

NOTE 6

County Property on Lease to Others

As of June 30, 2024, the County's lease receivables totaled \$232.4 million - consisting of \$227.5 million in land and \$4.9 million in buildings. The details are shown in the table below:

	Land Lease	Building Lease	Building Sublease	Total Building Lease	Total Land and Building	Original Lease Terms (In Years)	Remaining Lease Terms (In Years)	Interest Rate(s)
Governmental Activities	\$ 11,727				11,727	54 to 83	23 to 40	1.57%
Governmental Activities		3,299		3,299	3,299	1 to 31	< 1 to 30	0.35% to 3.57%
Governmental Activities			912	912	912	4 to 14	< 1 to 6	0.51% to 1.24%
Subtotal	11,727			4,211	15,938			
Business-Type Activities	215,811				215,811	14 to 54	2 to 47	1.24% to 3.83%
Business-Type Activities		697		697	697	4 to 44	< 1 to 16	0.51% to 1.57%
Subtotal	215,811			697	216,508			
Total	\$ 227,538			4,908	232,446			

Interest rates on all leases are calculated using the appropriate rate under the Bloomberg Valuation Service (BVAL) Municipal AAA curve. During fiscal year 2024, the County recognized \$11.2 million in lease revenue, \$3.6 million in interest revenue, and variable payments of \$1.3 million.

The annual future lease payments expected to be received are presented in **Table 14**.

Capital and Other Commitments

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting is used in the governmental funds. Encumbrances outstanding at year end do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year or years. Encumbered amounts for specific purposes for which amounts have not been previously restricted, committed, or assigned are included within

Notes to the Basic Financial Statements

(Amounts expressed in thousands unless otherwise noted)

County of San Diego / Annual Comprehensive Financial Report / For the year ended June 30, 2024

committed or assigned fund balance, as appropriate. At June 30, 2024, the County General Fund's outstanding encumbrances totaled \$955.036 million; the Public Safety Fund's outstanding encumbrances totaled \$28.736 million; and, Nonmajor governmental funds' outstanding encumbrances totaled \$152.476 million.

At June 30, 2024, major contracts entered into for structures and improvements and other commitments within governmental activities and business-type activities are noted in **Table 21**.

NOTE 8
Interfund Balances

Interfund balances at fiscal year-end consisted of the following amounts:

Table 22
Interfund Balances
At June 30, 2024

		DUE TO								Total
		General Fund	Public Safety	Tobacco Endowment	Other Governmental	Airport Fund	Other Enterprise	Internal Service	Private Purpose Trust Fund	
DUE FROM	General Fund		81,575	15,148	46,979	189	416	6,649	1,123	152,079
	Other									
	Governmental	\$ 36,322			1,567	107	1,627	203	328	40,154
	Airport Fund								2,737	2,737
	Other Enterprise									
	Funds	49			166		312	1		528
	Internal Service	35,358			2,886	131	154	1,724		40,253
	Total	\$ 71,729	81,575	15,148	51,598	427	2,509	8,577	4,188	235,751

Descriptions of amounts not due to be repaid in the subsequent year are discussed below:

- a) \$1.123 million is due to the General Fund from the County of San Diego Successor Agency Private Purpose Trust Fund (Upper San Diego River Project) as a result of a loan to provide funding for Project improvements.
- b) \$2.737 million is due from the County of San Diego Successor Agency Private Purpose Trust Fund to the Airport Enterprise Fund as a result of a loan to fund airport projects.
- c) \$328 thousand is due from the County of San Diego Successor Agency Private Purpose Trust Fund to the County Low and Moderate Income Housing Asset Fund as a result of the Airport Enterprise Fund transferring its twenty percent outstanding loan principal balance to the County Low and Moderate Income Housing Asset Fund as mandated by California Health and Safety Code 34191.4.

For further discussion of the loans to the County of San Diego Successor Agency Private Purpose Trust Fund, refer to Note 34 to the financial statements, "County of San Diego Successor Agency Private Purpose Trust Fund for Assets of Former San Diego County Redevelopment Agency". Note that on the Statement of Net Position, the "Due from other funds" for the General Fund's \$1.123 million Upper San Diego River

Project loan and the "Due from other funds" for the County Low and Moderate Income Housing Asset fund's \$328 thousand are included in the governmental activities' "Receivables, net". The "Due from other funds" for the \$2.737 million Airport Enterprise Fund's airport projects loan, is included in the business-type activities' "Receivables, net". See Note 5 to the financial statements, "Receivables."

All remaining balances resulted from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur; 2) transactions are recorded in the accounting system; and, 3) payments between funds are made.

NOTE 9
Interfund Transfers

Interfund transfers at fiscal year-end consisted of the following amounts:

Table 23
Transfers In/Transfers Out
At June 30, 2024

	TRANSFERS OUT								Total
	General Fund	Public Safety	Tobacco Endowment	Other Governmental	Airport Fund	Other Enterprise	Internal Service		
TRANSFERS IN									
General Fund		433,372	15,113	16,250		857			465,592
Other Governmental	\$ 298,522	92		7,561	128	4,657	2,023		312,983
Airport Fund	24			50					74
Other Enterprise	858								858
Internal Service	11,576			135					11,711
Total	\$ 310,980	433,464	15,113	23,996	128	5,514	2,023		791,218

Transfers are used to: (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and, (3) use unrestricted revenues collected in the General Fund to finance programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 10
Payables

Payables at fiscal year-end are shown below:

NOTE 11
Deferred Inflows of Resources: Unavailable Revenue

Table 25
Deferred Inflows of Resources - Non-pension
At June 30, 2024

Unavailable Revenue	Other		Total
	General Fund	Governmental Funds	
Property and miscellaneous local taxes \$	67,376	985	68,361
Aid from other governmental agencies	304,594	99,336	403,930
Charges for services	56,615		56,615
Other	9,870	52,096	61,966
Total	\$ 438,455	152,417	590,872

A large portion of the Unavailable Revenue – aid from other governmental agencies consists primarily of \$152 million in Federal Emergency Management Act funds, \$130.7 million in Short Doyle Medi-Cal award, \$99.3 million of TransNet one-half cent sales tax to be used for projects in the Road Fund, and \$9.2 million of California Senate Bill 90 (SB 90) funds. In 1972, SB90 established a requirement that the State reimburse local government agencies for the costs of the new programs or increased levels of service on programs mandated by the State. Additionally, there are \$4 million in Drug Medi-Cal administrative activities receivables, \$6.7 million in Medi-Cal administrative activities for public health services, and \$1.4 million in Epidemiology and Laboratory Capacity for Infectious Diseases receivable. The remaining \$600 thousand represents various other unavailable aid from other governmental agencies.

Of the \$62 million of Unavailable Revenue – other, approximately \$14.2 million are tobacco settlement receivables, \$22 million are low and moderate income housing assistance receivables, \$6.8 million are for the Sheriff Regional Communication System upgrade project, \$14.6 million are for Edgemoor development activities, approximately \$1.2 million for interest receivable, and \$3.1 million are for housing and community development activities. The remaining \$100 thousand represents various other unavailable revenues.

Of the \$57 million of Unavailable Revenue – charges for services, approximately \$56.5 million is opioid settlement receivable. The remaining \$500 thousand represents various charges for services unavailable revenues.

NOTE 12
Lease Obligations

As of June 30, 2024, the County's lease obligations totaled \$244 million - consisting of \$243 million in Real Property, (\$50 million in land, and \$193 million in buildings), and Personal Property - Equipment of \$1 million. The details of these leases are shown below.

Real Property

The land leases had original lease terms ranging from 14 years to 99 years, with remaining lease terms ranging from 1.5 years to 62.33 years; with interest rates ranging from 1.24% to 1.57%. The building leases had original lease terms ranging from 1.33 years to 49.75 years, with remaining lease terms ranging from 1 month to 25.5 years; with interest rates ranging from 0.51% to 3.14%. Interest rates on all leases are calculated using the appropriate rate under the Bloomberg Valuation Service (BVAL) Municipal AAA curve.

The annual future lease payments are presented below.

Personal Property

The equipment leases had original lease terms ranging from 4 years to 5 years, with remaining lease terms ranging from 1 month to 2.25 years; with interest rates ranging from 0.39% to 0.55%. Interest rates on all leases are calculated using the appropriate rate under the Bloomberg Valuation Service (BVAL) Municipal AAA curve.

The annual future lease payments are presented below.

Fiscal Year	Principal	Interest	Total
2025	\$ 376	4	380
2026	378	2	380
Total	\$ 754	6	760

NOTE 13

Subscription Obligations

As of June 30, 2024, the County's subscription-based information technology arrangements totaled \$13.263 million - consisting of \$13.079 million governmental subscriptions and \$184 thousand business-type subscriptions. The details of these subscriptions are show below.

The governmental subscription-based information technology arrangements had original terms ranging from 8.5 months to 10.92 years, with remaining lease terms ranging from 2 months to 7 years; with interest rates ranging from 0.25% to 3.67%. Interest rates on all subscriptions are calculated using the appropriate rate under the Bloomberg Valuation Service (BVAL) Municipal AAA curve.

The annual future subscription payments are presented below.

Fiscal Year	Principal	Interest	Total
2025	\$ 4,396	351	4,747
2026	3,907	225	4,132
2027	3,472	116	3,588

2029	281	14	295
2030-2031	264	7	271
Total	\$ 13,079	745	13,824

The business-type subscription-based information technology arrangement had an original term of 5 years, with remaining lease term of 3 years; with an interest rate of 2.03%. Interest rates on all subscriptions are calculated using the appropriate rate under the Bloomberg Valuation Service (BVAL) Municipal AAA curve.

The annual future subscription payments are presented below.

Fiscal Year	Principal	Interest	Total
2025	\$ 89	4	93
2026	95	2	97
Total	\$ 184	6	190

NOTE 14

Long-Term Debt

Certificates of Participation (COPs) and Lease Revenue Bonds (LRBs)

Certificates of Participation (COPs) and Lease Revenue Bonds (LRBs) provide funds for the acquisition and construction of major capital facilities and equipment. The repayment of these COPs and LRBs is secured by a lease structure where the borrowing entity, such as the County, leases certain properties to another entity, a lessor, which in turn leases the properties back to the County. These lessors are the San Diego County Capital Asset Leasing Corporation (SANCAL), and the San Diego Regional Building Authority (SDRBA), both blended component units of the County. (See discussion of Blended Component Units under Note 1 "Summary of Significant Accounting Policies".)

COPs and LRBs are secured by: a) (lease) base rental payments, for the use of certain facilities or equipment and b) encumbrances on the facilities. The lease premises are typically facilities or equipment purchased with proceeds of the COPs or LRBs. The base rental payments are made primarily from the County General Fund to the SANCAL or SDRBA. Under lease terms, the County is required to make the necessary annual appropriations for lease payments, except to the extent those payments are eligible to be abated in accordance with the terms of the leases.

COPs and LRBs evidence a pro rata share in a specific pledged revenue stream of lease payments, and investors in the certificates or bonds are entitled to receive a share in these lease payments from a particular project. Lease payments are passed through the lessor to the investors. The lessor assigns the lease and lease payments to a trustee, which distributes the lease payments to the investors.

In December 2023, \$160.910 million of Certificates of Participation titled "County of San Diego Certificates of Participation, Series 2023 (County Public Health Laboratory and Capital Improvements) (Green Bonds)" were executed and delivered pursuant to the trust agreement by and among the trustee bank, the County and SANCAL. The Certificates were issued with a 5.00% fixed interest rate with maturity dates ranging from October 1, 2027 to October 1, 2053. These Certificates were issued with a premium of \$18.781 million. Proceeds of \$179.691 million, along with Federal Grants totaling \$18.843 million, and County Contributions of \$112.282 million were distributed as follows: 1) \$288.618 million to fund the acquisition, construction, and installation costs on the County Public Health Laboratory and Capital Improvement projects; 2) \$21.162 million of proceeds were used to finance capitalized interest with respect to the Certificates through April 1, 2027; 3) \$738 thousand was set aside to pay certain costs of issuance, and 4) \$298 thousand was used to pay the underwriter's discount.

Upon the occurrence of an event of default (as described in the COP and LRB financing documents), the Facility Lease provides that SANCAL, SDRBA, or its assignees must thereafter maintain the Facility Lease in full force and effect and may only recover rent and other monetary charges as they become due, all without terminating the County's right to possession of the Lease Property regardless of whether or not the County has abandoned the Lease Property. There is no available remedy of acceleration of the Lease Payments due over the term of the Lease Agreement. The lessors may not declare any Lease Payments not then in default to be immediately due and payable.

Details of the COPs and LRBs outstanding at June 30, 2024 are as follows:

Issuance	Original Amount	Interest Rate	Maturity Date	Outstanding Final Balance at June 30, 2024

Total	\$ 427,936		

Taxable Pension Obligation Bonds (POBs)

Taxable Pension Obligation Bonds (POBs) were issued by the County to reduce its pension unfunded actuarial liability and to achieve interest rate savings by issuing bonds at interest rates which are less than the assumed rate of return earned on proceeds placed in the San Diego County Employees Retirement Association's (SDCERA) pension plan. POBs also have been issued to refund previously issued POB debt. Because current federal tax law restricts the investment of proceeds of tax-exempt bonds in higher-yielding taxable securities, POBs are issued on a taxable basis.

The obligation of the County to make payments with respect to the POBs is an absolute and unconditional obligation of the County imposed by law, enforceable pursuant to the County Employees Retirement Law of 1937, as amended. Upon the occurrence of an event of default (as described in the financing documents) the principal and accreted value of the bonds then outstanding and the interest accrued thereon will become due and payable immediately.

Details of POBs outstanding at June 30, 2024 are as follows:

Issuance	Original Amount	Interest Rate	Final Maturity Date	Outstanding Balance at June 30, 2024
2004 Series B1-2	\$ 147,825	5.91%	2025	57,250

Total	\$ 211,225	13,974	225,199

Tobacco Settlement Asset-Backed Bonds (TSAB)

TSAB are issued by the Tobacco Securitization Joint Powers Authority of Southern California (Authority) to securitize future revenue streams available to the County pursuant to the agreements described below.

A 1998 Master Settlement Agreement (MSA) was originally entered into by four cigarette manufacturers, 46 states and six other U.S. jurisdictions (Settling States) to provide state governments, including California, with compensation for smoking related medical costs and to help reduce smoking in the United States. There is no end date to the yearly settlement payments; they are perpetual. Also, a Memorandum of Understanding (MOU) and a supplemental agreement (ARIMOU) was agreed to by the State of California and all California counties and four California cities, granting those California municipalities the right to receive tobacco settlement allocation payments, (also known as Tobacco Settlement Revenues (TSRs)).

In fiscal year 2002, the Authority issued \$446.86 million 2001 Tobacco Settlement Asset-Backed Bonds (2001 Bonds), to fund the Authority's loan to the San Diego County Tobacco Asset Securitization Corporation (Corporation), pursuant to a loan agreement between the Authority and the Corporation. (Both entities are blended component units of the County.) According to the loan agreement, the Corporation has pledged, assigned, and granted to the Authority, a first priority perfected security interest in all rights, title and interest of the Corporation, to the TSRs the Corporation purchased from the County. The Corporation used the net proceeds of the loan, \$411.913 million, to pay the County, in exchange for the County's transfer to the Corporation of all the County's rights, title and interest in the TSRs. Net proceeds were placed in an endowment fund to fund healthcare-based programs pursuant to Board Policy E-14 and IRS regulations, and do not secure the repayment of the TSAB.

In May 2006 the Authority issued Series 2006 TSAB (2006 Bonds) in the amount of \$583.631 million to refund the outstanding principal of the original 2001 Bonds noted above and to loan an additional \$123.515 million to the Corporation. The proceeds were placed into the endowment fund for the aforementioned purposes.

In November 2019 the Authority issued Tobacco Settlement Asset-Backed Refunding Bonds, Series 2019 Senior Bonds, in the amount of \$405.964 million to refund all of the Series 2006 Bonds that were Senior Bonds, and partially cancel a portion of the Series 2006 Bonds that were Third Subordinate Bonds.

Upon the occurrence of an event of default (as described in the Tobacco Securitization Authority Indenture), bond payments shall be applied in full to each order of bonds until bonds are no longer outstanding in the following manner: (1) Class 1 Senior Bonds: First, the accrued unpaid interest on the Class 1 Senior Bonds (Senior Bonds), and Second, the Bond Obligation (principal and accreted value) on all outstanding Class 1 Senior Bonds; (2) Class 2 Senior Bonds: First, the accrued and unpaid interest on the Class 2 Senior Bonds and, then Second, the Bond Obligation on all Class 2 Senior Bonds; (3) Series 2006B CABs (Series 2006 First Subordinate Bonds) principal and interest or accreted value; (4) Series 2006C CABs (Series 2006 Second Subordinate Bonds) principal and interest or accreted value; (5) Series 2006D CABs (Series 2006 Third Subordinate Bonds) principal and interest or accreted value; and (6) Additional Subordinate Bonds, (if authorized and issued), principal and interest or accreted value. The value of any Capital Appreciation Bonds (CABs) that are Series 2019B-2 Senior Bonds, Series 2006 First Subordinate Bonds, Series 2006 Second Subordinate Bonds or Series 2006 Third Subordinate Bonds shall continue to accrete at the default rate (including accretion on any unpaid accreted value), to the extent legally permissible.

Under the terms of the bond indenture (Indenture), TSRs are pledged to the repayment of the TSAB. Accordingly, the bonds are payable solely from certain funds held under the Indenture, including TSRs and earnings on such funds (collections).

The minimum payments for the Bonds are based on the 2006 Indenture and the Series 2006 Supplement, both dated as of May 1, 2006 and amended and restated as of November 1, 2019, and the 2019 Indenture and Series 2019 Supplement, dated November 1, 2019. However, actual payments on the Bonds depend on the amount of TSRs received by the County. The amount of these TSRs is affected by

cigarette consumption, inflation, and the financial capability of the participating manufacturers. There are a number of risks associated with the amount of actual TSRs the County receives each year, including litigation affecting the participating manufacturers and possible bankruptcy as a result thereof, increased growth of non-participating manufacturer's market share, disputed payments set-aside by the participating manufacturers into an escrow account, a decline in cigarette consumption materially beyond forecasted levels, reduction in investment earnings due to unforeseen market conditions, and other future adjustments to the calculation of the TSRs.

No assurance can be given that actual cigarette consumption in the United States during the term of the Bonds will be as assumed in the Base Case, or that the other assumptions underlying these Base Case assumptions, including that certain adjustments and offsets will not apply to payments due under the MSA, will be consistent with future events. If actual events deviate from one or more of the assumptions underlying the Base Case, the amount of TSRs available to make payments, including Turbo Redemption Payments will be affected. No assurance can be given that these structuring assumptions, upon which the projections of the Bond payments and Turbo Redemptions are based, will be realized.

Notes to the Basic Financial Statements

(Amounts expressed in thousands unless otherwise noted)

County of San Diego / Annual Comprehensive Financial Report / For the year ended June 30, 2024

Details of the Bonds outstanding at June 30, 2024 are as follows:

Issuance	Original Amount	Interest Rate	Final Maturity Date	Outstanding Balance at June 30, 2024

			Debt Principal & Interest Paid	Pledged Revenue Received
Series 2006 & 2019 Tobacco Settlement Asset-Backed Bonds	2054	\$ 1,145,200	\$ 32,309	\$ 28,474

Loans - Governmental Activities

Loans for various governmental activities included a United States Department of Agriculture Farmers Home Administration loan for the construction of low income housing (Firebird Manor); a real property contract with the Whiting Family Trust titled Sheriff RCS - Ocotillo Wells for the purchase of one acre of property located in the Borrego Springs area to support the County's Regional Communications System (RCS); and San Diego Gas & Electric (SDG&E) On Bill Financing (OBF) program loans used to fund energy efficiency and demand response projects at County-owned facilities.

In November 2011, the County Board of Supervisors authorized the use of the previously mentioned SDG&E OBF program loans to fund energy efficiency and demand response projects. This program finances installations, modifications and upgrades, such as lighting retrofits and controls and mechanical system upgrades, with the goal of reducing utility costs. The financing is a zero percent interest loan which is repaid from energy savings generated by each SDG&E meter. The County received its first OBF loan in 2013. As of June 30, 2024, six OBF loans were outstanding, with remaining balances totaling \$268 thousand.

On July 1, 2023, the Borrego Springs Fire Protection District was formally dissolved and annexed to the San Diego County Fire Protection District. At the time of annexation, the County assumed the Borrego Springs Fire Protection District, Series 2020 Taxable Revenue Obligations (CalPERS UAL Prepayment Project), a Promissory Note, dated October 15, 2020. The proceeds of the note were used to fund a portion of the District's UAL to CalPERS for the benefit of the District employees and paid certain costs of issuance in association therewith. The rate of interest to be paid on the obligation is 4.50% annually and the note matures on October 1, 2040.

Upon the occurrence of an event of default on any of the aforementioned loans (as described in the Promissory Notes or Loan Agreement), the whole sum of principal and interest shall become immediately due and payable. Furthermore, for the OBF loans, failure to repay the loan balance could result in shut-off of utility energy service, adverse credit reporting, and collection procedures which may include legal action.

Details of loans outstanding at June 30, 2024 for governmental activities are as follows:

Financed Purchases

On June 30, 2016, the County entered into a \$23 million equipment financed purchase agreement with Motorola Solutions Inc., with a first payment due date of July 15, 2017. This equipment is classified as construction in progress in the Government-wide Statement of Net Position and the financed purchase obligation is reflected as a liability in that statement. The term of the financed purchase is 10 years, with an interest rate of 2.79%, maturing in July 2026. Upon the

occurrence of an event of default (as described in the equipment financed purchase agreement) Motorola Solutions, Inc. may exercise any one or more of the following remedies: (i) all amounts then due under the financed purchase shall become immediately due and payable; (ii) the equipment shall be returned to Motorola Solutions; (iii) the equipment may be sold, leased or subleased, holding the County liable for all financed purchase payments and other amounts due prior to the effective date of such selling, leasing or subleasing and for the difference between the purchase price, rental and other amounts; and (iv) exercise any other right, remedy or privilege which may be available under the applicable laws of the state of the equipment location. Furthermore, the financed purchase may be terminated in the event the funds appropriated by the County's governing body (or otherwise available) are insufficient. In the event of such termination, the County agrees to peaceably surrender possession of the equipment to Motorola Solutions.

In fiscal year 2022, the County assumed a \$1.33 million financed purchase agreement with Municipal Finance Corporation for the Julian-Cuyamaca Fire Station. This building is classified as a capital asset in the Government-wide Statement of Net Position and the financed purchase obligation is reflected as a liability in that statement. The term of the financed purchase is 14 years, with an interest rate of 3.85%, maturing in July 2035. Upon the occurrence of an event of default (as described in the financed purchase agreement) Municipal Finance Corporation may exercise any and all remedies available pursuant to law or granted pursuant to the financed purchase agreement and, without terminating the agreement, may collect each installment of rent as it becomes due and enforce any other term or provision to be kept or performed by the County, regardless of whether or not the County has abandoned the leased property.

NOTE 17

Landfill Site Postclosure Care Costs

State laws and regulations require the placement of final cover on all landfill sites that stopped accepting solid waste after October 9, 1991 and the performance of certain maintenance and monitoring functions at these sites for a minimum of 30 years after closure. Closure and postclosure care costs are paid near or after the date a landfill stops accepting waste. The San Marcos Landfill is the sole waste disposal site owned by the County that is subject to these regulations. It was operational and accepted solid waste from 1979 until March 11, 1997. Formal closure of this landfill spanned from July 2004 through March 2007. Post closure maintenance began March 22, 2007.

On September 28, 2023, the California Department of Resources, Recycling and Recovery (CalRecycle) reduced the postclosure maintenance cost estimate multiplier from 30 years to 15 years. The projected landfill postclosure care liability at June 30, 2024 for the San Marcos Landfill was \$11.419 million. This estimated amount is based on what it would cost to perform all postclosure maintenance over a 15 year period in calendar year 2024 dollars and is subject to change as a result of such factors including but not limited to: inflation; deflation; advancements in technology; and amendments to laws and regulations.

In addition to the above, state regulations require that landfill closure and postclosure maintenance costs be fully funded at the time of closure, unless a landfill owner/operator can demonstrate financial responsibility towards these activities by using other approved financial assurance alternatives. A pledge of revenue is one of various alternatives allowed to fund estimated postclosure costs. Under this alternative, the Board of Supervisors, on February 3, 1998, approved Minute Order No. 5 "Postclosure Maintenance Funding for the San Marcos Landfill", wherein the County entered into a pledge of revenue agreement with the California Integrated Waste Management Board (CIWMB). Pursuant to Resolution No. 98-24, adopted under Minute Order No. 5, the Board directed that the amount of pledged revenue shall be equal to \$790 thousand per year for the 30 year period of postclosure maintenance commencing upon completion of the final closure of the San Marcos Landfill. The amount of pledged revenue was reduced to \$660 thousand in 2021 when the California Department of Resources Recycling and Recovery (CalRecycle) reviewed and approved a revised postclosure maintenance plan for the San Marcos Landfill submitted by the County. The pledged amount is a promise of existing funds rather than future revenues and may increase or decrease to match any adjustment to identified cost estimates that are mutually agreed to by the County and CalRecycle.

Beginning July 1, 2011, CalRecycle, in accordance with Title 27, Division 2, Subdivision 1, Chapter 6 of the California Code of Regulations, requires owners and operators of all disposal facilities operating after July 1, 1991 to provide additional financial assurance for corrective action based on the highest amount of

either a water release corrective action or a non-water release corrective action, on or before the date of the first permit review.

The County determined that a non-water release corrective action would have the highest cost impact to the landfill and on January 27, 2016 the Board of Supervisors approved Minute Order No. 4 "Adopt a Resolution for Financial Assurance for Corrective Actions of the San Marcos Landfill and Authorize Submission of a Pledge of Revenue for Corrective Action Program at San Marcos Landfill." Pursuant to Resolution No. 16-011, adopted under Minute Order No. 4, the County entered into a pledge of revenue agreement to assure that adequate funds are available to carry out the Corrective Action Program 95-112 of the San Marcos Landfill. The pledge of revenue for corrective action costs is \$3.342 million per year for the 30 year period and may increase or decrease to match any adjustment to the identified cost estimate mutually agreed to by the County and CalRecycle (adjusted to \$3.462 million in fiscal year 2024). This pledged revenue will remain in the Environmental Trust Fund as a contingency until such time that corrective action costs are incurred.

Regulations governing solid waste management are promulgated by government agencies at the federal and state levels. These regulations address the design, construction, operation, maintenance, closure and postclosure maintenance of various types of facilities; acceptable and prohibited waste types; and inspection, permitting, environmental monitoring and solid waste recycling requirements. Regulations at both the state and federal levels could impose retroactive liability, particularly with respect to cleanup activities relating to any landfill site ever operated by the County, whether or not owned by the County. Thus, the County has potential liability with respect to every landfill ever owned, operated, contracted to be operated, or into which the County disposed waste. Compliance with these regulations may be costly, and, as more stringent standards are developed to protect the environment, these costs could increase.

NOTE 18

Pollution Remediation

Governmental Accounting Standards Board Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, establishes accounting and reporting guidelines for the recognition and measurement of pollution remediation obligations (liabilities).

The County is involved in several remediation actions to clean up pollution sites within its boundaries. These matters generally coincide with the County's ownership of land, buildings and infrastructure assets. In some cases, regulatory agencies (e.g., California Regional Water Quality Control Board) notified the County of the need for remedial action. In addition, the County conducts its own environmental monitoring and this activity identifies pollution sites and matters requiring further investigation and possible remediation. Once the County is aware of these conditions, it commences monitoring, assessment, testing, and/or cleanup activities, and recognizes pollution remediation obligations when estimates can reasonably be determined.

The types of pollution that have been identified include leaking underground storage tanks, water, groundwater and soil contamination, and excessive levels of other contaminants. Remediation efforts include developing remediation and feasibility studies, source identification studies, site testing, sampling and analysis, ground water cleanup, removal of storage tanks and other hazardous materials.

As of June 30, 2024, the County's estimated pollution remediation obligations totaled \$1.550 million. These obligations were all associated with the County's government-wide governmental activities. The estimated liabilities were determined by project managers and/or consultants, based on historical cost information for projects of the same type, size and complexity and measured at their current value or current quotes from outside service providers. In subsequent periods, the County will adjust estimated obligations when new information indicates that such changes are required, including technology and changes in applicable laws or regulations.

The County owns a 70-acre parcel at Gillespie Field Airport that consists of vacant, mowed land, and a temporary asphalt parking lot. Historical agricultural and industrial uses of and adjacent to the site have left pollutant remnants detected at various concentrations, including organochlorine, pesticide chlordane, metals, hydrocarbons, and toluene. During fiscal year 2023-24 there were no projects on the parcel, therefore the County did not incur any remediation costs associated with the onsite contamination. Engineering design of redevelopment and infrastructure of the site's future phase is on hold and, therefore, the range of pollution remediation obligation is not reasonably estimable at this time. Upon finalization of the construction plans, a soil and sediment management plan will be implemented, if necessary, to manage above ground debris, including the following: hydrocarbon and toluene impacted sediment; metals within stained soil; and abandonment or protection of the onsite irrigation and groundwater monitoring wells.

The County owns and manages a facility in Otay Mesa. Based on the findings from an inspection by the County of San Diego Department of Environmental Health and Quality (DEHQ) - Hazardous Material Division (HMD) performed in May of 2021, hazardous waste violations were issued on August 2, 2021, related to lead and brass contamination that conveyed to landscape in amounts that exceeded acceptable solid waste disposal levels. The HMD violations have been absolved through demonstration by the County's improved Best Management Practices (BMPs) and payment of \$15 thousand in penalties. Correspondence is ongoing with DEHQ - Site Assessment Mitigation (SAM) to determine if past contamination discharged beyond the designed containment. In February of 2023, the County and SAM entered into a Consent Agreement for further investigation and implementation of any corrective actions. Based on the investigative findings the consultant developed a work plan that is currently under review by DEHQ. The estimated financial obligation for remediation is approximately \$245,000 for the physical remediation work.

The property formerly known as the Triple S Horse Ranch in Otay Mesa, located at 1550 Sunset Ave., San Diego, CA 92154, was purchased by the County in 2002

and was incorporated into the Tijuana River Valley Regional Park managed by the Department of Parks and Recreation (DPR). At the time of the 2002 acquisition, DEHQ, Department of General Services (DGS), and DPR began the process to confirm potential clean-up requirements and associated costs for removing items thought to have existed on the property at the time of purchase including three trailers and septic tanks that serviced the trailers along with remediating any potential staining or spillage of diesel fuel or gasoline if present. Unfortunately, for reasons unknown, the paperwork for this process was not completed. DEHQ, DGS, and DPR are now actively collaborating to confirm if clean-up efforts were previously completed, if any clean-up remains to be needed, and if so, what the potential associated costs are. Considering this property was purchased 20 years ago and is now part of an active park site it is anticipated that all clean-up was previously completed. This site is being assessed (by DGS and DPR) to confirm if any remaining clean-up is required. Since the assessments are in the beginning stages, it is not yet known if any clean-up efforts are needed, therefore the financial obligation for potential remediation cannot be reasonably estimated at this time.

NOTE 19

Conduit Debt Obligations

From time to time, the County has issued tax-exempt conduit debt under the authority of Chapter 7 of Part 5 of Division 3 of the Health and Safety Code of the State of California on behalf of qualified borrowers to provide financial assistance for projects deemed to be of public interest.

Conduit debt consisted of the following: three Certificates of Participation (COPs) for the acquisition, construction, capital improvement and equipping of various facilities. Conduit debt is secured by the property that is financed and is payable from the respective COPs' base rentals. Upon repayment of the debt, ownership of the acquired facilities transfers to the private-sector entity served by the debt issuance.

The County is not obligated in any manner for repayment of this debt. Accordingly, the debt is not reported as liabilities in the accompanying financial statements.

As of June 30, 2024, the aggregate conduit debt principal amount outstanding was \$41.525 million.

NOTE 20

Special Tax Bonds

Harmony Grove Village Improvement Area No. 1 Special Tax Bonds, Series 2018A

In February 2018 the Community Facilities District No. 2008-01 (Harmony Grove Village) of the County of San Diego, Improvement Area No. 1 Special Tax Bonds, Series 2018A (the "Series 2018A Bonds"), were issued totaling \$15.710 million. Proceeds of the Series 2018A Bonds were used to pay the costs of the acquisition of certain public facilities necessary for the development of that portion of the District designated as Improvement Area No. 1, to fund a reserve for the Series 2018A Bonds and to pay the costs of issuing the bonds. The Series 2018A Bonds are payable solely from net special tax revenues derived from the levy of the special taxes on real property located within the boundaries of Improvement Area No. 1 and are secured by a pledge of all the net special tax revenues and moneys deposited in certain custodial funds established under the Series 2018A Indenture.

The County is not liable in any manner for repayment of this debt. Accordingly, the debt is not reported as liabilities in the accompanying financial statements.

Harmony Grove Village Improvement Area No. 1 Special Tax Bonds, Series 2020A

In January 2020 the Community Facilities District No. 2008-01 (Harmony Grove Village) of the County of San Diego, Improvement Area No. 1 Special Tax Bonds, Series 2020A (the "Series 2020A Area No. 1 Bonds"), were issued totaling \$13.505 million. Proceeds of the Series 2020A Area No. 1 Bonds were used to pay the costs of the acquisition of certain public facilities necessary for the development of that portion of the District designated as Improvement Area No. 1, to increase the reserve for the Bonds and to pay the costs of issuing the bonds. The Series 2020A Area No. 1 Bonds are payable solely from net special tax revenues derived from the levy of the special taxes on real property located within the boundaries of Improvement Area No. 1 and are secured by a pledge

of all the net special tax revenues and moneys deposited in certain custodial funds established under the Series 2020A Indenture.

The County is not liable in any manner for repayment of this debt. Accordingly, the debt is not reported as liabilities in the accompanying financial statements.

Harmony Grove Village Improvement Area No. 2 Special Tax Bonds, Series 2020A

In January 2020 the Community Facilities District No. 2008-01 (Harmony Grove Village) of the County of San Diego, Improvement Area No. 2 Special Tax Bonds, Series 2020A (the "Series 2020A Area No. 2 Bonds"), were issued totaling \$24.290 million. Proceeds of the Series 2020A Area No. 2 Bonds were used to pay the costs of the acquisition of certain public facilities necessary for the development of that portion of the District designated as Improvement Area No. 2, to fund a reserve for the Series 2020A Area No. 2 Bonds and to pay the costs of issuing the bonds. The Series 2020A Area No. 2 Bonds are payable solely from net special tax revenues derived from the levy of the special taxes on real property located within the boundaries of Improvement Area No. 2 and are secured by a pledge of all the net special tax revenues and moneys deposited in certain custodial funds established under the Series 2020A Indenture.

The County is not liable in any manner for repayment of this debt. Accordingly, the debt is not reported as liabilities in the accompanying financial statements.

NOTE 21

Fund Balance Policy - General Fund

In fiscal year 2018, the Board of Supervisors adopted San Diego County Code of Administrative Ordinance No. 10509 (N.S.), "An Ordinance Amending the San Diego County Code of Administrative Ordinances Article VII, Section 113 Relating to the Maintenance and Restoration of Fund Balances and Reserves in the General Fund", thereby amending Sections 113.1, "General Fund Balances and Reserves", 113.2, "General Fund Commitments and Assignments of Fund Balance, and 113.3, "Restoration of General Fund Reserve Minimum Balance; and added Section 113.4, "Fund Balances and Use of One Time Revenues".

The purpose of this code is to establish guidelines in accordance with industry best practices regarding the maintenance and use of General Fund Unrestricted fund balance and the use of one-time revenues to help protect the fiscal health and stability of the County. Available Unrestricted General Fund balance shall be determined by excluding Unrestricted Fund balances that have been Committed or Assigned thereby focusing solely on Unassigned Fund balance. These sections include:

General Fund Balances and Reserves: A portion of Unassigned Fund balance shall be maintained as a reserve (General Fund Reserve) at a minimum of two months of audited General Fund expenditures (which is the equivalent of 16.7% of audited General Fund expenditures). The General Fund Reserve will protect the County against expenditure and revenue volatility, natural disasters and other unforeseen emergencies, economic downturns, unfunded pension liabilities, and aging infrastructure.

Appropriation of the General Fund Reserve minimum balance requires at least one of the following criteria to be met:

- An unanticipated revenue shortfall or expenditure increase where total expenditures exceeds total revenues.
- A legally declared emergency as defined in Government Code Section 29127.
- To absorb unforeseen changes in pension liability, including changes in the assumed rate of return, market losses, to maintain or reduce the unfunded pension liability, or other related changes as recommended by the Chief Administrative Officer (CAO).
- To help mitigate risk due to maintaining aging infrastructure including capital improvements, new construction, or other recommendations made by the CAO.
- To the extent reserves are available, a recommendation made by the CAO to promote the long-term fiscal health and stability of the County.

Furthermore, all appropriation of the General Fund Reserve minimum balance and/or transfers from the General Fund Reserve appropriation, shall require a 4/5th vote of the Board of Supervisors.

To the extent that available Unassigned Fund balance is available in excess of General Fund Reserve minimum balance, the CAO may recommend the appropriation or commitment of the available balance for one-time uses. These recommendations may appear in the CAO Recommended Operational Plan or as an agenda item for a regularly scheduled meeting of the Board of Supervisors.

General Fund Commitments and Assignments of Fund Balance: From time to time, fund balance may be committed by the Board of Supervisors and/or assigned by the CAO for specific purposes. A commitment requires formal board action to establish, change or cancel while an assignment may be established, changed or cancelled by the CAO. Changing or cancelling a commitment or assignment of fund balance shall not be approved if such action would result in increased and/or unfunded costs or liabilities such as those required to fulfill existing contractual obligations or to identify alternative funding sources for the original Commitment or Assignment purpose or if such action would jeopardize the long-term fiscal sustainability of the County. Commitments and/or assignments shall not be approved if they would result in the amount of the General Fund Reserve falling below the minimum required balance.

Restoration of General Fund Reserve Minimum Balance: In the event that the General Fund Reserve falls below the minimum required balance, the CAO shall present a plan to the Board of Supervisors for restoration of the targeted levels. The plan should restore balances to targeted levels within one (1) to three (3) years, depending on the use, reasons for use, and severity of the event. In the event that the General Fund Reserve is used to serve as a short-term financing bridge, the plan shall include mitigation of long-term structural budgetary imbalances by aligning ongoing expenditures to ongoing revenues.

NOTE 22**Fund Balances Restricted for Laws or Regulations of Other Governments: Fund Purpose**

At June 30, 2024, the fund balances restricted for laws or regulations of other governments: fund purpose are presented as follows:

Table 43			
Fund Balances Restricted for Laws or Regulations of Other Governments: Fund Purpose			
At June 30, 2024			
Fund Type:	Purpose	Amount	
Nonmajor Funds			
Special Revenue Funds			
Asset Forfeiture Program Fund	Law enforcement	\$ 16,583	
	Fire protection and suppression, emergency response, operation and maintenance of facilities, and flood control services	5,805	
Community Facilities District Funds - Other	Library services	13,465	
County Library Fund	County housing activities	4,706

Total Net Position Restricted for Laws or Regulations of Other Governments: Other Purposes	\$ 300,150

NOTE 27
Risk Management

The County operates a Risk Management Program, whereby it is partially self-insured for general liability (California Government Code Section 990), self-insured for malpractice (California Government Code Section 990.9), automobile liability (California Vehicle Code Section 16020(b)(4)), and primary workers' compensation (California Code of Regulations, Title 8, Section 15203.4). The County purchases insurance coverage for all property losses, cyber liability, excess workers' compensation, excess general liability, government crime insurance, including employee dishonesty and faithful performance, aviation commercial general liability, and aircraft hull and liability insurance. Settlements in the areas covered have not exceeded insurance coverage for each of the past three fiscal years.

The County's Employee Benefits and Public Liability Insurance Internal Service Funds (ISF) are used to report all of its uninsured risk management activities. Risk management liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Actuarial evaluations were obtained which determine estimates of known and projected public liability and workers' compensation claim liabilities. These evaluations include estimates for claims incurred but not reported; allocated and unallocated loss adjustment expenses; and amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims.

At June 30, 2024, these liabilities discounted for anticipated investment return (public liability of 1.5% and workers' compensation of 2.5%), totaled \$310.1 million, including \$106.7 million in public liability and \$203.4 million in workers' compensation. Changes in the balances of claim liabilities for fiscal years 2024 and 2023 are shown in **Table 48**.

	2024	2023
Employee Benefits Fund		
Unpaid claims, July 1	\$ 203,813	198,093

NOTE 28
Contingencies

Litigation

As of June 30, 2024 the County has recorded a liability, based on the actuarial evaluation, that could result if unfavorable final decisions are rendered in numerous lawsuits to which the County is a named defendant.

Unrecorded Leave Benefits

County employees have unrecorded accumulated benefits of approximately \$292 million in sick leave, holiday and compensatory time. With the exception of sick leave for eligible employees, these benefits are not payable to employees upon termination and are normally liquidated at year-end or as employees elect to use their benefits per Civil Service rules and regulations. Accumulated vacation, sick leave, and compensatory time-off for which employees are eligible for payment upon separation have been recorded as liabilities in the appropriate proprietary funds and the government-wide statement of net position.

Federal and State Programs

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

NOTE 29

Service Concession Agreement

The County has entered a Service Concession Arrangement (SCA) with Ace Parking III, LLC (Ace Parking) in which Ace Parking provides parking management services for two County owned parking structures, the County Administration Center underground parking garage and the Cedar/Kettner parking structure. Ace Parking is specially trained and possess certain skills, experience, education and competency to perform these services more economically and efficiently than the County. The County maintains ownership of the parking structures as well as the authority to determine what services Ace Parking is required to provide, to whom Ace Parking is required to provide the services, and the prices or rates that can be charged for the services. As of June 30, 2024, the County Administration Center underground parking garage's value was \$11.749 million, net of accumulated depreciation and generated \$325 thousand in revenues for the year ended June 30, 2024. The Cedar/Kettner parking structure's value was \$30.635 million, net of accumulated depreciation and generated \$530 thousand in revenues.

NOTE 30

Joint Ventures

The San Diego Geographic Information Source (SanGIS) was created in July 1997 as a joint powers agreement between the City of San Diego and the County of San Diego. SanGIS objectives are to create and maintain a geographic information system; marketing and licensing compiled digital geographic data and software; providing technical services; and publishing geographic and land related information for the City and the County, other public agencies, and

the private sector. It is governed by a Board of Directors consisting of one voting member from the City of San Diego and one from the County of San Diego. SanGIS relies mostly on an annual budget of \$1.8 million contributed primarily by the City and the County to supplement its operating revenues. In its latest report, SanGIS reported a decrease in net position of \$63 thousand and ending net position of \$664 thousand for the fiscal year ended June 30, 2023. The financial report may be obtained by writing to SanGIS at 5530 Overland Ave., Suite 410, San Diego CA 92123 or by calling (858) 874-7000 or by E-mail at webmaster@sangis.org.

The County is a participant with 18 incorporated cities to operate the Unified San Diego County Emergency Services Organization for the purpose of providing regional planning and mutual assistance in the event of an emergency or disaster in the region. The organization is governed by the Unified Disaster Council (UDC) with the San Diego County Board of Supervisors, who serves as Chair of the Council, and a representative from each of the 18 incorporated cities. The County of San Diego Office of Emergency Services (OES) serves as staff to the UDC. OES is a liaison between the incorporated cities, the California Governor's Office of Emergency Services, the Federal Emergency Management Agency, as well as non-governmental agencies such as the American Red Cross. A contractual agreement requires that the cities and the County provide the total required funding each year; one half from the cities and the other half from the County. In its latest report, the organization reported a decrease in net position of \$61 thousand and ending net position of \$214 thousand for the fiscal year ended June 30, 2023. Separate financial statements may be obtained from the Office of Emergency Services, 5580 Overland Ave., Suite 100, San Diego CA 92123 or by calling (858) 565-3490 or by E-mail at oes@sdcounty.ca.gov.

The San Diego Workforce Partnership (Partnership) funds job training programs to empower job seekers to meet the current and future workforce needs of employers in San Diego County. Two boards provide oversight: The Consortium Policy Board and the Workforce Development Board (WDB). As the Workforce Partnership is a joint powers authority, the Consortium Policy Board is a partnership of the City

and County of San Diego. Members include two County Board of Supervisors, two San Diego City Council members, and a community representative (currently the United Way of San Diego). The Consortium Policy Board appoints members to, and receives recommendations from, the WDB. The two boards collaborate on a variety of funding decisions and priorities. For the fiscal year ended June 30, 2023, the Partnership reported an increase in net position of \$521 thousand and ending net position of \$2.7 million. Complete financial reports may be obtained by writing to the San Diego Workforce Partnership, 9246 Lightwave Ave., Suite 210, San Diego, CA 92123 or by calling (619) 228-2900.

In November 2011, the County of San Diego, which oversees the San Diego County Fire Authority, agreed to be a participant in the Heartland Fire Training Authority effective July 1, 2012. The Authority includes 10 other member agencies and was formed for the purposes of jointly equipping, maintaining, operating, and staffing to provide training of fire-fighting and emergency response personnel to member agencies. It is governed by a Commission comprised of elected officials from each member jurisdiction. The annual budget is derived from fees paid by participating agencies along with revenue generated from class offerings. In its latest report, Heartland Fire Training Authority reported a decrease in net position of \$21 thousand and ending net position of \$1.3 million for the fiscal year ended June 30, 2023. The financial report may be obtained by writing to Heartland Fire Training Authority at 1301 North Marshall Ave., El Cajon CA 92020 or by calling (619) 441-1683.

NOTE 31

Pension Plans

Plan Description

The County contributes to the San Diego County Employees Retirement Association pension plan (SDCERA-PP or the Plan), a cost-sharing, multiple-employer, defined benefit pension plan that is administered by the Board of Retirement of the San Diego County Employees Retirement Association (SDCERA), a public employee retirement system established by the County of San Diego (County) on July 1, 1939. SDCERA is an independent governmental entity separate and distinct from the County of San

Diego. The SDCERA-PP provides retirement, disability, death and survivor benefits for its members under the County Employees Retirement Law of 1937 (Government Code Section 31450 et. seq.), the "Retirement Act".

The management of SDCERA is vested with the Board of Retirement. The Board consists of nine members and two alternates made up of member-elected representatives, Board of Supervisors-appointed representatives and the County Treasurer-Tax Collector who is elected by the general public and a member of the Board of Retirement by law. All members of the Board of Retirement serve terms of three years except for the County Treasurer-Tax Collector whose term runs concurrent with his term as County Treasurer.

Plan Membership

The participating employers in the SDCERA-PP consist of the County of San Diego; Superior Court of California - County of San Diego; Air Pollution Control District, San Dieguito River Valley Joint Powers Authority; Local Agency Formation Commission; and, the San Diego County Office of Education.

All employees of the County of San Diego and the other aforementioned participating employers working in a permanent position at least 20 hours each week are members of the SDCERA. Membership begins with the first biweekly payroll period in the month following employment. Members are vested after accruing five years of service credit.

There are separate retirement plans (types of membership) - General and Safety, under the SDCERA-PP. Safety membership is extended to those involved in active law enforcement or who otherwise qualify for Safety membership including court service officers and probation officers. All other employees are classified as General members.

The SDCERA-PP has five Tiers. Subject to the provisions of California Public Employees' Pension Reform Act of 2013 (PEPRA), California Government Code Section 7522 et seq. and Assembly Bill (AB) 197, any new employee hired on or after January 1, 2013 through June 30, 2018 who became a General member, (January 1 2013 through June 30, 2020 for Safety members), was placed into Tier C; while any new employee hired on or after July 1, 2018 who became a

General member and any new employee who will be hired on or after July 1, 2020 who becomes a Safety member, is placed into Tier D. Tier C and Tier D, are the current open plans for all new General and Safety employees; Tiers I, A, and B are generally closed to new entrants but have active members. On March 8, 2002, the Board of Supervisors eliminated Tier II and established Tier A for active General Members and all non-retired Safety Members who entered on or after March 8, 2002 and before August 28, 2009. All active General Members were converted to Tier A unless they elected to opt-out during a one-time opt-out period. All active and deferred Safety Members were converted to Tier A. All deferred General Tier II Members and active Members who elected to opt out of Tier A were converted to Tier I. Both Tier I and Tier II are closed to new members.

Benefits Provided

The tiers and their basic provisions are listed in the following table:

Table 49
SDCERA - PP Tiers and Basic Provisions

Tier Name	Governing Code	Membership Effective Date	Basic Provisions	Final Average Salary Period
General Tier I	§31676.12	Before March 8, 2002 (1)	2.62% at 62; maximum 3% COLA	Highest 1 - year
General Tier A	§31676.17	March 8, 2002 to August 27, 2009	2.62% at 62; maximum 3% COLA	Highest 1 - year
General Tier B	§31676.12	August 28, 2009 to December 31, 2012	2.62% at 62; maximum 2% COLA	Highest 3 - year
General Tier C	§7522.20(a)	January 1, 2013 to June 30, 2018	2.5% at 67; maximum 2% COLA	Highest 3 - year (2)
General Tier D	§31676.01	July 1, 2018	1.62% at 65; maximum 2% COLA	Highest 3 - year (2)
Safety Tier A	§31664.1	Before August 28, 2009	3.0% at 50; maximum 3% COLA	Highest 1 - year
Safety Tier B	§31664.2	August 28, 2009 to December 31, 2012	3.0% at 55; maximum 2% COLA	Highest 3 - year
Safety Tier C	§7522.25(d)	January 1, 2013 to June 30, 2020	2.7% at 57; maximum 2% COLA	Highest 3 - year (2)
Safety Tier D	§7522.25(c)	July 1, 2020	2.5% at 57; maximum 2% COLA	Highest 3 - year (2)

(1) All general members with membership dates before March 8, 2002 who made a specific and irrevocable election to opt out of General Tier A. This also included those General Members in deferred status on March 8, 2002.

(2) PEPRA limits the amount of compensation that can be used to calculate retirement benefit for Tier C and Tier D to 100% and 120% of the 2013 Social Security taxable wage base limit for General members and Safety members, respectively. These amounts will be adjusted with price inflation starting in 2014.

General members enrolled in Tier 1, A or B are eligible to retire once they attain the age of 70 regardless of service or at age 50 (55 for Tier B) and have acquired 10 or more years of retirement service credit. A General member in Tier 1, A or B with 30 years of service is eligible to retire regardless of age. General members enrolled in General Tier C or D are eligible to retire

once they attain the age of 70 regardless of service or at age of 52, and have acquired five or more years of retirement service credit.

Safety members enrolled in Tier A or B are eligible to retire once they attain the age of 70 regardless of service or at age 50 and have acquired 10 or more years of retirement service credit. A Safety member in Tier A or B with 20 years of service is eligible to retire regardless of age. Safety members enrolled in Safety Tier C or D are eligible to retire once they have attained the age of 70 regardless of service or at age of 50, and have acquired five or more years of retirement service credit.

The retirement benefit the member will receive is based upon age at retirement, final average compensation, years of retirement service credit and retirement plan and tier.

For members enrolled in Tier 1, A or B, the maximum monthly retirement allowance is 100% of final compensation. PEPPRA limits the amount of compensation that can be used to calculate the retirement benefit for Tier C and Tier D to 100% of the 2013 Social Security taxable wage base limit for General Members and 120% for Safety Members. These amounts will be adjusted with price inflation starting in 2014.

The member may elect an unmodified retirement allowance, or choose an optional retirement allowance. The unmodified retirement allowance provides the highest monthly benefit and a 60% continuance to an eligible surviving spouse or domestic partner. An eligible surviving spouse or domestic partner is one married to or registered with the member one year prior to the effective retirement date. Certain surviving spouse or domestic partners may also be eligible if marriage or domestic partnership was at least two years prior to the date of death and the surviving spouse or domestic partner has attained age 55. There are four optional retirement allowances the member may choose. Each of the optional retirement allowances requires a reduction in the unmodified retirement allowance in order to allow the member the ability to provide certain benefits to a surviving spouse, domestic partner, or named beneficiary having an insurable interest in the life of the member.

The County Employees Retirement Law of 1937 (Government Code Section 31450 et seq.) assigns the County Board of Supervisors the authority to establish and amend benefit provisions.

In addition to the aforementioned retirement, disability, death and survivor benefits, SDCERA provides an annual cost-of-living benefit to all retirees. The cost-of-living adjustment (COLA), based upon the ratio of the past two annual Consumer Price Indices for the San Diego-Carlsbad Area (with 1982-84 as the base period), is capped at 3.0% for Tier 1 and Tier A; and capped at 2.0% for Tier B, Tier C and Tier D. The County Employees Retirement Law of 1937 (Government Code Section 31450 et seq.) assigns the SDCERA Board of Retirement authority to approve retiree members and beneficiaries cost-of-living increases.

Contributions

SDCERA-PP is a contributory plan, meaning both the member and the employer pay contributions into the system; membership and contributions are mandatory. All members are required to make contributions to SDCERA regardless of the retirement plan or tier in which they are included. The average member contribution rate as of June 30, 2024 for fiscal year 2024 was 11.75% of compensation, (not adjusted for employer pick-up of employee contributions).

The County of San Diego and the other participating agencies contribute to the retirement plan based upon actuarially determined contribution rates adopted by the Board of Retirement. Employer contribution rates are adopted annually based upon recommendations received from SDCERA's actuary after the completion of the annual actuarial valuation. The average employer contribution rate for fiscal year 2024 was 50.71% (not adjusted for pick-up) of compensation.

The Retirement Act requires that County and member contributions be actuarially determined to provide a specific level of benefit. California Government Code Section 31454 (Section 31454) requires the Board of Supervisors to adjust the rates of the San Diego County employer and employee retirement contributions in accordance with the recommendations of the Board of Retirement of SDCERA (SDCERA Board). Section 31454 allows the Board of Supervisors to set (amend) the rate to a

higher rate than that recommended by the SDCERA Board, but cannot fix the rate lower than the recommended rate. Contribution rates are expressed as a percentage of covered payroll and member rates vary according to age at entry, benefit tier level and certain negotiated contracts that provide for the County to pay a portion of members' contributions.

Contributions to the Plan from the County were \$813,658 for the year ended June 30, 2024.

Employer and employee contribution rates and active members for the General and Safety plans are as follows:

	Employer Contribution Rates	Employee Contribution Rates	Active Members
General Tier I	43.23%	10.28 - 18.26%	11
General Tier A	43.23%	12.24 - 20.13%	5,932
General Tier B	43.23%	8.75 - 15.56%	1,659
General Tier C	36.74%	9.97%	4,870
General Tier D	34.11%	7.09%	6,626
Safety Tier A	64.03%	16.62 - 23.00%	1,130
Safety Tier B	64.03%	13.21 - 18.31%	408
Safety Tier C	55.83%	16.58%	1,018
Safety Tier D	54.56%	15.58%	546

SDCERA issues a publicly available financial report that includes financial statements and required supplementary information for the SDCERA-PP. The financial report may be obtained by writing to San Diego County Employees Retirement Association, 2275 Rio Bonito Way, Unit 100, San Diego, California 92108-1685 or by calling (619) 515-6800 or via the following internet address <https://www.sdcera.org/about-sdcera/finance>.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the County reported a liability of \$5,229,772 for its proportionate share of the collective Net Pension Liability (NPL). The NPL was measured as of June 30, 2023 and was determined by rolling forward the Total Pension Liability (TPL) as of the June

30, 2022 actuarial valuation date. The NPL is equal to the difference between the TPL and the Plan's Fiduciary Net Position.

Pension amounts, including the County's proportionate share of the NPL, are determined separately for the General and Safety membership classes based on their benefit provisions, actuarial experience, receipts and expenses. The total pension liability for each membership class was calculated based on the participants in and benefits provided for the respective membership class, and the SDCERA-PP fiduciary net position was determined in proportion to the valuation of assets for each membership class. San Diego County is the sole active employer in the Safety membership class that made contributions in fiscal year 2023; therefore 100% of the NPL for the Safety membership class is allocated to San Diego County.

For the County's General membership class, actual or statutorily required contributions for the fiscal year ended June 30, 2023 were used as the basis for determining the proportion of pension amounts, including the NPL. The ratio of the County's General member contributions to the total SDCERA-PP General member contributions for all participating employers is multiplied by the SDCERA-PP total General member NPL to determine the County's proportionate share of the General membership class NPL. The County's total proportionate share is the combination of the County's Safety and General member class proportions.

At June 30, 2023, the County's proportionate share of employer contributions was approximately 94.133%, (General 91.252%, Safety 100%), which was an increase of approximately 0.537% from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the County recognized pension expense of \$1.086 billion.

At June 30, 2024, the County reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

Table 51
Pension Deferred Outflows/Inflows

	Deferred Outflows of Resources	Deferred Inflows of Resources
Contributions to the pension plan subsequent to the measurement date	\$ 813,658	
Changes in proportionate share and differences between employer's contributions and proportionate share of contributions	23,848	6,235
Changes of assumptions or other inputs	587,654	
Net difference between projected and actual earnings on pension plan investments	372,869	
Differences between expected and actual experience in the total pension liability	336,371	102,369
	<u>\$ 2,134,400</u>	<u>108,604</u>

Deferred outflows of resources and deferred inflows of resources noted above represent the unamortized portion of changes to the net pension liability to be recognized in future periods in a systematic and rational manner.

Projected earnings on pension investments are recognized as a component of pension expense. The net difference between projected and actual earnings on pension plan investments is reported as a deferred outflow of resources or deferred inflow of resources and amortized as a component of pension expense on a closed basis over a five-year period, beginning with the period in which they are incurred.

Changes in proportionate share and differences between employer's contributions and proportionate share of contributions, changes of assumptions and other inputs, and differences between expected and actual experience in the total pension liability, are amortized over the average of the expected remaining service lives (service lives) of all employees that are provided with pensions through the SDCERA-PP and are recorded as a component of pension expense, beginning with the period in which they are incurred. \$813,658 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Table 52
Pension Expense

Year Ending June 30	Amount
2025	\$ 385,047
2026	228,701
2027	630,180
2028	(31,790)
<u>Total</u>	<u>\$ 1,212,138</u>

Actuarial Assumptions

Total Pension Liability represents the portion of the actuarial present value of projected benefit payments attributable to past periods of employee service. The significant actuarial assumptions used to measure the total pension liability as of June 30, 2023 (the measurement date) are shown in the following table:

Table 53
Actuarial Assumptions

Inflation	2.50%
	General: 3.90% to 10.50% and Safety: 4.10% to 11.75%, vary by service, including inflation and real across-the-board salary increases
Salary increases	6.50%, net of pension plan investment expense, including inflation
Discount rate	Maximum of 3% for Tiers I and A
Cost-of-living adjustment	Maximum 2% for Tiers B, C and D
Date of last experience study	July 1, 2018 through June 30, 2021

Mortality rates for General members and all beneficiaries not currently in pay status are based on the Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2021. Mortality rates for beneficiaries in pay status are based on the Pub-2010 Contingent Survivor Amount-Weighted Above-Median Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2021. Mortality rates for Safety members are based on the Pub-2010 Safety Healthy Retiree Amount-Weighted Above-Median Mortality Table (separate tables for males and females) with rates

increased by 5% for males and decreased by 5% for females, projected generationally with the two-dimensional mortality improvement scale MP-2021. Mortality rates for General members with a disability retirement are based on Pub-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table (separate tables for males and females) with rates decreased by 15%, projected generationally with the two-dimensional mortality improvement scale MP-2021. Mortality rates for Safety members with a disability retirement are based on Pub-2010 Safety Disabled Retiree Amount-Weighted Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2021.

The allocation of investment assets within the SDCERA portfolio is approved by the Board of Retirement. Plan assets are managed on a total return basis with a long-term objective of achieving the assumed investment rate of return.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before deducting investment expenses, are shown in the following table. This information was used in the derivation of the long-term expected investment rate of return assumption for the June 30, 2022 actuarial valuation and rolled forward to the June 30, 2023 measurement period:

Table 54
Target Allocation and Projected Arithmetic Real Rates of Return for each Asset Class

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap Equity	19.00%	5.40%
Small Cap Equity	3.00%	6.17%
Developed International Equity	15.00%	6.13%
Global Equity	11.50%	6.20%
Emerging Markets Equity	5.00%	8.17%
High Yield Bonds	6.40%	2.76%
Bank Loan	0.60%	2.02%
Real Estate	7.40%	4.59%
Private Equity	5.00%	10.83%
Private Credit	1.00%	5.93%
Timberland	0.80%	4.44%
Farmland - Row crops	0.70%	5.62%
Infrastructure	1.50%	6.02%
Real Estate (Non-Core)	2.60%	7.94%
Intermediate Duration Bonds - Gov't	10.30%	-0.24%
Intermediate Duration Bonds - Credit	10.20%	0.70%
Total	100%	4.80%

Discount Rate

The discount rate used to measure the total pension liability was 6.50% percent as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed SDCERA-PP member contributions will be made at the current contribution rates and that employer contributions will be made at rates equal to the actuarially determined contribution rates. For this purpose, only employer contributions that are intended to fund benefits for current SDCERA-PP members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future SDCERA-PP members and their beneficiaries, as well as projected contributions from future SDCERA-PP members, are not included. Based on those assumptions, the SDCERA-PP's net position was projected to be available to make all projected future benefit payments for current SDCERA-PP members. Therefore, the long-term expected rate of return on SDCERA-PP investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2023.

Sensitivity of the County’s Proportionate Share of the Net Pension Liability to the Changes in the Discount Rate

The following table presents the County's proportionate share of the Net Pension Liability as of June 30, 2023, calculated using the discount rate of 6.50%, as well as what the County's proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50%) or 1-percentage-point higher (7.50%) than the current rate:

	1% Decrease (5.50)	Current Discount Rate (6.50)	1% Increase (7.50)
County's proportionate share of the net pension plan liability	\$ 8,059,118	\$ 5,229,772	\$ 2,923,043

SDCERA-PP Fiduciary Net Position

Detailed information about the SDCERA-PP fiduciary net position is available in the aforementioned SDCERA publicly available financial report.

NOTE 32

Other Postemployment Benefits

Retiree Health Plan

Plan Description

The County contributes to the SDCERA retiree health plan, (SDCERA-RHP) a cost-sharing multiple-employer defined benefit health plan administered by SDCERA. The SDCERA-RHP is administered as an Internal Revenue Code Section 401(h) account (Health Benefits 401(h) Trust) within the defined benefit pension plan under the authority granted by the Retirement Act to the SDCERA Board of Retirement. The Health Benefits 401(h) Trust was established by the SDCERA Retirement Board and the County's Board of Supervisors. The Retirement Act assigns the authority to establish and amend Health Insurance Allowance (HIA) benefits to the SDCERA Board of Retirement.

SDCERA issues a publicly available financial report that includes financial statements and required supplementary information for the SDCERA-RHP. The financial report may be obtained by writing to San Diego County Employees Retirement Association, 2275 Rio Bonito Way, Unit 100, San Diego, California 92108-1685, by calling (619) 515-6800, or via the following internet address <https://www.sdcera.org/about-sdcera/finance>.

Benefits Provided

The SDCERA Retirement Board approved the SDCERA-RHP HIA benefits for eligible retired Tier I and Tier II members. The SDCERA-RHP is closed to members in the other Tiers. The HIA is paid from the Health Benefits 401(h) Trust, which is pooled with total fund assets for investment purposes, and is used exclusively to fund future retired member health insurance allowances and program administration. The HIA is not a vested SDCERA benefit and is not guaranteed. It may be reduced or discontinued at any time.

The HIA may be applied to a member's insurance premiums for an SDCERA-sponsored plan or toward medical, dental, and prescription insurance premiums paid to other providers selected by the member. The allowance may not be used toward dependents' premiums, nor can it be used to cover any additional medical expenses incurred. It may not be used toward expenses for vision insurance, office visits or prescription co-payments. An allowance (or any portion of an allowance) that the retiree is unable to use, is forfeited.

Currently, an HIA benefit is paid to retired General and Safety Tier I and Tier II Members with at least 10 years of SDCERA service credit. Reciprocal service credit and purchased service credit from work in a prior public agency do not count toward the total service credit used to determine the level of allowance. The allowance increases for each year of service credit, with a maximum allowance of \$400 per month available for Members with 20 or more years of SDCERA service credit. When Members become eligible for Medicare, their HIA allowance is set at \$300 per month, plus reimbursement of \$93.50 per month for Medicare Part B premiums.

Members who were granted a disability retirement and were determined to be totally disabled are eligible for the maximum allowance. Members with less than 10 years of service credit who were granted a disability retirement and determined to be partially disabled are eligible for the minimum allowance.

The benefit amounts for non-disabled retirees in Tiers I and II are listed in the following table:

Table 56
Benefit Amount for Non-Disabled Retirees

Years of SDCERA Service Credit*	Monthly Allowance if Not Eligible for Medicare	Monthly Allowance if Eligible for Medicare
Less than 10		0
10	\$ 200	0
11	220	300
12	240	
13	260	In addition to the
14	280	allowance, up to
15	300	\$93.50 may be
16	320	reimbursed to use
		toward the cost of
		the monthly
		Medicare Part B
17	340	Premium.
18	360	
19	380	
20 or more	\$ 400	

* Members who retired on or before September 30, 1991 may be eligible for the maximum allowance.

Upon the retiree's death, the HIA may be transferred to the retiree's eligible spouse or registered domestic partner. The duration of coverage is lifetime for retiree plus continuance to an eligible surviving spouse or registered domestic partner for life. The level of HIA payable to the survivor is the same as that payable to the retiree.

Contributions

The SDCERA-RHP is funded by employer contributions that are based on an actuarial valuation, actuarially determined 20-year level dollar amortization schedule. The Actuarial Valuation of Other Postemployment Benefits (OPEB) as of June 30, 2022, established the fiscal year 2024 employer contribution rate of 1.24 percent of covered payroll which amounted to \$19,212 million in required contributions made by the County. The Internal Revenue Code limits employer

contributions to a 401(h) account to a maximum of 25 percent of the employer's normal cost contributions to the pension plan.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2024, the County reported a liability of \$45,792 for its proportionate share of the collective Net Other Postemployment Benefits Liability (NOL). The NOL was measured as of June 30, 2023 (measurement date), and determined based upon the results of the actuarial valuation as of June 30, 2023. The Plan's Fiduciary Net Position (plan assets) and the Total OPEB Liability (TOL) were also valued as of the measurement date. The NOL is equal to the difference between the TOL and the Plan's Fiduciary Net Position.

The County's proportion of the NOL, as well as its proportion of the other OPEB related deferred outflows of resources and deferred inflows of resources is determined using the employer contributions from each employer category from July 1, 2022 through June 30, 2023 as provided to the SDCERA Actuary from SDCERA. The ratio of the County's contributions to the total employer contributions is multiplied by the SDCERA-RHP total NOL to determine the County's proportionate share of the NOL. The same calculation is performed for the other OPEB related deferred outflows of resources and deferred inflows of resources.

At June 30, 2023 the County's proportionate share of the NOL was approximately 93.023%, which was an increase of approximately 0.110% from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the County recognized OPEB income of \$5,211.

At June 30, 2024, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Table 57
OPEB Deferred Outflows/Inflows

	Deferred Outflows of Resources
Contributions to the OPEB plan subsequent to the measurement date	\$ 19,212
Net difference between projected and actual earnings on OPEB plan investments	1,444
	<u>\$ 20,656</u>

Deferred outflows of resources noted above represent the unamortized portion of changes to net OPEB liability to be recognized in future periods in a systematic and rational manner.

Projected earnings on OPEB investments are recognized as a component of OPEB expense. The net difference between projected and actual earnings on OPEB plan investments is reported as a deferred outflow of resources or deferred inflow of resources and amortized as a component of OPEB expense on a closed basis over a five-year period, beginning with the period in which they are incurred.

Changes in proportionate share and differences between employer's contributions and proportionate share of contributions, changes of assumptions and other inputs, and differences between expected and actual experience in the total OPEB liability, are amortized over the average of the expected remaining service lives (service lives) of all employees that are provided with OPEB through the SDCERA-RHP and are recorded as a component of OPEB expense, beginning with the period in which they are incurred.

\$19,212 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the NOL in the year ending June 30, 2025.

Other amounts reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Table 58
OPEB Expense

Year Ending June 30	Amount
2025	\$ 414
2026	225
2027	1,040
2028	(235)
Total	<u>\$ 1,444</u>

Actuarial Assumptions

The TOL in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement, as shown in the table below:

Table 59

Actuarial Assumptions	
Inflation	2.50%
	General: 3.90% to 10.25%, including inflation and 0.50% across the board salary increases Safety: 4.10% to 11.75%, including inflation and 0.50% across the board salary increases
Salary increases	increases
Discount rate	6.50%
	Non-Medicare: 7.25% graded to ultimate 4.50% over 11 years; Medicare: 6.50% graded to ultimate 4.50% over 8 years.
Health care trend	to ultimate 4.50% over 8 years.
Health insurance allowance subsidy increases	0.00%

Changes in assumptions were made from the prior measurement period and included changes in Safety salary increases. Salary increases for the prior measurement period for Safety were not stated. Salary increases for the current measurement period for Safety members is 4.10% to 11.75% including inflation. The inflation rate, salary increases for General, discount rate, health care trend, and health insurance allowance subsidy increase did not change from the prior year.

Mortality rates include Post-retirement mortality rates and Pre-retirement mortality rates. Post-retirement mortality rates include healthy retirement, disabled retirement, and beneficiary retirement.

Healthy Retirement. For General members mortality rates are based on Pub-2010 General Healthy Retiree Headcount-Weighted Above-Median Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality

improvement scale MP-2021. For Safety Members, mortality rates are based on Pub-2010 Safety Healthy Retiree Headcount-Weighted Above-Median Mortality Table (separate tables for males and females) times 105% for males and 95% for females, projected generationally with the two-dimensional mortality improvement scale MP-2021.

Disabled Retirement. For General members, mortality rates are based on Pub-2010 Non-Safety Disabled Retiree Headcount-Weighted Mortality Table (separate tables for males and females) times 85% for males and 85% for females, projected generationally with the two-dimensional mortality improvement scale MP-2021. For Safety members, mortality rates are based on Pub-2010 Safety Disabled Retiree Headcount-Weighted Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2021.

Beneficiary. For beneficiaries, mortality rates are based on Pub-2010 General Contingent Survivor Headcount-Weighted Above-Median Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2021.

The aforementioned mortality data reasonably reflect the mortality experience as of the measurement date. These mortality tables were adjusted to future years using the generational projection to reflect future mortality improvement between the measurement date and those years.

Pre-retirement. For General members, mortality rates are based on the Pub-2010 General Employee Headcount-Weighted Above-Median Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2021. For Safety members, mortality rates are based on Pub-2010 Safety Employee Headcount-Weighted Above-Median Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2021.

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an experience study for the period from July 1, 2018 through June 30,

2021. They are the same as the assumptions used in the June 30, 2023 funding actuarial valuation for SDCERA-RHP.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each measurement class, after deducting inflation, but before deducting investment expenses, are summarized in the following table:

Table 60
Target Allocation and Projected Arithmetic Real Rates of Return for each Asset Class

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap Equity	19.00%	5.40%
Small Cap Equity	3.00%	6.17%
Developed International Equity	15.00%	6.13%
Global Equity	11.50%	6.20%
Emerging Market Equity	5.00%	8.17%
High Yield Bonds	6.40%	2.76%
Bank Loan	0.60%	2.02%
Real Estate	7.40%	4.59%
Private Equity	5.00%	10.83%
Private Credit	1.00%	5.93%
Timberland	0.80%	4.44%
Farmland - Row Crops	0.70%	5.62%
Infrastructure	1.50%	6.02%
Real Estate (Non-Core)	2.60%	7.94%
Intermediate Duration Bonds - Gov't	10.30%	-0.24%
Intermediate Duration Bonds - Credit	10.20%	0.70%
Total	100%	4.80%

Discount Rate

The discount rate used to measure the TOL was 6.50% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rates. For this purpose, only employer contributions that are intended to fund benefits for current SDCERA-RHP members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs (if any) for future SDCERA-RHP members and their beneficiaries, as well as projected contributions (if any) from future SDCERA-RHP members, are not included. Based on those assumptions, the SDCERA-RHP's Fiduciary Net Position was projected to be available to make all projected future benefit payments for current SDCERA-RHP members. Therefore, the long-term expected rate of return on SDCERA-RHP investments was applied to all periods of projected benefit payments to determine the TOL as of June 30, 2023.

Sensitivity of the County's Proportionate Share of the Net OPEB Liability to the Changes in the Discount Rate and Changes in the Healthcare Cost Trend Rate

The following table presents the County's proportionate share of the Net OPEB Liability (NOL) as of June 30, 2023, calculated using the discount rate of 6.50%, as well as what the County's proportionate share of the NOL would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50%) or 1-percentage-point higher (7.50%) than the current rate; and presents the County's proportionate share of the NOL as of June 30, 2023 and what it would be if it were calculated using a healthcare cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

Table 61 County's Share of Net OPEB Liability			
	1% Decrease (5.50%)	Current Discount Rate 6.50%	1% Increase (7.50%)
Discount Rate Sensitivity			
County's proportionate share of the net OPEB plan liability	\$ 52,468	45,792	39,942
Healthcare Cost Trend Rate Sensitivity			
	1% Decrease *	Current TrendRates*	1% Increase *
County's proportionate share of the net OPEB plan liability	\$ 43,243	45,792	48,383
* Because current benefits for most members are limited by the fixed dollar health insurance allowance levels, the trend assumption has little effect on the Net OPEB Liability.			

SDCERA-RHP Fiduciary Net Position

Detailed information about the SDCERA-RHP fiduciary net position is available in the aforementioned SDCERA publicly available financial report.

NOTE 33
Fund Deficits

Table 62 Fund Deficits At June 30, 2024	
Internal Service Funds:	
Facilities Management Fund	\$ (35,710)
Public Liability Insurance Fund	(2,787)
Purchasing Fund	(689)

The Facilities Management and Purchasing Fund deficits of \$36 million and \$700 thousand respectively, resulted from adjustments attributed to reporting the County’s proportionate shares of the SDCERA-PP net pension liability and the SDCERA-RHP net OPEB liability.

The Public Liability Insurance Fund deficit of \$2.8 million resulted mainly from the higher than anticipated settlement payments in recent fiscal years. However, favorable resolutions in several litigation matters and the delayed resolution of several matters beyond fiscal year 2023-24 have reduced the deficit. The liability also decreased to \$106.7 million from the prior year's estimate of \$137.3 million. The County intends to reduce the existing deficit through increased rate charges to County departments over a 10-year period starting in fiscal year 2024-25, primarily based on the 5 year history of actual expenses by department.

NOTE 34
County of San Diego Successor Agency Private Purpose Trust Fund for Assets of Former San Diego County Redevelopment Agency

On December 29, 2011, the California Supreme Court upheld Assembly Bill x1 26 (the “Bill”) that provided for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the County that previously had reported the San Diego County Redevelopment Agency (SDCRA) as a blended component unit.

The Bill provided that upon dissolution of a redevelopment agency, either the County or another unit of local government would agree to serve as the “successor agency” to hold the assets until they are distributed to other units of state and local government. On January 24, 2012, via Minute Order

14, the County Board of Supervisors designated the County as the successor agency to the SDCRA; in accordance with the Bill.

Subject to the control of an established oversight board, remaining assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

In future fiscal years, successor agencies will continue to only be allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former redevelopment agency until all enforceable obligations of the prior redevelopment agency have been paid in full and all assets have been liquidated.

In accordance with the timeline set forth in the Bill (as modified by the California Supreme Court on December 29, 2011) all redevelopment agencies in the State of California were dissolved and ceased to operate as a legal entity as of February 1, 2012.

After the date of dissolution, as allowed in the Bill, the County elected to retain the housing assets and functions previously performed by the former SDCRA. These assets and activities are accounted for in the County Low and Moderate Income Housing Asset Fund and are reported in the County's governmental fund financial statements. The remaining assets, liabilities, and activities of the dissolved SDCRA are reported in the County of San Diego Successor Agency Private Purpose Trust Fund (fiduciary fund) financial statements of the County.

Due To Other Funds

The County of San Diego Successor Agency Private Purpose Trust Fund's "Due To Other Funds" consists of outstanding loans owed to the General Fund for the Upper San Diego River Project (\$1.123 million), to the Airport Enterprise Fund (AEF) for the Airport Projects (\$2.737 million) and to the County Low and Moderate Income Housing Asset Fund (CLMIHAF) (\$328 thousand). The loans were originally made from the General Fund and AEF to the former San Diego County Redevelopment Agency (SDCRA) but were transferred to the County of San Diego Successor Agency Private Purpose Trust Fund upon dissolution of the SDCRA on

February 1, 2012. Additionally, in fiscal year 2016, twenty percent of the then outstanding amount owed to the AEF was transferred from the AEF to the CLMIHAF, as mandated by California Health and Safety Code 34191.4. As of June 30, 2024, the interest earned on the General Fund loan accrues on the average quarterly outstanding balance, at a rate equal to the average County earned investment rate as determined by the County Treasurer. Interest earned on the AEF and CLMIHAF loans accrue at the rate mandated by Health and Safety Code 34191.4. Under California Assembly Bills ABx1 26 and AB 1484, it is expected that the County Successor Agency Private Purpose Trust Fund will pay principal and interest on the loans outstanding when funds are available for this purpose. The timing and total amount of any repayment is subject to applicable law.

NOTE 35
San Diego County Redevelopment Agency (SDCRA) Revenue Refunding Bonds

In December 2005, the San Diego County Redevelopment Agency (SDCRA) issued \$16 million Revenue Refunding Bonds Series 2005A that were to mature in fiscal year 2032 but will now mature in 2030 due to the effect of making turbo payments. The SDCRA has pledged property tax increment revenues generated within the Gillespie Field Project Area to pay for the bonds. Gillespie Field Airport revenues may also be used to fund debt service payments if there are insufficient property tax increment revenues to cover a particular fiscal year's debt service requirement. Bonds are also payable from funds held under the indenture, including earnings on such funds. Pursuant to California Assembly Bill ABx1 26, the responsibility for the payment of this debt was transferred to the County of San Diego Successor Agency Private Purpose Trust Fund. The Series 2005A Bonds are not a debt of the County and are not payable out of any funds or properties other than those of the SDCRA.

Upon the occurrence of an event of default (as described in the financing documents) the principal of all of the Bonds then outstanding and the interest accrued thereon shall be immediately due and payable.

SDCRA revenue refunding bonds outstanding at June 30, 2024 were as follows:

Table 63
SDCRA Revenue Refunding Bonds

Issuance	Original Amount	Interest Rate	Final Maturity Date	Outstanding Balance at June 30, 2024
Revenue Refunding Bonds		3.65 -		
Series 2005A	\$ 16,000	5.75%	2030	4,300
Total	\$ 16,000			4,300

Annual debt service requirements to maturity for SDCRA bonds are as follows:

Table 64
SDCRA Revenue Refunding Bonds - Debt Service Requirements to Maturity

Fiscal Year	Principal	Interest	Total
2025	\$ 715	222	937
2026	755	181	936
2027	795	136	931
2028	845	89	934
2029	890	39	929
2030	300	7	307
Total	4,300	674	4,974
Less:			
Unamortized issuance discount	(14)		
Total	\$ 4,286		

SDCRA pledged revenue for the year ended June 30, 2024 was as follows:

Table 65
SDCRA Revenue Refunding Bonds - Pledged Revenues

Debt Pledged	Final Maturity Date	Pledged Revenue To Maturity	Fiscal Year 2024	
			Debt Principal & Interest Paid	Pledged Revenue Received
Revenue Refunding Bonds Series 2005A	2030	\$ 4,974	\$ 1,529	1,545

Changes in Long-Term Liabilities

Long-term liability activities for the year ended June 30, 2024 were as follows:

Table 66
SDCRA Changes in Long-Term Liabilities

	Beginning Balance at July 1, 2023	Additions		Reductions		Ending Balance at June 30, 2024	Amounts Due Within One Year
Revenue Refunding Bonds Series 2005A	\$ 5,550			(1,250)		4,300	715
Unamortized issuance discounts	(16)			2		(14)	(2)
Total	\$ 5,534			(1,248)		4,286	713

NOTE 36

Subsequent Events

San Diego County Capital Asset Leasing Corporation - "County of San Diego Refunding Certificates of Participation, Series 2024 (Edgemoor Refunding)"

In July 2024, the San Diego County Capital Asset Leasing Corporation issued \$31.090 million of fixed rate certificates of participation titled, "County of San Diego Refunding Certificates of Participation, Series 2024 (Edgemoor Refunding)." The 2024 Certificates were issued at a 5.00% fixed rate of interest and will mature on October 1, 2029.

The 2024 Certificates were issued with a premium of \$2.191 million. These certificates were issued to current refund and defease the entire outstanding County of San Diego Edgemoor and RCS Refunding Series 2014A certificates of participation.

NOTE 37

New Governmental Accounting Standards Implementation Status

In April 2022, the GASB issued *Statement No. 99, Omnibus 2022*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during

implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

In fiscal year 2023, the County determined that some of the requirements of this statement were effective for fiscal year 2023 and were implemented in fiscal year 2023. The remaining requirements of this statement were effective for fiscal year 2024, and the County has implemented the remaining requirements for the current fiscal year.

In June 2022, the GASB issued *Statement No. 100, Accounting Changes and Error Corrections - An Amendment of GASB Statement No. 62*. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability.

The County has implemented this Statement for the current fiscal year.

Under Analysis

The County is currently analyzing its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2022, the GASB issued *Statement No. 101, Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2023.

In December 2023, the GASB issued *Statement No. 102, Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2024.

In April 2024, the GASB issued *Statement No. 103, Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2025.

NOTE 38

San Diego County Employees Retirement Association (SDCERA)

Investments

The California Constitution and the County Employees Retirement Law of 1937 (CERL) grant the Board of Retirement (Retirement Board) exclusive control over SDCERA's Trust Fund. The CERL permits the Board to invest, or delegate the authority to invest, Trust Fund assets through the purchase, holding or sale of any form or type of investment, financial instrument, or financial transaction. All purchases and sales of investments are accounted for on a trade-date basis, and dividends declared but not received are accrued

on the ex-dividend date. Realized and unrealized gains or losses of securities are determined based on fair values.

Cash and Short-Term Investments

Cash and short-term investments are cash and assets readily convertible to cash. They include funds held in bank accounts, certificates of deposit, banker's acceptances, Treasury bills, commercial paper and other money market instruments with original maturities of 90 days or less.

Valuation of Investments

SDCERA's custodian bank provides daily valuation of portfolio assets using third-party vendors or specified alternative sources that are considered reliable. The custodian bank reviews the data received from these sources for valuation accuracy. Pricing methodologies vary by asset type and are summarized next.

Equity

Exchange-traded domestic and global equities and equity option values are based on the closing price reported by the primary exchange on which the asset trades or other agreed-upon exchange. Over-the-counter (OTC) equity investments not traded on an exchange and warrants are valued based on the last bid price.

Fixed Income

Domestic and global fixed income securities with an active market and Preferred stocks are valued based on bid prices.

Private Equity and Private Real Assets

The fair value of all private equity and private real asset investments are determined based on valuations provided in good faith by the General Partners or fund managers consistent with their valuation policies. Valuation assumptions are based upon the nature of the investments and underlying businesses, and valuation techniques vary based upon investment type and involve expert judgment. Private equity and private real assets funds are subject to annual independent audit.

Real Estate

Real estate directly owned by SDCERA is held in separate accounts. Limited Partner interests are valued based on the net asset value of the partnership, which is determined by the General Partners in accordance with the partnership’s valuation policies. Properties are generally valued by an independent third-party appraisal performed on a rotational one-to-three-year basis consistent with the Uniform Standards of Professional Appraisal Practice. During the interim years, real estate values are adjusted for market conditions and cash flow activities. Real estate investments held in separate accounts and Limited Partner interests are subject to an annual independent audit.

Mortgage Loans

Table 67 presents SDCERA’s mortgage loans payable associated with its real estate investments as of June 30, 2024. Principal includes amortization and terminal principal payments for the loan balance as of June 30, 2024, and interest includes interest payments on the forecasted loan balances, inclusive of additional draws after June 30, 2024.

Fiscal year payable	Principal (1)	Interest (2)	Total
2025	\$ 24,100	23,338	47,438
2026	55,991	21,467	77,458
2027	181,727	15,529	197,256
2028	114,633	8,041	122,674
2029	25,722	4,585	30,307
2030-2034	47,060	5,351	52,411
Total	\$ 449,233	78,311	527,544

(1) Principal includes amortization and terminal principal payments for the loan balances as of June 30, 2024.

(2) Interest includes interest payments on the forecasted loan balances, inclusive of additional draws after June 30, 2024.

Derivative Financial Instruments

Derivatives are used in investment portfolios to gain exposure to certain assets or markets, to protect against the risk of adverse moves in asset prices or to enhance returns. SDCERA permits its investment managers to use derivatives to implement their approved investment strategies within their portfolios provided such usage does not introduce market leverage to the total Trust Fund.

SDCERA reports the fair value of derivative instruments in the Statement of Fiduciary Net Position. **Table 68** presents SDCERA’s derivative instruments as reported in the Statement of Fiduciary Net Position in the domestic equity, international equity, fixed income and private equity categories as of June 30, 2024.

Derivative Type	Changes in Fair Value (1)	Fair Value	Notional Value
Swaps	\$ (97,680)	25,276	3,824,838
Options	470	66	
Forwards	8,192	17,369	694,853
Futures	(20,995)	1,094	647,559
Total	\$ (110,013)	43,805	5,167,250

(1) All changes in the fair value of these derivatives are reported as investment income in the Statement of Changes in Fiduciary Net Position.

Swaps

Swaps are contracts by which the parties agree to exchange cash flows and usually involve exchanging a fixed cash flow for a variable cash flow. For example, one party may agree to receive a fixed interest payment in exchange for the total return of an equity index. Swaps do not trade on exchanges. **Table 69** presents SDCERA’s Swaps by Type as of June 30, 2024.

Table 69
Swaps by Type

Options

Options are contracts that give the buyer the right, but not the obligation, to buy or sell an asset at a pre-determined price by a specified date. While options may be privately negotiated, the majority of options are standardized contracts that trade on an exchange. **Table 70** presents SDCERA's Options by Type as of June 30, 2024.

Table 70
Options by Type
As of June 30, 2024
(In Thousands)

Type	Notional Value	Fair Value
Call		
Put	\$	66
Total	\$	66

Forwards

Forwards are non-standardized, binding contracts between two parties to buy and sell an asset at a specified price at a certain future date; they do not

trade on an exchange. Forwards settle at the end of the contract term. **Table 71** presents SDCERA's Forward Contracts by Type as of June 30, 2024.

Table 71
Forward Contracts by Type

(In Thousands)

Type	Notional Value	Fair Value
Foreign Currency Forwards	\$ 694,853	17,369
Total	\$ 694,853	17,369

Futures

Futures are standardized, binding contracts to buy and sell an asset at a specified price by a certain date. Futures are exchange-traded and settle daily. For SDCERA, net gains and losses for the daily settlements are included in the Statement of Changes in Fiduciary Net Position. **Table 72** presents a summary of SDCERA's Futures Contracts by Type as of June 30, 2024.

Deposits And Investments

SDCERA retains investment managers who specialize in particular asset classes and are subject to the guidelines and controls established in SDCERA's Investment Policy Statement (IPS). SDCERA contracts with The Bank of New York Mellon (BNY Mellon) to custody Plan assets.

SDCERA's Investment Philosophy is contained in the IPS and is based on Modern Portfolio Theory, which posits that a diversified portfolio with capitalization-weighted allocations to multiple asset classes will maximize Trust Fund returns and diversify against the risk of loss. Interest rate and credit risks are embedded in a capitalization-weighted portfolio, cannot be diversified away, and are observed in the expected and realized volatilities of the Trust Fund, its components, and the benchmarks. This is reviewed and reported to the Retirement Board monthly.

Any risks from deviations from the capitalization-weighted benchmarks are taken by active investment managers and these risks are captured by the expected and realized tracking error of each manager. These data are also reviewed by staff and are reported to the Retirement Board monthly at a summary level for the total Trust Fund. Chapters II.A (Investment Philosophy), III.E (Investment Manager Requirements), IV.F (Risk Measurement and Management) and G (Tracking Error), and VI.A (Asset Class Allocations, Ranges and Update Cycle) and B (Total Trust Fund Benchmarks) of the Investment Policy Statement are the formal policy statements that address these risks and overall risk management.

Highly Sensitive Investments

As of June 30, 2024, SDCERA's investments included collateralized mortgage obligations (CMO) and mortgage-backed securities totaling \$270.5 million. These securities are highly sensitive to interest rate fluctuations and are subject to prepayment risk in a period of declining interest rates.

Annual Rate of Return

In FY 2024, the annual money-weighted rate of return for the Trust Fund, net of fees, was 11.2%. The money-weighted rate of return reflects investment performance, net of fees, adjusted for the timing of

cash flows and the amounts invested. The money-weighted rate of return can be different than the time-weighted rate of return for the SDCERA-PP, which was 11.3%, net of fees for FY 2024.

Investment Risk

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposit and Investment Risk Disclosures*, investment risk disclosure is required for interest rate risk, credit risk (including custodial credit risk and concentrations of credit risk) and foreign currency risk.

Interest Rate Risk

Interest rate risk is the risk that a change in interest rates will adversely impact the fair value of an investment. In general, an investment's maturity and coupon rate affect how much its price will change as a result of fluctuations in market interest rates. Interest rate risk is monitored and managed by SDCERA's investment managers in accordance with the interest rate risk parameters specified in each manager's investment guidelines.

Table 73 presents exposure to interest rate risk in terms of maturity as of June 30, 2024.

Investment Type	Investment Maturities (in years)				Totals
	Less than 1	1 - 5	6 - 10	More than 10

Totals	\$ 2,306,863	3,732,987	937,242	1,503,907	8,480,999

Agency Collateralized Mortgage Obligations or Mortgage-Backed Securities

Agency collateralized mortgage obligations (CMOs) or mortgage-backed securities are securities issued by an agency that use mortgages as collateral.

Asset-Backed

Asset-backed securities are securities that are collateralized by a pool of assets such as loans, leases, credit card debt, royalties or receivables.

Commingled Funds

Commingled funds are professionally managed diversified investment portfolios comprised of assets from multiple investors and managed as a single portfolio. Commingled funds are not publicly traded and participation in them is typically limited to institutional investors.

Convertibles

Convertibles are securities that can be converted into other securities under specified conditions, such as convertible bonds or preferred stock that can be converted into shares of common stock.

Corporates

Corporates refer to debt securities issued by domestic or foreign corporations.

Municipal

Municipal bonds are debt securities issued by a state, county, city, redevelopment agency, special purpose district, school district or similar entity.

Non-Agency CMOs or Mortgage-Backed Securities

Non-Agency CMOs or mortgage-backed securities are domestic and foreign securities that use mortgages as collateral but are issued by an entity other than an agency.

Private Placements

Private placements are domestic and foreign stocks or bonds sold to pre-selected investors and institutions rather than in the open market.

U.S. Government Debt

U.S. Government debt refers to fixed income securities issued by the United States of America, such as Treasury notes and bonds.

Derivative Credit Risk

Derivative instruments generally have a maturity of one year or less. **Table 76** presents counterparty credit ratings related to swaps and forward contracts in SDCERA's portfolio as of June 30, 2024. Credit ratings were issued by S&P Global Ratings.

Table 76
Credit Risk of Derivatives at Fair Value
As of June 30, 2024

AA		192
AA-	31,614	2
Not Rated	10,645	
Total subject to credit risk	\$ 25,276	17,369

Concentration of Credit Risk

Credit risk concentration refers to the risk of loss that could occur from a disproportionately large exposure to any single credit risk, such as investing a large proportion of a portfolio's assets in a single security or in the securities of a single issuer. As of June 30, 2024, in conformance with GASB Statements No. 40 and No. 67, no single issuer exceeded 5% of SDCERA's total investments or represented 5% or more of its total net position. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools and other pooled investments are exempt from GASB disclosure requirements.

Foreign Currency Risk

Foreign currency risk is the risk that a change in exchange rates will adversely impact the value of an investment. **Table 77** presents SDCERA's Net Exposure to Foreign Currency Risk. Foreign currency risk is monitored and managed by SDCERA's investment managers in accordance with the foreign currency exposure parameters specified in each manager's investment guidelines.

Table 77

SDCERA also had indirect exposure to foreign currency through its investment in DFA Emerging Markets Value Portfolio (NASDAQ: DFEVX), an institutional mutual fund that invests primarily in shares of foreign equities. As of June 30, 2024, SDCERA's investment in this mutual fund totaled \$113.3 million. Detailed information about the fund is available at: us.dimensional.com.

Custodial Credit Risk

Custodial credit risk is the risk of being unable to recover the value of investment or collateral securities in the possession of an outside party. Custodial credit risk is influenced by how the securities are insured and registered and where they are held. SDCERA's

investments are insured, registered or held by the SDCERA-PP or its agent in the SDCERA-PP's name and therefore not exposed to custodial credit risk.

Securities Lending

SDCERA's IPS permits the SDCERA-PP to enter into securities lending transactions. SDCERA lends U.S. Government obligations, domestic and international bonds and equities to brokers with a simultaneous agreement to return collateral for the same securities plus a fee in the future. SDCERA's securities lending agent BNY Mellon manages the securities lending program and receives securities and/or cash as collateral. Cash and non-cash collateral are pledged at between 102% or 110% of the fair value of domestic securities and international securities on loan, respectively. There are no restrictions on the amount of

securities that can be loaned at one time. The term to maturity of the loaned securities is generally not matched with the term to maturity of the investment of the cash collateral. BNY Mellon is required to indemnify SDCERA if the borrowers fail to return the borrowed securities.

As of June 30, 2024, the SDCERA-PP had \$982.9 million in securities on loan and held cash and non-cash collateral of \$1.1 billion from borrowers.

Table 78 presents SDCERA's Securities Lending Transactions as of June 30, 2024.

Table 78 Securities Lending Transactions As of June 30, 2024 (In Thousands)		
	SDCERA Securities Lent	Cash and Non-Cash Collateral
Lent for cash collateral:		
Domestic corporate	\$ 106,282	108,926
Domestic equities	2,904	2,987
U.S. government debt	8,166	8,337
Exchange Traded	2,640	2,694
Lent for securities collateral:		
Domestic corporate	44,880	50,206
Domestic equities	39,090	43,130
U.S. government debt	775,936	848,617
Exchange traded	3,022	3,199
Total	\$ 982,920	1,068,096

BNY Mellon invests the cash collateral for securities lending in a separately managed, short-term investment account. As shown in **Table 79**, at June 30, 2024, the short-term investment account consisted of 100.2% overnight repurchase agreements and (0.2%) asset-backed securities.

Table 79 Securities Lending Investments As of June 30, 2024 (In Thousands)		
	Fair value	% of Total
Repurchase agreements	\$ 123,200	100.2%
Other (cash)	(256)	-0.2%
Total	\$ 122,944	100.0%

The time deposits and asset-backed securities were rated A by S&P Global Ratings. SDCERA does not have the ability to pledge or sell collateral securities without a borrower default. As of June 30, 2024, SDCERA had no credit risk exposure to borrowers.

Fair Value of Investments

SDCERA measures and records its investments using fair value measurement guidelines in accordance with generally accepted accounting principles. These guidelines recognize a three-level fair value hierarchy, as follows:

Level 1: Quoted prices for identical investments in active markets;

Level 2: Observable inputs other than quoted market prices; and,

Level 3: Unobservable inputs.

Table 80 presents a schedule of SDCERA's Fair Value Measurements as of June 30, 2024. Values are derived from BNY Mellon and are presented based on securities classification. Amounts per asset class, when aggregated, correspond to values presented in the Statement of Fiduciary Net Position.

Notes to the Basic Financial Statements

(Amounts expressed in thousands unless otherwise noted)

Total investments Measured at Fair Value	15,486,264			
Investments Securities Lending Collateral:				
Collateral payable for securities lending	122,944		122,944	
Total Collateral from securities lending	\$ 122,944		122,944	
Values derived from custodian bank and presented based on securities classification. Amounts per asset class, when aggregated, correspond to values as presented in the Statement of Fiduciary Net Position.				

Fixed income and equity securities classified as Level 1 are valued using prices quoted in active markets for those securities. Securities classified as Level 2 are valued using matrix pricing, market corroborated pricing and inputs such as yield curves and indices. Securities classified as Level 3 are valued using investment manager pricing for private placements, private equities and real estate.

Investments valued using the net asset value (NAV) per share or its equivalent are considered "alternative investments" and, unlike more traditional investments, generally do not have readily-obtainable market values and take the form of limited partnerships. SDCERA invests in the following alternate investments:

Private Equity Funds. These funds generally invest in illiquid, non-publicly traded equity and debt securities and partnership interests. Investments in these Limited Partnership investments are stated at fair value in accordance with U.S. generally accepted accounting

principles and Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*.

Private Real Assets Funds. These funds generally invest in agriculture, energy, infrastructure, metals and mining, and timber assets. The investments are typically illiquid and non-publicly traded.

Real Estate Funds. These funds invest both in U.S. and foreign commercial real estate. The fair values of the investments have been determined using the NAV per share or its equivalent of SDCERA-PP's ownership interest in partners' capital. Generally, these investments cannot be redeemed. Distributions from each fund are received when income is distributed or when the underlying investments in the funds are liquidated.

SDCERA values alternative investments based on the partnerships' financial statements. If June 30 statements are available, those values are used. If partnerships have fiscal years ending dates other than

June 30, the value is obtained from the most recently available valuation combined with subsequent calls and distributions.

Table 81 presents a schedule of the unfunded commitments, redemption frequency and redemption notice period for SDCERA's Alternative Investments Measured at Net Asset Value, as of June 30, 2024.

Table 81
Investments Measured at Net Assets Value (NAV)
As of June 30, 2024

Real Estate Funds	695,898	189,499	Variable	Variable
Total Investments measured at NAV	\$ 1,154,114	380,975		

Commitments And Contingencies

Derivative Instruments

Through certain investment managers, SDCERA is a party to derivative financial instruments. Derivative instruments include but are not limited to contracts for delayed delivery of securities, commodities or currencies in which the seller agrees to make delivery at a specified future date of a specified instrument at a specified price or yield. Risks arise from the possible inability of counterparties to meet the terms of their contract. The risk of loss from these financial instruments includes credit risk and market risk, which refers to the possibility that future changes in market prices may make such financial instruments less valuable.

Unfunded Commitments

The Statement of Fiduciary Net Position does not reflect unfunded commitments to invest in private equity funds in the amount of \$101.6 million, real estate funds in the amount of \$189.5 million and private real asset funds in the amount of \$89.8 million. SDCERA funds these commitments from SDCERA-PP assets over multiple fiscal years.

Required Supplementary Information

Pension Plan

The schedule (in thousands) of the County's proportionate share of the San Diego County Employees Retirement Association (SDCERA) pension plan collective Net Pension Liability is shown in the table below:

	Fiscal Year

OPEB Plan

The schedule (in thousands) of the County's proportionate share of the SDCERA Retiree Health Plan (RHP) collective Net OPEB Liability is shown in the table below:

Table 4 Schedule of the County's Proportionate Share of the Net OPEB Liability	Fiscal Year						
	2024*	2023*	2022*	2021*	2020*	2019*	2018*
County's proportion of the net OPEB liability	93.023%	92.913%	93.257%	92.670%	93.396%	93.227%	92.590%
County's proportionate share of the net OPEB liability	\$ 45,792	69,417	71,147	92,006	106,033	119,483	132,163
County's covered payroll	\$ 1,444,698	1,339,194	1,307,845	1,267,790	1,190,184	1,145,764	1,091,617
County's proportionate share of the net OPEB liability as a percentage of its covered payroll	3.170%	5.183%	5.440%	7.257%	8.909%	10.428%	12.107%
Plan fiduciary net position as a percentage of the total OPEB liability	49.35%	32.73%	31.57%	19.70%	14.73%	10.12%	6.92%

*Amounts presented above were based on the measurement period ending June 30, 2023, June 30, 2022, June 30, 2021, June 30, 2020, June 30, 2019, June 30, 2018, and June 30, 2017.

Note: This Schedule is intended to show information for ten years. Additional years' information will be displayed as it becomes available.

The schedule (in thousands) of County contributions to the SDCERA RHP is shown in the table below:

	Fiscal Year						
	2024*	2023*	2022*	2021*	2020*	2019*	2018*
Actuarial determined contributions	\$ 19,212	17,116	17,008	17,611	18,472	18,892	18,229
Contributions in relation to the actuarially determined contributions	19,212	17,116	17,008	17,611	18,472	18,892	18,229
Contribution deficiency (excess)							
County's covered payroll	\$ 1,601,398	1,444,698	1,339,194	1,307,845	1,267,790	1,190,184	1,145,764
Contributions as a percentage of covered payroll	1.20%	1.18%	1.27%	1.35%	1.46%	1.59%	1.59%

*Amounts presented above were based on the fiscal years ended June 30, 2024, June 30, 2023, June 30, 2022, June 30, 2021, June 30, 2020, June 30, 2019 and June 30, 2018.
Note: This Schedule is intended to show information for ten years. Additional years' information will be displayed as it becomes available.

The 10-year schedule of annual money-weighted rate of return on RHP investments is included in the SDCERA financial report at https://www.sdcer.org/finance_Annual_Comprehensive_Financial_Reports.htm.

Changes in Assumptions

The following assumptions used to determine the Total OPEB Liability have changed:

	Reporting Period: June 30, 2018	Reporting Period: June 30, 2019
Salary increases	General: 4.50% to 9.75% including inflation.	General: 4.25% to 10.25% including inflation. Non-Medicare: 7.00% graded to ultimate 4.50% over 10 years; Medicare: 6.50% graded to ultimate 4.50% over 8 years.
Healthcare trend	6.50% graded to ultimate 4.50% over 8 years.	years.
Inflation	3.00%	Reporting Period: June 30, 2020 2.75%
Salary increases	General: 4.25% to 10.25% including inflation.	General: 4.15% to 10.50% including inflation.
Discount rate	7.25%	7.00%
Healthcare trend	Non-Medicare: 7.00% graded to ultimate 4.50% over 10 years; Medicare: 6.50% graded to ultimate 4.50% over 8 years.	Non-Medicare: 6.75% graded to ultimate 4.50% over 9 years; Medicare: 6.25% graded to ultimate 4.50% over 7 years.
Healthcare trend	Reporting Period: June 30, 2021 Non-Medicare: 6.75% graded to ultimate 4.50% over 9 years; Medicare: 6.25% graded to ultimate 4.50% over 7 years.	Reporting Period: June 30, 2022 Non-Medicare: 7.50% graded to ultimate 4.50% over 12 years; Medicare: 6.50% graded to ultimate 4.50% over 8 years.
Inflation	Reporting Period: June 30, 2022 2.75%	Reporting Period: June 30, 2023 2.50%
Salary increases	General: 4.15% to 10.50% including inflation.	General: 3.90% to 10.25% including inflation and 0.50% across the board salary increases.
Discount rate	7.00%	6.50%
Healthcare trend	Non-Medicare: 7.50% graded to ultimate 4.50% over 12 years; Medicare: 6.50% graded to ultimate 4.50% over 8 years.	Non-Medicare: 7.25% graded to ultimate 4.50% over 11 years; Medicare: 6.50% graded to ultimate 4.50% over 8 years.
Salary increases	Reporting Period: June 30, 2023 General: 3.90% to 10.25% including inflation and 0.50% across the board salary increases.	Reporting Period: June 30, 2024 General: 3.90% to 10.50% including inflation and 0.50% across the board salary increases. Safety: 4.10% to 11.75% including inflation and 0.50% across the board salary increases.

Budgetary Information

General Budget Policies

An operating budget is adopted each fiscal year by the Board of Supervisors for the governmental funds. The annual resolution adopts the budget at the object level of expenditures within departments. Annual budgets are not required to be adopted for the Tobacco Securitization Joint Special Revenue Fund; and the Debt Service and Capital Projects Funds (other governmental funds). Certain annual appropriations are budgeted on a project or program basis. If such projects or programs are not completed at the end of the fiscal year, unexpended appropriations, including encumbered funds, are carried forward to the following year with the approval of the Board of Supervisors.

Appropriations may also be adjusted during the year with the approval of the Board of Supervisors. Additionally, the County Budget Act authorizes the Chief Administrative Officer (CAO) and/or Auditor and Controller to approve transfers within a department as long as overall appropriations of the department are not increased. Such adjustments are reflected in the final budgetary data. Accordingly, the legal level of budgetary control by the Board of Supervisors is the department level.

The schedule of revenues, expenditures, and changes in fund balance - budget and actual for the General Fund, Public Safety Fund and the Tobacco Endowment Fund that is presented as Required Supplementary Information was prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

The Original Budget consists of the adopted budget plus the budget carried forward from the prior fiscal year. Accordingly, encumbrances that are subject to automatic re-appropriation are included as part of the original budget. The County adopts its budget by June 30 of the prior fiscal year. The final budget includes the original budget plus amended budget changes occurring during the fiscal year.

The Actual column represents the actual amounts of revenue, expenditures, and other financing sources and uses reported on a GAAP basis which is the same basis that is used to present the aforementioned original and final budget.

Combining and Individual Fund Information and Other Supplementary Information

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Asset Forfeiture Program Fund

This fund was established to account for the proceeds of assets that were seized and forfeited by federal and state agencies participating in asset forfeiture programs. These programs are law enforcement initiatives that recover assets used in criminal activities and redirects such assets and the investment income derived therefrom to the support of crime victims and local law enforcement initiatives. This fund is restricted for law enforcement.

Community Facilities District Funds - Other

These funds were established to provide services such as fire protection and suppression, emergency response, operation and maintenance of the facilities, and flood control to citizens residing within that specific district. CFDs are funded by special taxes levied on citizens residing within the district. These funds are restricted for fire protection and suppression, emergency response, operation and maintenance of facilities, and flood control.

County Library Fund

This fund was established to provide library services for the unincorporated area as well as 11 of the incorporated cities within the county. Property taxes provide most of the fund's revenues; aid from other governmental agencies, grants and revenues from library services provide the remaining principal revenues. This fund is restricted for library services.

County Low and Moderate Income Housing Asset Fund

Pursuant to Health and Safety Code 34176, the County elected to assume the housing functions of the housing assets of the former San Diego County Redevelopment Agency, along with the related rights,

powers, liabilities, duties and obligations. As a result, this fund was created on February 1, 2012, and the use of this fund is restricted for housing activities.

County Service District Funds

These special district funds were established to provide authorized services such as road, park, lighting maintenance, fire protection or ambulance service to specific areas in the county. They are financed by ad valorem property taxes in the area benefited or by special assessments levied on specific properties. They also derive revenue from cities and from services provided to property owners. This fund is restricted for road, park lighting maintenance, fire protection and ambulance services.

Edgemoor Development Fund

This fund was established pursuant to Board Policy F-38, which provides guidelines for the use, development and disposition of the County's 326 acres of property located in the City of Santee, known as the Edgemoor Property. Revenues are derived from the sale or lease of land within the Edgemoor property, and these revenues are to be used for the reconstruction of the Edgemoor Skilled Nursing Facility. A portion of these reconstruction costs include an annual transfer to reimburse the General Fund for annual lease payments associated with the 2014 Edgemoor Refunding COPs, which refunded the 2005 and 2006 Edgemoor COPs. Those COPs were used to fund the redevelopment of the Edgemoor Skilled Nursing Facility, which was completed in 2009. The federal reimbursements with the SB 1128 program are also deposited into this fund. This fund is restricted for Edgemoor development.

Flood Control District Fund

This fund was established to account for revenues and expenditures related to providing flood control in the county. It is financed primarily by ad valorem property taxes. This fund is restricted for flood control future drainage improvements.

Harmony Grove Community Facilities District Fund

This fund was established to account for services provided such as fire protection, emergency response, street improvements, flood control, street lighting, and

the maintenance and operation of parks for the citizens of Harmony Grove Village. It is financed by special taxes levied on the citizens residing within the district. This fund is restricted for the maintenance and operation of parks and recreation services, fire protection services, emergency response, street improvements, street lighting, and flood control service.

Housing Authority - Low and Moderate Income Housing Asset Fund

Pursuant to Health and Safety Code 34176 (b) and (b)(2), the City of Santee elected to transfer the housing functions of the Successor Agency to the Community Development Commission of the City of Santee, to the County of San Diego Housing Authority (Housing Authority). This fund was created in fiscal year 2013-14 and the use of this fund is restricted for housing activities.

Housing Authority - Other Fund

This fund was established to account for revenues and expenditures of programs administered by the Housing Authority. These programs assist individuals and families to reside in decent, safe, and sanitary housing. The U.S. Department of Housing and Urban Development (HUD) provides the majority of the funding for the Housing Authority's program expenditures.

In Home Supportive Services Public Authority Fund (IHSSPA)

This authority was established for the administration of the IHSSPA registry, investigation of the qualifications and background of potential registry personnel, referral of registry personnel to IHSSPA recipients and the provision for training of providers and recipients. IHSSPA is funded by the State's social services realignment fund, federal and state programs. The monies are initially deposited into the County's General Fund, and transferred to the IHSSPA fund. This fund is restricted for in home supportive services.

Inactive Wastesites Fund

This fund was established to receive one-time homeowner association deposits and residual funds from the sale of the County's Solid Waste System. Expenditures include repairs, maintenance and care for

the County's inactive landfill sites in accordance with all applicable governmental regulations, laws and guidelines. This fund is committed to landfill postclosure and inactive landfill maintenance.

Incarcerated Peoples and Ward Welfare Program Fund

This fund was established to receive telephone and other vending proceeds from stores operated in connection with the County jails and juvenile facilities. This fund is restricted by law, primarily for the benefit, education, and welfare of wards and incarcerated persons.

Lighting Maintenance District Fund

This fund was established to provide street and road lighting services to specified areas of the county. Revenue sources include ad valorem taxes, benefit fees, state funding and charges to property owners. This fund is restricted for street and road lighting maintenance.

Other Special Revenue Funds

These funds were established to receive user fees, land lease revenues and fines. The activities (expenditures) of these funds are restricted for retracement or remonument surveys, improvements for grazing lands, wildlife propagation and aviation purposes, capital improvements and repairs, contracts administration, data collection, analysis and reporting, recycling sustainability improvements, and responding to complaints regarding trash and trash haulers in unincorporated areas.

Park Land Dedication Fund

This fund was established to receive and expend special park land dedication fees from developers of land as a condition for approval of any development. The fees may be used for the purchase of land and the development of land for active park or recreational facilities. These facilities serve the future residents of such developments and the greater county at large. In lieu of the payment of these fees, the developer may dedicate land for active park or recreational facilities. This fund is restricted, as per the Park Land Dedication Ordinance, to developing new or rehabilitating existing neighborhood or community park or recreational facilities.

Road Fund

This fund was established to provide for maintenance and construction of roadways and for specialized engineering services to other governmental units and the public. Revenues consist primarily of the County's share of state highway user taxes and are supplemented by federal funds, vehicle code fines, and fees and reimbursements for engineering services provided. This fund is restricted for future road improvements.

SANCAL Non-Capital Fund

This fund received proceeds from the sale of the Certificates of Participation, Series 2023. It was established to provide for non-capital project costs for the County Public Health Lab project and is restricted to this purpose.

Tobacco Securitization Joint Special Revenue Fund

The Tobacco Securitization Joint Special Revenue Fund accounts for the transactions of the San Diego County Tobacco Asset Securitization Corporation and Tobacco Securitization Authority of Southern California, two component units, that are blended into the County's financial statements. This fund is funded by restricted tobacco settlement revenues.

DEBT SERVICE FUNDS

Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated.

Pension Obligation Bonds Fund

This fund receives payments from the County and other agencies for payment of principal and interest due on taxable pension obligation bonds. The debt issue was used to satisfy the County's requirement to amortize the unfunded actuarial accrued liability with respect to retirement benefits accruing to members of the San Diego County Employees Retirement Association. This fund is restricted for debt service.

San Diego Regional Building Authority Fund

This fund receives interest on monies invested in permissible investments as directed by each San Diego Regional Building Authority (SDRBA) financing's Trust indenture. Debt service payments made in this fund also include payments not accounted for in the County's General Fund related to SDRBA debt issuances; and are secured by interest earnings on the aforementioned permissible investments. This fund is restricted for debt service.

SANCAL Fund

This fund receives interest on monies invested in permissible investments as directed by each San Diego County Capital Asset Leasing Corporation (SANCAL) financing's Trust indenture. Debt service payments made in this fund are secured by the aforementioned interest earnings and represent payments not accounted for in the County's General Fund related to SANCAL debt issuances. This fund is restricted for debt service.

CAPITAL PROJECTS FUNDS

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Capital Outlay Fund

This fund is used exclusively to finance the acquisition, construction and completion of permanent public improvements, including public buildings; and for the costs of acquiring land and permanent improvements. Revenues are obtained from grants; and contributions from other funds when approved by the Board of Supervisors. This fund is committed to capital projects.

Harmony Grove Community Facilities District Fund

This fund is used to account for expenditures of the Harmony Grove Village Special Tax A revenues and the proceeds from the sale of special tax bonds of the

Harmony Grove Community Facilities District No. 2008-01. The monies are used to reimburse the developer for the construction of facilities in the Harmony Grove Community Facilities District Improvement Areas 1 and 2. The fund is restricted for capital projects per the debt covenant.

SANCAL Fund

This fund is used to account for the expenditures of the proceeds from the sale of certificates of participation of the San Diego Capital Asset Leasing Corporation (SANCAL) used to pay construction costs for the County's Youth Transition Campus. This fund is restricted for capital projects per various debt covenants.

INTERNAL SERVICE FUNDS

Internal service funds are established to account for services furnished to other County departments and are financed primarily by these service charges. Because they are exempt from budgetary control, they are free to employ commercial accounting techniques, and are often used in situations where a more accurate determination of operating results is desired.

Employee Benefits Fund

This fund was established to account for workers' compensation and unemployment insurance. Specifically, for workers' compensation the fund includes: claims payment, the actuarial liability, insurance costs and contributions by various departments.

Facilities Management Fund

This fund was established to account for the financing of facilities maintenance, public service utilities, property management, project management, architectural and engineering services, real estate acquisition and leasing, and mail services provided to County departments on a cost reimbursement basis.

Fleet Services Fund

This fund was established to account for the maintenance, repair, fuel, and financing of Fleet vehicles provided to County departments on a cost reimbursement basis.

Information Technology Fund

This fund was established to account for telecommunications services provided to County departments on a cost reimbursement basis.

Public Liability Insurance Fund

This fund was established to account for all of the County's public liability claims and related expenses in compliance with the applicable provisions of the law.

Purchasing Fund

This fund was established to account for the procurement of services, materials, and supplies provided to County departments and provides record storage services; all on a cost reimbursement basis.

Road and Communication Equipment Fund

This fund was established to account for the financing of Public Works' road and communication equipment provided to the following funds: Road, Airport, and Inactive Wastesites; on a cost reimbursement basis.

Special District Loans Fund

This fund was established to provide financing for start up services for new and existing County Service Districts on a cost reimbursement basis.

FIDUCIARY FUNDS

Fiduciary funds include the activities of the San Diego County Employees Retirement Association, a fiduciary component unit of the County; and funds which account for resources that are held by the County as a trustee or custodian for outside parties and cannot be used to support the County's programs.

PENSION AND OTHER POSTEMPLOYMENT BENEFITS TRUST FUNDS

San Diego County Employees Retirement Association (SDCERA) Pension Trust Fund

The Pension Trust Fund is used to account for financial activities of the Pension Plan administered by SDCERA.

San Diego County Employees Retirement Association (SDCERA) Other Postemployment Benefits (OPEB) Trust Fund

The SDCERA OPEB Trust Fund is used to account for the financial activities of the OPEB trust for the purpose of holding and investing assets to fund the Retiree Health Program administered by SDCERA.

CUSTODIAL FUNDS

Property Tax Collection Funds

These funds are used for recording the collection and distribution of property taxes.

Other Custodial Funds

The Other Custodial funds account for the receipt, temporary investment, and remittance to individuals, private organizations, or other governments.

Statistical Section

Introduction

Government Accounting Standards Board (GASB) Statement No. 44, *Economic Condition Reporting: The Statistical Section (an amendment of NCGA Statement 1)* requires that certain detailed statistical information be presented in this section, typically in ten-year trends, to assist users in utilizing the basic financial statements, notes to the financial statements, and required supplementary information in order to assess the economic condition of the County. Provisions of this Statement require that governments preparing this statistical section are encouraged but not required, to report all years of information retroactively.

In this regard, when available, ten year trend information has been provided. When accounting data or other information is unavailable, statistical tables are footnoted to indicate as such. Generally, information was unavailable because non-accounting trend data called for by Statement No. 44 which was significantly different than data reported in previous fiscal years' statistical tables was either not available from external sources in the format required or was not available in internal archived data.

Financial Trends222

These Tables contain information to help the reader understand how the County’s financial performance and well-being have changed over time.

Revenue Capacity230

These Tables contain information to help the reader assess the County’s most significant local revenue source, the property tax.

Debt Capacity.....234

These Tables present information to help the reader assess the affordability of the County’s current levels of outstanding debt and the County’s ability to issue additional debt in the future.

Demographic and Economic Information238

These Tables offer demographic and economic indicators to help the reader understand the environment within which the County’s financial activities take place.

Operating Information240

These Tables contain service and infrastructure data to help the reader understand how the information in the County’s financial report relates to the services the County provides and the activities it performs.

Sources:

Unless otherwise noted, the information in the following tables is derived from the annual comprehensive financial reports for the relevant year.

(1) Due to the passage of Proposition 13 (Prop 13) in 1978, the County does not track the estimated actual value of real and personal properties; therefore, assessed value as a percentage of actual value is not applicable. Under Prop 13, property is assessed at the 1978 market value with an annual increase limited to the lesser of 2% or the CPI on properties not involved in a change of ownership or properties that did not undergo new construction. Newly acquired property is assessed at its new market value (usually the purchase price) and the value of any new construction is added to the existing base value.

(1) The \$1.00 per \$100 of Assessed Value (Proposition 13) tax rate beginning in Fiscal Year 1978-79 is distributed according to State Law on a percentage basis to each of the eligible taxing agencies in the County.

(2) Overlapping rates for cities, schools and special districts are chargeable to property owners within their respective tax rate areas (TRA). Overlapping rates do not apply to all property owners (e.g. the rates for special districts apply only to property owners whose property is located within the geographic boundary (TRA) of the special district.)

(3) Includes property tax revenue that is distributed in the Redevelopment Property Tax Trust Fund (RPTTF) starting fiscal year 2012 (Redevelopment Agencies' dissolution was February 1, 2012) to present. Prior to dissolution, property tax revenue was distributed to the redevelopment agencies.

(4) Includes property tax revenue that is distributed in the Educational Revenue Augmentation Fund (ERAF).
