Child and Family Strengthening Advisory Board

Child and Family Well-Being Work Group

A work group that uses a multi-level approach to identifying and removing systemic barriers in the community for children, youth, and families prior to and/or during involvement with our child welfare and juvenile justice systems. This multilevel approach includes *primary prevention* that is directed at the general population to prevent maltreatment before it occurs; *secondary prevention* that is targeted to individuals or families in which maltreatment is more likely; and *tertiary prevention* that is targeted toward families in which maltreatment has already occurred. This workgroup is responsible for a two-year action plan that includes goals, measurable outcomes, and a timeline that supports prevention and intervention efforts. The action plan includes a focus on racial and economic disparities, access to resources, equity, diversity, and inclusion and alignment with the Advisory Board's mission.
