Child and Family Strengthening Advisory Board

Child and Family Well-Being Work Group

A work group that uses a multi-level approach to identifying and removing systemic barriers in the community for children, youth, and families prior to and/or during involvement with our child welfare and juvenile justice systems. This multilevel approach includes *primary prevention* that is directed at the general population to prevent maltreatment before it occurs; *secondary prevention* that is targeted to individuals or families in which maltreatment is more likely; and *tertiary prevention* that is targeted toward families in which maltreatment has already occurred. This work group looks through the lens of prevention and intervention supports that children, youth, and families may need to live healthy, safe, and thriving lives. This workgroup will develop a two-year action plan that includes goals, measurable outcomes, and a timeline that supports prevention and intervention efforts. The action plan will include a focus on racial and economic disparities, access to resources, equity, diversity, and inclusion and alignment with the advisory board's mission.
