# PREVENT

## Mosquito Breeding

Mosquitoes lay their eggs  
in **standing water** :

# DUMP IT OUT!

**Birdbaths and  
Fountains**

**Potted plant  
saucers**

**Containers  
& buckets**

*Aedes* mosquito larvae can survive in very small amounts  
of water - even 1/4" is too much: **Dump it out!**

**Bromeliads\***

**Clogged  
Drains\***

**Rain Barrels\***

\*For water that is difficult to remove, treat  
monthly with a Bti larvicide like Mosquito Dunks  
or cover openings with mosquito proof screens!
