Jeffrey,

This application includes two previous applications - Tierra Del Sol Solar Farm (3600 12-005) and Rugged Solar Farm (3300 12-007). I don't believe we need research packet for those two areas. But I don't believe we have a research package for the two additional areas identified – LanWest and LanEast Solar Farms. If you can do a research package on the parcels for these two areas, I think that would be helpful. Those APN'sas listed in this application are:

658-090-31, 54, and 55, and  
658-120-02 and 03.

Thanks,  
Rob

Hi Robert,

Good morning! I just want to know if you need a research packet for EIR 3910 12005. Thank you!

Thank you,
