

Quarry Road Proposed Improvements Project Update

Proposed Project Overview

Quarry Road east of State Route 125 floods where it crosses over Spring Valley Creek following rain events, blocking access for pedestrians, vehicles and emergency responders. The County of San Diego Department of Public Works (DPW) explored various solutions and identified three concepts that have been shared with the community through online surveys, meetings, and presentations to the Spring Valley Community Planning Group. What follows is description of the Proposed Project and opportunities to provide input.

Proposed Improvements Plan

- An elevated bridge on a newly realigned roadway
- 4 access points to the Swap Meet
- The project will construct new sidewalks and Class II bike lanes to complete the corridor
- New facilities to capture and treat stormwater run-off to improve water quality for local streams and aquifers

Quarry Road Proposed Improvements

Environmental Review

To study the Proposed Project’s environmental impacts, an environmental review is being prepared. The review will include preparing several studies, including impacts to adjacent businesses and biological and cultural resources evaluations. The public environmental documents will disclose environmental impacts and mitigation and will be available for public review prior to the public hearing for project approvals.

For Information Contact: Jim Bolz, Project Manager at 619.756.4199 or James.Bolz@sdcounty.ca.gov

Community Input Opportunities

Community input is valued and encouraged through the following opportunities:

- Community Meeting on Wednesday, August 17 between 5 pm–7 pm
Spring Valley Community Center: 8735 Jamacha Blvd., Spring Valley, CA 91977
- Presentation(s) to the Spring Valley Community Planning Group with public comment
- DPW website inquiry form: sandiegocounty.gov/content/sdc/dpw/roads/Quarry_road.html
- Formal 30-day Public Review Period of the Mitigated Negative Declaration (MND)
- Public Hearing: Board of Supervisors considers approval of the project and adoption of the MND
