

# Waad taqaanaa waxa aad "samaynayso"

... si aad u hesho Cago Nadiif ah, Beer Nadiif ah, iyo Biyo Nadiif ah

In ka badan 70% mulkiileyaasha eeyga ee baadiyaha Ismaamulka San Diego ayaa samaynaaya shaqada saxda ah ayagoo aruuriya saxada ugu yaraan hal asbuuc kadibna ku rida qasaca qashinka.

Maamulka wanaagsan ee qashinka ayaa ilaalinaaya nadaafada fagaaga (iyo cagaha), sidoo kalena waxayn difaacaan tayada balida, harooyinka, iyo xeebaha.

Barnaamijka Difaaca Waraha Biyaha ee Isaamulka San Diego

Xogta la bixiyay waxaa lagasoo qaaday xog aruurin la sameeyay sanadkii 2011 oo lagu sameeyay mulkiileyaasha eeyda ee ku nool baadiyaha deegaannada aan maamulku joogin ee Isaamulka San Diego.

FEEBARAAYO 2022

**Inta badan Mulkiileyaasha Eeyda ee Ismaamulka ee San Diego ayaa "Sameeya" waxa Saxda ah Si ay Uga Guraan Saxarada Eeyga Gurigooda:**

- 1. Aruuri (ugu yaraan hal asbuuc),**
- 2. Bac ku shub, kadibna**
- 3. Ku rid qashinka.**

**Sidee ayaan U maamulayaa Wasaqda Eeyga ee Guriga Wayn? Maba Arki Karee!!**

Haka walwalin, wali waad qaadan kartaa doorkaaga! Ka aruuri wasaqda eeyga meelaha ay u badan tahay inay wasaqeeyaan biyaha. "Meelaha Saxarada laga fiirsho" ee guryaha waawayn waxaa kamid ah:

**Barta Saxarada #1** – Aagaga u dhow ilaha biyaha sida waraha, daadadka, harooyinka, iwm.

**Barta Saxarada #2** – Taagaga, reefannada, iyo kanaallada daadka.

**Barta Saxarada #3** – Meelaha u nugul in biyuhu ku qulqulaan marka roob da'o ama waraabka.

**Cago Nadiif ah – Beer Nadiif ah – iyo Biyo Nadiif ah**

Maaha keliya inay jirto khatarta **xasharadaad saxarada cunaaya** ama in lagu istaago, laakiin wasaqda eeyga ee taala fagaagaaga ama meelaha kale ee banaan ayaa sidoo kale keeni karta **sumaynta kanaallada biyaha ee deegaanka.**

Marka il kasta oo biyood uu gaaro saxarada eeyga, ee soo raacday biyaha daadka waxaa ka dhalanaaya bakteeriya, cayayaan iyo fayrasyo. Biyahaan wasaqaysan ayaa toos ugu dhacaaya balida, harooyinka, iyo badqaynta deegaanka kadibna keeni kara xanuuno ku dhaca aadanaha.

**Aruurinta Qashinka Eeyga ee Deegaannada Miyiga**

**Bac ku rid oo qashinka raaci?** Haa! Kani waa qaabka ugu fudud uguna badqabka badan.

**Xabaal?** Haa, laakiin si taxadar badan!! Meel qoto dheer ku aas, si joogto ah u badel godadka, kana fogee geedaha khudaarta, marinnada biyaha iyo afafka ceelka.

**Gub?** Maya! Inta badan qashinka lagu gubo guriga ma helo dab ku filan oo dili kara nooleyaasha cudurka keenaaya.

**Barnaamijka Difaaca Waraha Biyaha ee Ismaamulka San Diego**
