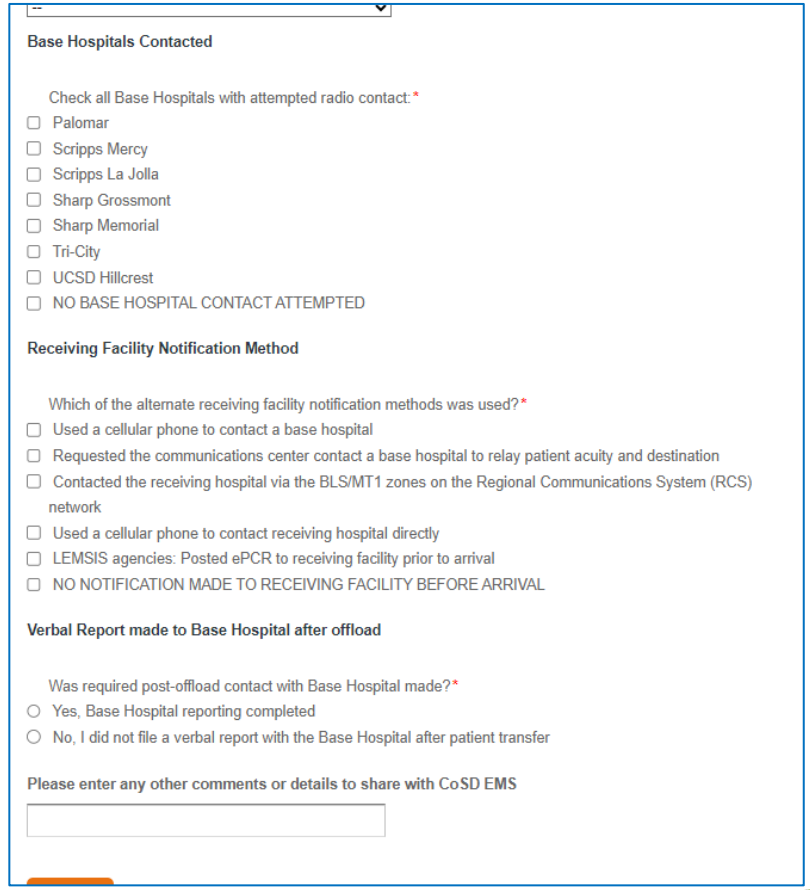
P-405 COMMUNICATIONS FAILURE

Review of P-405 Updates and P-405A Submission Data

SANDIEGOCOUNTYEMS.COM

P-405A COMMUNICATIONS FAILURE FORM

- On October 30, the form was updated to include the following:
  - Transport destination
  - Base hospitals contacted
  - Receiving facility notification method
  - Verbal report made to base hospital
  - Any other comments
- These additions were based on feedback from EMCC Prehospital/Hospital Subcommittee in September



Base Hospitals Contacted

Check all Base Hospitals with attempted radio contact:*

- ☐ Palomar
- ☐ Scripps Mercy
- ☐ Scripps La Jolla
- ☐ Sharp Grossmont
- ☐ Sharp Memorial
- ☐ Tri-City
- ☐ UCSD Hillcrest
- ☐ NO BASE HOSPITAL CONTACT ATTEMPTED

Receiving Facility Notification Method

Which of the alternate receiving facility notification methods was used?*

- ☐ Used a cellular phone to contact a base hospital
- ☐ Requested the communications center contact a base hospital to relay patient acuity and destination
- ☐ Contacted the receiving hospital via the BLS/MT1 zones on the Regional Communications System (RCS) network
- ☐ Used a cellular phone to contact receiving hospital directly
- ☐ LEMSIS agencies: Posted ePCR to receiving facility prior to arrival
- ☐ NO NOTIFICATION MADE TO RECEIVING FACILITY BEFORE ARRIVAL

Verbal Report made to Base Hospital after offload

Was required post-offload contact with Base Hospital made?*

- ○ Yes, Base Hospital reporting completed
- ○ No, I did not file a verbal report with the Base Hospital after patient transfer

Please enter any other comments or details to share with CoSD EMS
