

# Base Hospital Radio Update

[SANDIEGOCOUNTYEMS.COM](http://SANDIEGOCOUNTYEMS.COM)

# BACKGROUND/CURRENT ISSUES

- Current radio technology/consales increased downtimes and failure rates
- Outdated console technology (*Moducom*)
- Three separate consoles create real estate, maintenance, and repair challenges
- Difficult to obtain replacement parts
- Local recording challenges

# REPLACEMENT TECH

- Easy to use, more modern technology
- Motorola MCD 5000 Deskset System
- Ability to integrate with all 3 radios
  - RCS ALS
  - RCS BLS
  - City Radio
- Does not support current radio room alert lighting
- Working to determine best audio recording solution

# INTEGRATION PROCESS

- Roll out for new handset-style hardware will be based on triage of current console status
- Sharp Memorial Hospital radio will most likely be “pilot” BH for new handset
- RCS working on a job aid for MICNs.
  - Each hospital will receive 30-minute walk-through training.
