

CoSD LEMSIS Staff Positions in Licensing Portal and Corresponding Elite Permissions

CoSD LEMSIS Licensing Portal is integrated with Elite, so that positions set up on the Licensing Portal will be automatically assigned permissions in Elite. Below is a table of the available positions for each agency in the Licensing Portal, and the level of access the user will have in Elite.

Note: If one person is assigned to multiple roles, they will automatically be given the highest level of access of the assigned roles. For example, someone assigned to Primary Contact and Agency Supervisor will have access given to Agency Supervisors, since it is the highest level of access.

Licensing Portal				Elite
