Dr. Frank Guyette has spent more than 30 years in Emergency Medicine and EMS and has devoted his academic career to acute resuscitation research. He serves as the Medical Director for the nation's largest non-profit critical care transport group.

His areas of expertise are in the recognition of shock, prehospital resuscitation, and patient and provider safety. He has examined these issues with funding from the Department of Defense, National Institutes of Health, National Institute for Occupational Health and Safety, and NASA. He is the Co-Principal Investigator of the Linking Investigators in Trauma and Emergency Services (LITES) Network.
