Re: SchooLink Threshold Guidelines

SchooLink to Behavioral Health Services (SchooLink) is a partnership between the County of San Diego with community-based organizations and local school districts to provide County-funded behavioral health services. This memo details the background and process for implementing SchooLink thresholds at SchooLink sites in FY 2019/20.

What is SchooLink: https://theacademy.sdsu.edu/bheta-schoolink

- Dating back to late 1990's, the Health and Human Services Agency-Behavioral Health Services (County)
 partnered with school districts and community-based organizations to offer outpatient specialty mental
 health and later substance use disorder (SUD) treatment on school campuses that serve Medi-Cal and
 unfunded students.
- o In Fiscal Year 2018/2019, SchooLink was launched to implement standardized practices and increase collaboration between schools and providers for both mental health and SUD treatment programs.

Outcome Monitoring:

- In 2017, specialized Cerner Community Behavioral Health (CCBH) School Data Reports were created for mental health services delivered on school campuses.
- The School Data Reports allow SchooLink providers and the County to evaluate the number of clients served by providers at designated and non-designated schools.
- The data indicates that although over 400 schools are designated SchooLink sites, the majority have 3 or less students receiving SchooLink services. At 168 school sites, the program served only one student. This data, combined with school and provider input, informed the need to set minimum client thresholds to warrant the deployment of clinicians through SchooLink.
- The implementation of SchooLink thresholds is intended to be a collaborative process between schools/districts, SchooLink providers and the County.
- o Ultimately, the goal of setting thresholds is to ensure resources are optimally deployed so that students receive the services they need in a timely and efficient manner.

SchooLink Threshold Guide:

As we work collectively to optimize SchooLink services, initial thresholds have been identified for FY 2019/2020. FY 2019/2020 is expected to be a transition year, recognizing that not all sites will immediately meet the thresholds. Achieving the thresholds will require commitment and collaboration between SchooLink providers and their designated schools. The thresholds were developed based on a 36-week school year.

We appreciate all of the SchooLink feedback generated from the provider discussion at the May 9, 2019 Program Manager' meeting on the SchooLink forms and thresholds. The SchooLink training and standardized forms are being updated to reflect the suggested changes and will be available online by July 15, 2019. Please keep an eye out for the July SchooLink Spotlight which will highlight the changes for FY 2019/20.
