CYF Memo: # 03-16/17

To: CYF System of Care Providers

From: CYF Behavioral Health Program Coordinators

Re: **Age 0-5 BHA in CCBH**

The Children's System of Care (CSOC) Early Childhood Subcommittee, in partnership with Behavioral Health Services (BHS), devoted time to the evaluation and development of a Behavioral Health Assessment (BHA) for this specific population served within our system of care. This new 0-5 BHA became available in the Electronic Health Record on 3/29/17. There are a few 0-5 designated programs that will utilize the new 0-5 BHA exclusively via COR authorization. The 0-5 BHA is available to all programs via CCBH, however, it does require specialized training and dialogue with written direction from COR to be able to utilize.

If you have questions or concerns regarding the 0-5 BHA, or believe your program would benefit from having access to utilize this specialized BHA, please contact your Contracting Officer Representative (COR).

BHS Internal approved/required Program list

Required:

SD Unified Early Childhood-Incredible Years
Rady DEC
Rady KidSTART

Optional programs as reported by CORs (requires pre-approval):

ECS Para Las Familias
CASS
Incredible Families
