# TLS ENCRYPTION

- The County has established a secured email connection called Transport Layer Security (TLS) email encryption with approved business partner/legal entity.
- This means that all email sent between the County staff and the business partner/legal entity staff will automatically be encrypted in transit over the Internet.
- TLS email encryption works only between the County and the County approved business partner/legal entity.
- As a reminder, all emails that contain PHI information needs to be encrypted. If you are a County approved TLS business partner/legal entity and you are only sending the email to the County, the email will automatically be encrypted in transit to the County.
- If you would like to verify that your agency is on the County approved TLS list or if you would like to be added as an approved TLS business partner/legal entity, please send us an email or fax. Our new e-fax number is 858-999-8921.
