

Strengths-Based Case Management Programs

Strengths-Based Case Management services support participants who are managing ongoing mental health conditions by coordinating resources to help people achieve their recovery goals. In-person services are most often delivered in the community at the person's preferred location, although in-office appointments are available as needed.

Services Offered

Depending on the need, services may include:

- Symptom management
- Care coordination with community supports and other healthcare providers
- Connection to medication management
- Life skills training
- Assistance with basic needs including food, clothing, shelter, and medical care
- Educational and vocational planning
- Connection to other resources as needed (including benefit access, legal, recreational, and social support including community-based spiritual supports)
- Assistance with housing (including board and care and transitional housing)

Who is Eligible?

Participants must be ages 18+ with a long-term mental health or co-occurring substance use condition and currently within the San Diego County Behavioral Health System.
