

Add/Remove SchoolLink or Change Provider Organizations

Requests to add, remove or change behavioral health provider organizations can be initiated by a school district or provider organization and are approved by the County of San Diego's Behavioral Health Services' Children, Youth & Family Administration (County).

School districts have the authority to dismiss a provider from a school at any time; however, a replacement provider is not guaranteed.

To Add a School:

1. The school district submits a written request to the county monitor to add services at a school site.
 - The request must include data detailing the percentage of the school eligible for Medi-Cal or free and reduced lunch.
 - It is common, but not required, that the district connects with a provider they would like to work with about their capacity to add a school and includes this information in their request.
2. The County reviews the request and makes a determination based on:
 - Total school enrollment
 - Medi-Cal and free/reduced lunch population
 - Student, parent and community demographics and needs, such as primary language
 - Number of students likely to meet SchoolLink eligibility criteria
 - Availability of confidential therapy space
 - Program funding and provider/system capacity to add another school
3. If the County approves the request, they will assign a provider organization.

4. The school district and the provider organization execute a Memorandum of Understanding (MOU) authorizing the provider organization to provide services on their school campus(es).
5. The school district, school staff and provider hold an initial Annual SchoolLink Meeting to discuss process and plan the initiation of services.
6. The school district and the provider establish a memorandum of understanding.

To Remove a School:

1. The school district, provider organization, or County may suggest that SchoolLink services are no longer necessary at a school site and communicates this concern to all parties.
2. The County leads all parties in a dialog to clarify the rationale for removing services and determine the course of action.
3. The County and the provider organization will discuss the impact of the change on their contract and identify necessary next steps.

To Change a Provider Organization:

1. If a school has issues with their provider or provider organization, they should first reach out to the provider organization's leadership to discuss their concerns. School leadership can ask their district's point person for behavioral health services for assistance with this discussion if needed.
 - If a provider has issues with their school, they should first reach out to the school leadership to discuss their concerns.
2. If the concerns cannot be resolved between the two parties directly, the provider and school leadership should contact the school district's point person for behavioral health services who can contact the county monitor, on behalf of the school district, to request a change in provider.
3. The County will:
 - Review the rationale and barriers to continue services at the school and/or with the current provider;
 - Determine whether a change is warranted and if so, assign a new provider.

Who is my county monitor?

For a list of county monitors and their contact information, by school, go to Section 3.3 on:

[The Technical Resource Library on the Behavioral Health Services website](#)

Key Terms

Behavioral health services: A continuum of prevention, intervention, treatment and recovery support services for mental health and substance use.

County-funded: Services funded through the County of San Diego’s Health & Human Services Agency’s Behavioral Health Services Division.

Provider: Unless otherwise specified, a County-funded behavioral health provider.

Administrative Information

For administrative information or to provide feedback about the SchoolLink training program, please email BHSContactUs.HHSA@sdcounty.ca.gov with subject line: SchoolLink or call 619-563-2700 and ask to speak with the Deputy Director of Behavioral Health Services for Children, Youth, and Families.
