

## What is Schoolink?

Schoolink is a partnership between the County of San Diego and local school districts to provide behavioral health services at schools. This Schoolink training program provides an overview of Schoolink, template forms, best practices for linking students to behavioral healthcare services, and additional resources.

There are many campus and community-based behavioral health resources, but many students, parents and school personnel don't know they exist or how to access them.

To help solve this challenge, a team from the County of San Diego, San Diego Unified School District, Community Research Foundation and Price Philanthropies developed this Schoolink training for providers and school staff.

**It shares successful strategies for linking students to behavioral health services and provides resources** to help school staff and providers better understand:

- Available services
- Referral processes
- School staff and provider roles and responsibilities
- Best practices for outreach & communication

Visit the [Behavioral Health Services \(BHS\) Schoolink website](#) to access Schoolink training modules or just click on a specific topic area. You'll also find helpful reference materials, like standardized referral forms, sample meeting agendas and more.
