

HHSA NURSING PROFESSIONAL PRACTICE MODEL

The County of San Diego's nurses are committed to *Building Healthy, Safe and Thriving Communities*. We abide by the following principles that form the *Live Well San Diego Professional Practice Model for Nursing*

Person-centered Care

Our decisions and actions are driven by the health needs of individuals, families and the community.

Leadership

We believe leadership is a professional responsibility shared by all nurses.

Practice Excellence

We believe nursing practice encompasses both science and art. At the core of our practice is the desire to help others through service excellence.

Collective Synergy

We coordinate care through interprofessional collaboration and engage our community partners through mutual goals.

Equity, Diversity, and Inclusivity

We believe access to health care is a human right and we strive to eliminate health and social inequities.
