

POVERTY

in San Diego County

More than **1** in **10 San Diegans** were living in poverty in 2022.

More than 2 in 5
households spent
> 30% of their
household income on
housing in 2021*.

Nearly **1 in 7 children** under 18
were living in poverty
in 2021*.

*2022 data coming soon.

Poverty is an important social determinant of health (SDOH) because it frequently interacts with various other SDOH which, together, influence health behaviors and outcomes. Communities with high rates of poverty have higher rates of morbidity and mortality. These health inequities increase as poverty rates increase.
