MAP ATLAS

Assault/Homicide
San Diego County, 2020

APRIL 2023

County of San Diego | Health and Human Services Agency | Public Health Services | Community Health Statistics Unit

Data Sources - San Diego County, 2020

Death* is based on underlying cause of death among San Diego County residents. Rates calculated per 100,000 residents. Rates not calculated for < 11 cases. Maps not produced for conditions/outcomes with no SRA-level rates. Some sections may have no maps.
Sources: California Department of Public Health, Center for Health Statistics, Office of Health Information and Research, Vital Records Business Intelligence System (VRBIS), 2020. ***The COVID-19 pandemic was associated with increases in all-cause mortality. COVID-19 deaths have affected the patterns of mortality including age-adjusted measures.*** SANDAG: San Diego Association of Governments (SANDAG) Population Estimates, 2020 (v09/2022). ***Population estimates for 2020 were derived using the 2010 Census and data should be considered preliminary.***
*For substance/drug overdoses, death rate is based on the multiple/contributing cause of death among San Diego County residents.

Hospitalization refers to treatment at a general acute care facility in San Diego County. Rates calculated per 100,000 residents. Rates not calculated for < 11 cases. Maps not produced for conditions/outcomes with no SRA-level rates. Some sections may have no maps.
Sources: California Department of Health Care Access and Information (HCAI), Patient Discharge Database, 2020. San Diego Association of Governments (SANDAG) Population Estimates, 2020 (v09/2022). ***Population estimates for 2020 were derived using the 2010 Census and data should be considered preliminary.***

Emergency Department (ED) Discharge refers to treatment at an ED facility in San Diego County.
Rates calculated per 100,000 residents. Rates not calculated for < 11 cases. Maps not produced for conditions/outcomes with no SRA-level rates. Some sections may have no maps.
Sources: California Department of Health Care Access and Information (HCAI), Emergency Department Discharge Database, 2020. San Diego Association of Governments (SANDAG) Population Estimates, 2020 (v09/2022). ***Population estimates for 2020 were derived using the 2010 Census and data should be considered preliminary.***

In-Patient Treatment (IPT) refers to treatment at a psychiatric care or chemical rehabilitation facility in San Diego County. Rates calculated per 100,000 residents. Rates not calculated for < 11 cases. Maps not produced for conditions/outcomes with no SRA-level rates. Some sections may have no maps.
Sources: California Department of Health Care Access and Information (HCAI), Patient Discharge Database, 2020. San Diego Association of Governments (SANDAG) Population Estimates, 2020 (v09/2022). ***Population estimates for 2020 were derived using the 2010 Census and data should be considered preliminary.***
