PUBLIC HEALTH OFFICER

ORDER OF THE HEALTH OFFICER

(Locally Reportable Diseases and Conditions for Providers and Laboratories)

Public Health Services department, of the County of San Diego Health and Human Services Agency, is updating the existing list of locally reportable diseases to include Chagas disease. More information regarding Chagas is available from the Centers for Disease Control and Prevention found here: <https://www.cdc.gov/parasites/chagas/index.html>.

California Code of Regulations, Title 17, Sections 2500 and 2505 requires the reporting of designated diseases and conditions by health care providers¹ and laboratories.² Pursuant to these sections of the California Code of Regulations and California Health and Safety Code section 120175, the Health Officer **ORDERS** the additional reporting of the following diseases and conditions in San Diego County:

Disease or Condition	Reporting Date
Chagas Disease (<i>Trypanosoma cruzi</i> infection)	Within 7 business days
<i>Bartonella quintana</i>	Within 7 business days
<i>Clostridium sordellii</i>	Within 7 business days
Necrotizing fasciitis	Within 7 business days
Vaping-associated pulmonary injury (VAPI) , also known as e-cigarette, or vaping, product use associated lung injury (EVALI)	Within 7 business days

Reports shall be submitted on the following form:

<https://www.sandiegocounty.gov/hhsa/programs/phs/documents/CMRa.pdf>

This Health Officer Order shall remain in effect unless amended or rescinded by the Health Officer.

IT IS SO ORDERED.

Dated: April 10, 2024

Wilma J. Wooten, M.D., M.P.H.
Public Health Officer
