

MEASLES OUTBREAKS STILL HAPPEN!

In 2014, there was a measles outbreak in Anaheim, CA with 125 people who got sick. Most of them were children.

Most people who got sick were not vaccinated.

The MMR (measles, mumps, & rubella) vaccine is **97% effective**, after two doses, in preventing measles. It provides protection against mumps and rubella too.

Don't let measles dull the fun,
get your child vaccinated today!
