HIV Data

Key Features of San Diego County's HIV Epidemic

2023

15,080

of people living with diagnosed HIV

425

of new HIV diagnoses

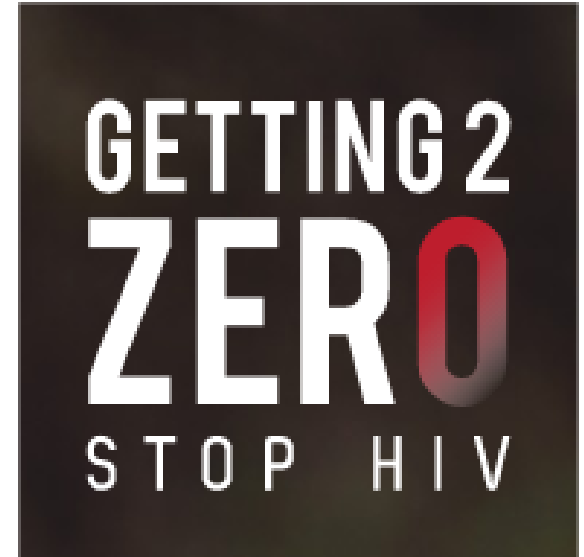

Race/Ethnicity	County of San Diego Population	County Recent HIV Diagnosis
Black	Less than 5%	12%
Hispanic	34%	48%

- This funding represents an opportunity to promote equity in San Diego County by addressing the disproportionate impact of HIV on our Black and Hispanic communities.

Getting To Zero Initiative

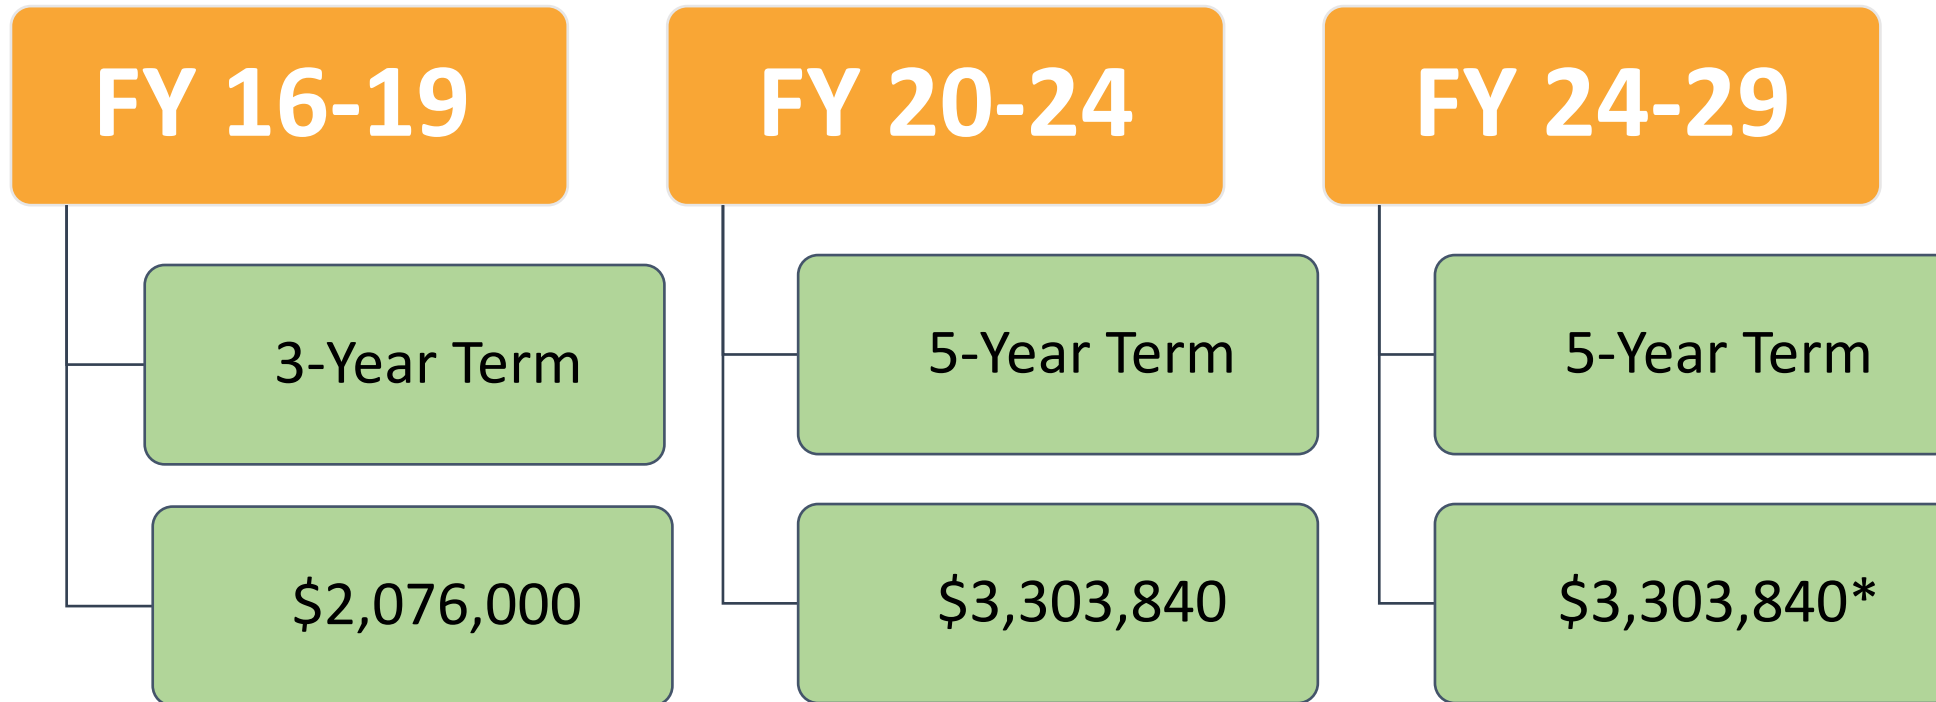

- San Diego County Board of Supervisors approved on 3/1/2026
- Comprehensive and ambitious plan to end the HIV epidemic
- Five core strategies:
 1. Test
 2. Treat
 3. Prevent
 4. Engage
 5. Improve

The California Department of Public Health's HIV surveillance grant supports the Getting to Zero initiative by enabling ongoing surveillance activities to improve the treatment and health of persons with HIV in San Diego County

STATE GRANT FUNDING BY TERM

* - Approximate amount pending official notice of award

Recommendations

Waive Board Policy B-29, Fees, Grants, Revenue Contracts – Department Responsibility for Cost Recovery, which requires prior approval of revenue agreement applications and full-cost recovery of grants.

Authorize the acceptance of approximately \$3.3 million in *HIV Surveillance Program funding for Health Departments* grant funds from the California Department of Public Health for the period of July 1, 2024, to June 30, 2029, for HIV services related to prevention.

Authorize the Agency Director, Health and Human Services Agency to apply for any additional funding opportunity announcements to address the prevention, testing, care and treatment needs of those impacted by HIV.

The EISB HIV Epidemiology and Surveillance Program asks for HSAB approval to move forward with this Board Letter action which would allow continuation of the acceptance of HIV surveillance funding from the state.
