ITEM #6: INTER-COUNTY TRANSFERS (ICTs)

Adriana Ramirez, Deputy Director, Self-Sufficiency Services Health and Human Services Agency (HHSA)

An ICT is a transfer of the customer's benefits from one California County to another without a break in aid.

- Occurs when a customer reports to have permanently moved from one county to another within the state.
- Customers can report changes in residency to their previous county or the new county of residence.
- Customers will continue to receive benefits from their previous county of residency until the new county is ready to pick up their benefits.

When a customer visits an FRC reporting they have moved to San Diego County from another county, the following steps are taken:

- ICT will be initiated electronically.
- Upon receipt of necessary documents, benefits will be activated in San Diego the month after discontinuance in the previous county ensuring there is no break in benefits.

When a customer calls the Access call center and reports they have moved to San Diego County, the following steps are taken:

- ICT will be initiated electronically.
- ICT will be assigned to the FRC for processing.

ICTs received through Hospital and Community Support Services (HCSS) are addressed as follows:

- Medi-Cal applications for patients in a San Diego hospital who reside outside of San Diego County and have an emergency are processed by San Diego County staff and approved, if eligible and not already active.
- An ICT is then initiated to the patient's county of residency. Customers requesting additional programs will be referred to their county of residency to apply.
- For non-urgent situations, hospitals submit the Medi-Cal application directly to the patients' home county via <u>BenefitsCal</u>.

When a customer reports they have moved out of San Diego County to another California County, staff take the following steps:

- An outgoing ICT will be initiated electronically.
- San Diego County will maintain benefits until the new county is ready to pick up the ICT.

San Diego County will work closely with the previous or new county of residence to ensure there is no break in aid for the customer during the process

- ICTs are monitored using daily reports.
- If no response is received from the other county within 10-days, San Diego will reach out to the other county through ICT coordinators to follow up.
