Important Notice from the County of San Diego About New Health Insurance Coverage Options through Covered California and Your Health Coverage

PART A: General Information

When key parts of the health care law took effect in 2014, a new way to buy health insurance began: the Health Insurance Marketplace known as Covered California. To assist you as you evaluate options for you and your family, this notice provides some basic information about Covered California and employment-based health coverage offered by your employer.

What is the Health Insurance Marketplace, Covered California?

Covered California is designed to help you find health insurance that meets your needs and fits your budget. Covered California offers "one-stop shopping" to find and compare private health insurance options. While some may be eligible for a tax credit that lowers your monthly premium right away, if you are eligible for benefits through the County, you will most likely not qualify for a subsidy. Open enrollment for health insurance coverage through Covered California begins in November for coverage starting as early as January 1, 2024.

Can I Save Money on my Health Insurance Premiums in Covered California?

You may qualify to save money and lower your monthly premium, but only if the County does not offer coverage, or offers coverage that doesn't meet certain standards. ***The coverage that the County currently offers is intended to meet these standards.***

Does Employer Health Coverage Affect Eligibility for Premium Savings through Covered California?

Yes. If you are eligible for County benefits, you most likely have an offer of health coverage that meets certain standards. You will most likely not be eligible for a tax credit through Covered California and may wish to enroll in the County's health plan. Individuals that are not eligible to participate in County sponsored plans may be eligible for a subsidy if your household income falls between 100% and 400% of the [federal poverty level](#). Final eligibility for federal subsidies will be made by Covered California. You should refer to the online tools posted on Covered California's website to see if you may be eligible for a federal subsidy.¹

¹ An employer-sponsored health plan meets the "minimum value standard" if the plan's share of the total allowed benefit costs covered by the plan is no less than 60 percent of such costs.
