The creation of this document required a great deal of drive and effort, and the County would like to pay tribute to the many volunteers that participated. Special thanks goes to those that contributed many hours working with Community Planning or Sponsor Groups, or as members or contributors to various trail subcommittees working on behalf of their communities. Members of the County Board of Supervisors also receive our gratitude for their recognition of the importance of trails and contributions they have each made toward implementing a countywide vision for trails.
