b. Chairman's report (no action), Billie Jo Jannen: Our ability to be indemnified is at risk so long as members fail to complete the required training. We all need to complete the state's ethics training. FPPC requires this every other year and we are all overdue. The training link is here: <https://localethics.fppc.ca.gov/login.aspx>. It asks you to create an account, and then will present the material and section quizzes. When you are done, it gives you a completion certificate to send/bring to me.

ALSO, please pay particular attention to **item d** in correspondence. This bill is a very ominous development for rural communities. I imagine we will shortly see a tidal wave of wind and solar applications taking advantage of the easier process.

9. CORRESPONDENCE: Members of the public who wish to read the correspondence listed may request it by email at campoplanninggroup@nym.hush.com.

a. July 22, 2022 agenda for SDC Traffic Advisory Committee. Nothing in our area. **Forwarded to group.**

b. Regional Decarbonization Framework notice of July 26 virtual public meeting, to provide a summary of the first phase of the project/outreach effort and to share the outreach plan for the next phase of the framework process: identifying implementation pathways.

Forwarded to group.

c. Letter from Dollar General neighbor Larry Johnson, with detailed vicinity map, in opposition to the requested beer and wine license. Forwarded to group.

d. Notification from Boulevard CPG about the new state law on permitting of renewables. AB-205 would place permitting for a solar photovoltaic, terrestrial wind and electrical generation powerplant over 50 MW in the hands of a state agency. Local agencies

may be allowed to comment on the application and environmental work, but the lead agency will be the **State Energy Resources Conservation and Development Commission**. The agency will also be in charge of permitting any energy storage system capable of storing 200 megawatt-hours or more of electricity and electric transmission lines to connect them to the grid. **Forwarded to group.**
