Dear Planning Commissioners,

Thank you for this opportunity to provide comments on the San Diego County Climate Action Plan. Please adopt one of the alternative smart growth plans called the Fire Safe and VMT Efficient Alternative as the primary plan. The plan would: restrict development in the high and very high wildfire zones, reduce Greenhouse Gas emissions, lower air pollution, reduce traffic, and preserve wildlands and endangered species.

Mark Warren

I live in Tierrasanta in San Diego in a housing complex built out nearly 50 years ago. On June 20, 2024 about 5 p.m., I was outdoors at a friend's house. I heard sirens, then saw a red-striped helicopter flying overhead. The following day, I learned that there had been a canyon wildfire, probably doused in part by the helicopter. We were lucky--the fire was extinguished before it reached houses. Building more housing in fire-prone areas is asking for trouble. Please adopt a fire-safe plan.

Ruth Wallen

Location: 92104, SAN DIEGO
Submitted At: 1:31pm 07-23-24

Dear Planning Commissioners,
Please adopt one of the alternative smart growth plans called the Fire Safe and VMT Efficient Alternative as the primary plan. It is important to take the climate and extinction crises seriously and restrict development in the high and very high wildfire zones. Furthermore this plan would reduce greenhouse gas emissions, lower air pollution, and preserve wildlands and endangered species, which is particularly important given our high numbers of threatened species.

John Evey

Location: 92130, San Diego
Submitted At: 11:55am 07-23-24

Thank you, planning commissioners, for your service to all of us in San Diego County, and for the opportunity to comment on the San Diego County Climate Action Plan. My wife and I urge you to adopt the Fire Safe and VMT Efficient Alternative, since that plan is the one that makes logical sense in this rapidly changing climate. There is no option to react later. It is past time to be proactive. Yesterday was, according to Europe's top climate monitor, Earth's hottest day since the last Ice age.

Submitted At: 5:21pm 07-22-24

The city needs to cut all brown weeds, shrubs on North Santa Fe Ave & Route 76, the County Park, and anywhere overgrowth of vegetation exists!! This should be done at the end of every Spring. Cut where road medians are that are brown, neglected, fine any owners who don't attend to their properties outside. Cut weeds, green, evergreen trees to a manageable height despite existing HOA rules that says owners can grow to ANY height. It is too dangerous and risky!

Submitted At: 3:22pm 07-22-24

Dear Planning Commissioners,

As a San Diego County resident, I urge you to please adopt the Fire Safe and VMT Efficient Alternative as the primary plan. The plan would 1) restrict development in the high and very high wildfire zones, 2) reduce Greenhouse Gas (GHG) emissions, 3) lower air pollution, 4) reduce traffic, and 5) preserve open space and endangered species.

Thank you,
GT Wharton

Dear Planning Commissioners,
The Sierra Club, Endangered Habitats League, Climate Action Campaign, SD350, Surfrider, Audubon, Climate Reality Project, SD Coastkeeper, Environmental Center of San Diego, North County Climate Change Alliance, and many more support the FIRE SAFE AND VMT EFFICIENT ALTERNATIVE. Restrict growth to existing infrastructure, save our wildlands and endangered species.

Diana Weber

My family are survivors of the 2003 Cedar Fires, an early warning of the magnitude of climate change caused by the increasing production in greenhouse gases from the exploitation and burning of fossil fuels. We need to do everything in our power to reduce and hopefully reverse this trend. That's why I advocate that you adopt the Fire Safe and VMT Efficient Alternative to the CAP Update. It offers our County a way forward in by concentrating growth closer to existing infrastructure.

Roni Breite

Location: 92119, San Diego
Submitted At: 11:13am 07-22-24

Please adopt the Fire Safe and VMT Efficient Alternative, which would restrict development in the high and very high wildfire zones, reduce Greenhouse Gas emissions, lower air pollution, reduce traffic, and preserve wildlands and endangered species.
It's safest for the future of San Diego in multiple ways.
Thank you.

Michael Gardner

Location: 91977, Spring Valley
Submitted At: 8:18am 07-22-24

Dear Planning Commissioners,

The most important is for the county to adopt one of the alternative smart growth plans called the Fire Safe and VMT Efficient Alternative as their primary plan. This alternative would: restrict development in the high and very high wildfire zones, decrease traffic, and preserve wildlands and endangered species.

The Climate Action Plan should not permit out of county carbon offsets by developers.

Maida Soghikian

Submitted At: 7:37am 07-22-24

Thank you for offering the public this chance to provide comments on the San Diego County Climate Action Plan. Please vote for the Fire Safe and VMT Efficient Alternative, which would:

- 1) restrict development in the high and very high wildfire zones,
- 2) reduce Greenhouse Gas emissions,
- 3) lower air pollution,
- 4) decrease traffic and lower Vehicle Miles Traveled (VMT), and
- 5) preserve wildlands and endangered species.

The future will thank you, too.
