Dear Ms. Smith,

When we moved to San Diego County 11 years ago, we were delighted to discover the community of Hidden Meadows. Each house was custom built for the lot; no cookie cutter, close together development homes. It was rural, and it was quiet. We have loved it here!

However a few years ago we were threatened by a huge development called Merriam Mountain planned for the 15 and Deer Springs area. We were absolutely against this threat to our quiet way of life. Fortunately the County Supervisors voted it down. I don't understand how another company is even allowed to plan on doing the exact same thing that was already denied. The Supervisors voted against developing this area of natural beauty.

We are against this assault to our neighborhood. Please take the feelings of the people who will be most negatively affected by this into consideration.

Cheryl and Bill Boersma
