Letter
I81

The Executive Summary of the County CAP plan states, "Throughout California, communities are addressing *weather* changes and its potential impacts by developing Climate Action Plans (CAPs)." I believe the plan should fully support in fact and intention the reality of *climate* change.

Thank you,

I81-1

The comment states the CAP should support the reality of climate change. The County acknowledges this comment. This comment does not address the adequacy of the Draft SEIR and no further response is required. However, the comment will be included in the Final EIR and made available to the decision makers prior to a final decision on the project.
