Dear Susan Harris and Staff:

I formally oppose Terra-Gen’s Boulder Brush Facilities, Campo Wind and Torrey Wind projects proposed for the Boulevard / Campo Reservation due to the significant adverse and disproportionate impacts to people, quality of life and economic well being, public health and safety, community character, wildlife, pets, visual, biological, cultural, groundwater, and other resources and sensitive receptors.

I17-1

I am especially concerned about the fires that could break out due to these projects, the danger to the public along with the danger to firefighters on the ground as well as in the air - helicopters tangling in the wires, miscommunications due to electromagnetic interference and related dangers to law enforcement including CHP helicopters patrolling Interstate 8.

I17-2

Once this beautiful terrain is torn up and built upon, it will be many decades, if ever, that this land can return to its present state. If the Campo Indian Reservation fails to renew its lease [EMPHASIS ADDED]with the Lessee, Lessee declares Bankruptcy or other litigation breaks out, the Community of Boulevard and the Campo Reservation will be left with a hazardous, dangerous and ugly situation.

I17-3

***Respectfully submitted,
Barbara G Kennerly
