PETITION AGAINST THE CAMPO WIND PROJECT

Stop the construction of the Campo Wind Project on the Campo Indian Reservation!

We the members of the Campo Band of Mission Indians are against the future construction of any Wind Turbine Project and any company wishing to build a Wind Turbine Project on the Campo Indian Reservation.

T1-2

We firmly believe the Campo Executive Committee held an illegal vote April 2018 at the one time informational meeting to pursue a land lease with Terra-Gen LLC for a large industrial wind turbine project that encompasses most of our tribal lands and will impact the tribal homes and residences.

T1-3

We firmly believe the wind turbines will devalue our property while limiting the number of future new homes on our reservation and to those who do not wish to live amongst or within eyesight of these wind turbines.

T1-4

We firmly believe the wind turbines will create certain serious health problems to our current tribal members and future generations. They will ruin our beautiful landscapes that we enjoy and create hostility amongst the tribal and the surrounding non tribal community.

T1-5  
T1-6

We firmly believe no amount of income from any wind turbine project is worth the substantial losses it will create for our future generations.

T1-7

Please respect my right as a Campo Band member to be heard in protest, my signature on this petition represents my stance against the Campo Wind Project that we had no say in.

T1-8

In accordance with the Constitution of the Campo Band of Mission Indians, Article VI, Section 2 (A) & (B), 20% of 319 is 64 members need to sign this to be a valid petition.
