

**Response to Comment Letter I98**

**Preston Hoyt**

- I98-1** The commenter states “I’ll keep it quick in hopes you actually read this one. This solar project failed Fish & Game requirements out the gate. Welp, that about sums it up. Good luck with that.” In response, please refer to Section 2.3, Biological Resources, of the EIR for an analysis of the Proposed Project’s potential impacts to biological resources. The comment does not raise an issue regarding the adequacy of the analysis contained within the Draft EIR; therefore, no further response is required.
