MITIGATED NEGATIVE DECLARATION

PROJECT NAME: Good Shepherd Cemetery

RECORD ID: PDS2020-MUP-20-004; PDS2020-CC-20-0030

ENVIRONMENTAL LOG NO.: PDS2020-ER-20-08-006

**This Document is Considered Draft Until it is Adopted by the Appropriate
County of San Diego Decision-Making Body.**

This Mitigated Negative Declaration is comprised of this form along with the Environmental Initial Study that includes the following:

- a. Initial Study and Environmental Analysis Form
 - b. Attached extended studies prepared for the Project
 - c. Multiple Species Conservation Plan Findings of Conformance
1. California Environmental Quality Act Negative Declaration Findings:

Find, that this Mitigated Negative Declaration reflects the decision-making body's independent judgment and analysis, and; that the decision-making body has reviewed and considered the information contained in this Mitigated Negative Declaration and the comments received during the public review period; and that revisions in the project plans or proposals made by or agreed to by the project applicant would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur; and, on the basis of the whole record before the decision-making body (including this Mitigated Negative Declaration) that there is no substantial evidence that the project as revised will have a significant effect on the environment.

2. Required Mitigation Measures:

Please refer to the attached Environmental Initial Study for the rational for requiring of the following measures:

CULT#X - ARCHAEOLOGICAL AND TRIBAL MONITORING (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to mitigate for potential impacts to undiscovered buried archaeological resources and human remains, an Archaeological and Tribal Monitoring Program and potential Data Recovery Program shall be implemented pursuant to the County of San Diego Guidelines for Determining Significance for Cultural Resources and the California Environmental Quality Act (CEQA). **DESCRIPTION OF REQUIREMENT:** A County Approved Principal Investigator (PI) known as the "Project Archaeologist," shall be contracted to perform archaeological monitoring and a potential data recovery program during all grading, clearing, grubbing, trenching, and construction activities. The archaeological monitoring program shall include the following:

- a. The Project Archaeologist shall perform the monitoring duties before, during and after construction pursuant to the most current version of the County of San Diego Guidelines for Determining Significance and Report Format and Requirements for Cultural Resources. The Project Archaeologist and Luiseño Native American monitor shall also evaluate fill soils to determine that they are clean of cultural resources. The contract or letter of acceptance provided to the County shall include an agreement that the archaeological monitoring will be completed, and a Memorandum of Understanding (MOU) between the Project Archaeologist and the County of San Diego shall be executed. The contract or letter of acceptance shall include a cost estimate for the monitoring work and reporting.
- b. The Project Archeologist shall provide evidence that a Luiseño Native American has been contracted to perform Native American Monitoring for the project.
- c. The cost of the monitoring shall be added to the grading bonds or bonded separately.

DOCUMENTATION: The applicant shall provide a copy of the Archaeological Monitoring Contract or letter of acceptance, cost estimate, and MOU to [PDS, PPD]. Additionally, the cost amount of the monitoring work shall be added to the grading bond cost estimate.

TIMING: Prior to approval of any grading and or improvement plans and issuance of any Grading or Construction Permits. Prior to approval of any Landscape Plan.

MONITORING: [PDS, PPD] shall review the contract or letter of acceptance, MOU and cost estimate or separate bonds for compliance with this condition. The cost estimate should be forwarded to [PDS, PPD] for inclusion in the grading bond cost estimate, and grading bonds and the grading monitoring requirement shall be made a condition of the issuance of the grading or construction permit.

CULT#X - CULTURAL RESOURCES TREATMENT AGREEMENT AND PRESERVATION PLAN (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to mitigate for impacts to Traditional Cultural Properties, develop and enter into a Cultural Resources Treatment Agreement and Preservation Plan with a culturally-affiliated consulting Tribe. **DESCRIPTION OF REQUIREMENT:** A single

Cultural Resources Treatment Agreement and Preservation Plan shall be developed between the applicant or their representative, and a culturally-affiliated consulting Tribe. The Cultural Resources Treatment Agreement and Preservation Plan shall be reviewed and agreed to by the County prior to final signature and authorization. The Cultural Resources Treatment Agreement and Preservation Plan shall include but is not limited to the following:

- a. Parties entering into the agreement and contact information.
- b. Responsibilities of the Property Owner or their representative, Principal Investigator, archaeological monitors, Luiseño Native American monitors, County, and consulting tribes.
- c. Requirements of the Archaeological Monitoring Program including unanticipated discoveries. The requirements shall address grading and grubbing requirements including controlled grading and controlled vegetation removal in areas of cultural sensitivity, analysis of identified cultural materials, and onsite storage of cultural materials.
- d. Excavated soils. No soils are proposed for export. Consultation with the culturally-affiliated tribes shall occur should excavated soils need to be exported offsite.
- e. Treatment of identified Native American cultural materials.
- f. Treatment of Native American human remains and associated grave goods.
- g. Confidentiality of cultural information including location and data.
- h. Regulations that apply to cultural resources that have been identified or may be identified during project construction.

Note: The Treatment Agreement and Preservation Plan cannot conflict with regulations that apply to the project.

DOCUMENTATION: A copy of the implemented agreement shall be submitted to the [PDS, PPD] for approval. **TIMING:** Prior to approval of any grading and or improvement plans and issuance of any Grading or Construction Permits. Prior to approval of any Landscape Plan. **MONITORING:** The [PDS, PPD] shall review the implemented agreement for compliance this condition.

CULT#X - CULTURAL RESOURCES MONITORING REPORT (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to ensure that the Archaeological Monitoring occurred during the earth-disturbing activities, a final report shall be prepared. **DESCRIPTION OF REQUIREMENT:** A final Archaeological Monitoring and Data Recovery Report that documents the results, analysis, and conclusions of all phases of the Archaeological Monitoring Program shall be prepared. The report shall include the following items:

- a. DPR Primary and Archaeological Site forms.

- b. Daily Monitoring Logs
- c. Evidence that all cultural materials collected during the survey, testing, and archaeological monitoring program have been conveyed as follows:

(1) All prehistoric cultural materials shall be curated at a San Diego curation facility or a culturally affiliated Tribal curation facility that meets federal standards per 36 CFR Part 79, and, therefore, would be professionally curated and made available to other archaeologists/researchers for further study. The collections and associated records, including title, shall be transferred to the San Diego curation facility or culturally affiliated Tribal curation facility and shall be accompanied by payment of the fees necessary for permanent curation. Evidence shall be in the form of a letter from the curation facility stating that the prehistoric archaeological materials have been received and that all fees have been paid.

or

Evidence that all prehistoric materials collected during the archaeological monitoring program have been returned to a Native American group of appropriate tribal affinity. Evidence shall be in the form of a letter from the Native American tribe to whom the cultural resources have been repatriated identifying that the archaeological materials have been received.

(2) Historic materials shall be curated at a San Diego curation facility as described above and shall not be curated at a Tribal curation facility or repatriated. The collections and associated records, including title, shall be transferred to the San Diego curation facility and shall be accompanied by payment of the fees necessary for permanent curation. Evidence shall be in the form of a letter from the curation facility stating that the historic materials have been received and that all fees have been paid.

- d. If no cultural resources are discovered, a Negative Monitoring Report must be submitted stating that the grading monitoring activities have been completed. Grading Monitoring Logs must be submitted with the negative monitoring report.

DOCUMENTATION: The applicant's archaeologist shall prepare the final report and submit it to the [PDS, PPD] for approval. Once approved, a final copy of the report shall be submitted to the South Coastal Information Center (SCIC) and any culturally-affiliated Tribe who requests a copy. **TIMING:** Prior to any occupancy, final grading release, or use of the premises in reliance of this permit, the final report shall be prepared. **MONITORING:** The [PDS, PPD] shall review the final report for compliance this condition and the report format guidelines. Upon acceptance of the report, [PDS, PPD] shall inform [PDS, LDR] and [DPW, PDCI], that the requirement is complete, and the bond amount can be relinquished. If the monitoring was bonded separately, then [PDS, PPD] shall inform [PDS or DPW FISCAL] to release the bond back to the applicant.

BIO#X-RESOURCE AVOIDANCE [PDS, FEE X2] (BIO-1)

INTENT: In order to avoid impacts to migratory birds and raptors, which are a sensitive biological resource pursuant to the Migratory Bird Treaty Act (MBTA), a Resource Avoidance Area (RAA), shall be implemented on all plans. **DESCRIPTION OF REQUIREMENT:** There shall be no brushing, clearing and/or grading such that none will be allowed within 300 feet of migratory bird nesting habitat and 500 feet of raptor nesting habitat during the breeding season of the migratory bird and raptor within RAA as indicated on these plans. The breeding season is defined as occurring between February 1 and August 31. The Director of PDS [PDS, PCC] may waive this condition, through written concurrence from the US Fish and Wildlife Service and the California Department of Fish and Wildlife, provided that no migratory birds or raptors are present in the vicinity of the brushing, clearing, or grading as demonstrated by a survey conducted no more than 72-hours prior to clearing or grading. **DOCUMENTATION:** The applicant shall provide a letter of agreement with this condition; alternatively, the applicant may submit a written request for waiver of this condition. Although, No Grading shall occur within the RAA until concurrence is received from the County and the Wildlife Agencies. **TIMING:** Prior to preconstruction conference and prior to any clearing, grubbing, trenching, grading, or any land disturbances and throughout the duration of the grading and construction, compliance with this condition is mandatory unless the requirement is waived by the County upon receipt of concurrence from the Wildlife Agencies. **MONITORING:** The [DPW, PDCI] shall not allow any grading in the RAA during the specified dates, unless a concurrence from the [PDS, PCC] is received. The [PDS, PCC] shall review the concurrence letter.

CULT#GR-X - ARCHAEOLOGICAL AND TRIBAL MONITORING – PRECONSTRUCTION MEETING (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to comply with the County of San Diego Guidelines for Significance – Cultural Resources, an Archaeological Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** The County approved Project Archaeologist and Luiseño Native American Monitor shall attend the pre-construction meeting with the contractors to explain and coordinate the requirements of the archaeological monitoring program. The Project Archaeologist and Luiseño Native American Monitor shall monitor the original cutting of previously undisturbed deposits in all areas identified for development including off-site improvements. The Project Archaeologist and Luiseño Native American monitor shall also evaluate fill soils to determine that they are clean of cultural resources. The archaeological monitoring program shall comply with the County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Cultural Resources. **DOCUMENTATION:** The applicant shall have the contracted Project Archeologist and Luiseño Native American attend the preconstruction meeting to explain the monitoring requirements. **TIMING:** Prior to any clearing, grubbing, trenching, grading, or any land disturbances this condition shall be completed. **MONITORING:** The [DPW, PDCI] shall confirm the attendance of the approved Project Archaeologist.

DURING CONTRUCTION: (The following actions shall occur throughout the duration of the grading construction).

AQ#1-AIR QUALITY FUGITIVE DUST

INTENT: In order to mitigate for fugitive dust during construction activities. **DESCRIPTION OF REQUIREMENT:** The project applicant or designee shall comply with the San Diego County Air

Pollution Control District (SDAPCD) Rule 55 and County Code Section 87.428 (Grading Ordinance), and implement the following dust control measures during construction:

- a. Maintain at least 12 inches of freeboard, cover loads, or secure material by watering or treating in all haul/dump trucks entering or leaving the site with soil import/export material.
- b. Water construction areas between dozer/scrapper passes and on any unpaved roads within the project limits a minimum of two (2) times daily.
- c. Terminate grading activities in winds in excess of 25 miles per hour (mph).
- d. Use sweepers and water trucks to control dust and debris at public street access points and approach routes to construction sites.
- e. Stabilize dirt storage piles with chemical binders, tarps, fencing, or other suppression measures.
- f. Stabilize internal construction-roadways by paving, chip sealing or chemicals after rough grading.
- g. Enforce a 15-mph speed limit on unpaved surfaces.
- h. Hydroseed, landscape, or develop disturbed areas as quickly as possible and as directed by the County and/or SDAPCD to reduce dust generation.
- i. Visible roadway dust as a result of active operations, spillage from transport trucks, erosion, or track-out/carry-out shall be minimized by the use of track-out grates, gravel beds, or wheel-washing at each egress point and be removed at the conclusion of each workday when active operations cease, or every 24 hours for continuous operations. If a street sweeper is used to remove any track-out/carry-out, only respirable particulate matter (PM₁₀) -efficient street sweepers certified to meet the most current South Coast Air Quality Management District (SCAQMD) Rule 1186 requirements shall be used. The use of blowers for removal of track-out/carry-out is prohibited under any circumstances.

DOCUMENTATION: The applicant or designee shall comply with the Air Quality requirements of this condition. **TIMING:** The following actions shall occur throughout the duration of construction and grading. **MONITORING:** The [DPW, PDC] shall make sure that the grading contractor complies with the Air Quality requirements of this condition. The [DPW, PDC] shall contact the [DPLU, PCC] if the applicant fails to comply with this condition.

PALEO#GR-X - PALEONTOLOGICAL MONITORING (GEO-1)

INTENT: In order to comply with the [San Diego County Guidelines for Determining Significance for Paleontological Resources](#), a Paleontological Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** This project site has marginal levels of sensitive Paleontological resources. All grading activities are subject to the [County of San Diego Grading Ordinance Section 87.430](#), if any significant resources (Fossils) are encountered during grading activities.

- a. The grading contractor is responsible to monitor for paleontological resources during all grading activities. If any fossils are found greater than 12 inches in any dimension, stop all grading activities and contact PDS before continuing grading operations.
- b. If any paleontological resources are discovered and salvaged, the monitoring, recovery, and subsequent work determined necessary shall be completed by or under

the supervision of a Qualified Paleontologist pursuant to the [San Diego County Guidelines for Determining Significance for Paleontological Resources](#).

TIMING: The following actions shall occur throughout the duration of the grading construction. **MONITORING:** The [DPW, PDC] shall make sure that the grading contractor is on-site performing the Monitoring duties of this condition. The [DPW, PDC] shall contact PDS if the grading contractor or applicant fails to comply with this condition.

CULT#GR-X - ARCHAEOLOGICAL AND TRIBAL MONITORING - DURING CONSTRUCTION (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to comply with the County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Cultural Resources, a Cultural Resource Grading Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** The Project Archaeologist and Luiseño Native American Monitor shall monitor the original cutting of previously undisturbed deposits in all areas identified for development including off-site improvements. The archaeological monitoring program shall comply with the following requirements during earth-disturbing activities:

- a. **Monitoring.** During the original cutting of previously undisturbed deposits, the Project Archaeologist and Luiseño Native American Monitor shall be onsite as determined necessary by the Project Archaeologist. Inspections will vary based on the rate of excavation, the materials excavated, and the presence and abundance of artifacts and features. The frequency and location of inspections will be determined by the Project Archaeologist in consultation with the Luiseño Native American Monitor. Monitoring of the cutting of previously disturbed deposits will be determined by the Project Archaeologist in consultation with the Luiseño Native American Monitor.
- b. **Inadvertent Discoveries.** In the event that previously unidentified potentially significant cultural resources are discovered:
 1. The Project Archaeologist or the Luiseño Native American monitor shall have the authority to divert or temporarily halt ground disturbance operations in the area of discovery to allow evaluation of potentially significant cultural resources.
 2. At the time of discovery, the Project Archaeologist shall contact the PDS Staff Archaeologist.
 3. The Project Archaeologist, in consultation with the PDS Staff Archaeologist and the Luiseño Native American Monitor, shall determine the significance of the discovered resources.
 4. Construction activities will be allowed to resume in the affected area only after the PDS Staff Archaeologist has concurred with the evaluation.
 5. Isolates and clearly non-significant deposits shall be minimally documented in the field. Should the isolates and/or non-significant deposits not be collected by the Project Archaeologist, then the Luiseño Native American monitor may collect the cultural material for transfer to a Tribal Curation facility or repatriation program.
 6. If cultural resources are determined to be significant, a Research Design and Data Recovery Program (Program) shall be prepared by the Project Archaeologist in consultation with the Luiseño Native American Monitor. The County Archaeologist shall review and approve the Program, which shall be carried out using professional archaeological methods. The Program shall include (1) reasonable

efforts to preserve (avoidance) “unique” cultural resources or Sacred Sites; (2) the capping of identified Sacred Sites or unique cultural resources and placement of development over the cap, if avoidance is infeasible; and (3) data recovery for non-unique cultural resources. The preferred option is preservation (avoidance).

c. **Human Remains.** If any human remains are discovered:

1. The Property Owner or their representative shall contact the County Coroner and the PDS Staff Archaeologist.
2. Upon identification of human remains, no further disturbance shall occur in the area of the find until the County Coroner has made the necessary findings as to origin. If the human remains are to be taken offsite for evaluation, they shall be accompanied by the Luiseño Native American monitor.
3. If the remains are determined to be of Native American origin, the NAHC shall immediately contact the Most Likely Descendant (MLD).
4. The immediate vicinity where the Native American human remains are located is not to be damaged or disturbed by further development activity until consultation with the MLD regarding their recommendations as required by Public Resources Code Section 5097.98 has been conducted.
5. The MLD may with the permission of the landowner, or their authorized representative, inspect the site of the discovery of the Native American human remains and may recommend to the owner or the person responsible for the excavation work means for treatment or disposition, with appropriate dignity, of the human remains and any associated grave goods. The descendants shall complete their inspection and make recommendations or preferences for treatment within 48 hours of being granted access to the site.
6. Public Resources Code §5097.98, CEQA §15064.5 and Health & Safety Code §7050.5 shall be followed in the event that human remains are discovered.

d. **Fill Soils.** The Project Archaeologist and Luiseño Native American monitor shall evaluate fill soils to determine that they are clean of cultural resources.

e. **Monthly Reporting.** The Project Archaeologist shall submit monthly status reports to the Director of Planning and Development Services starting from the date of the Notice to Proceed to termination of implementation of the archaeological monitoring program. The report shall briefly summarize all activities during the period and the status of progress on overall plan implementation. Upon completion of the implementation phase, a final report shall be submitted describing the plan compliance procedures and site conditions before and after construction.

DOCUMENTATION: The applicant shall implement the Archaeological Monitoring Program pursuant to this condition. **TIMING:** The following actions shall occur throughout the duration of the earth disturbing activities. **MONITORING:** The [DPW, PDCI] shall make sure that the Project Archaeologist is on-site performing the monitoring duties of this condition. The [DPW, PDCI] shall contact the [PDS, PPD] if the Project Archeologist or applicant fails to comply with this condition.

INTENT: In order to comply with the [County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Paleontological Resources](#), a Paleontological Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** One of the following letters shall be performed upon completion of the grading activities that require monitoring:

- a. If no paleontological resources were discovered, submit a “No Fossils Found” letter from the grading contractor to PDS stating that the monitoring has been completed and that no fossils were discovered, and including the names and signatures from the fossil monitors. The letter shall be in the format of Attachment E of the [County of San Diego Guidelines for Determining Significance for Paleontological Resources](#).
- b. If paleontological resources were encountered during grading, a letter shall be prepared stating that the field grading monitoring activities have been completed, and that resources have been encountered. The letter shall detail the anticipated time schedule for completion of the curation phase of the monitoring.

DOCUMENTATION: The applicant shall submit the letter report to PDS for review and approval. **TIMING:** Upon completion of all grading activities, and prior to Rough Grading Final Inspection ([Grading Ordinance SEC 87.421.a.2](#)), the letter report shall be completed. **MONITORING:** PDS shall review the final negative letter report or field monitoring memo for compliance with the project MMRP, and inform [DPW, PDC] that the requirement is completed.

CULT#GR-X - ARCHAEOLOGICAL AND TRIBAL MONITORING – ROUGH GRADING (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to comply with the County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Cultural Resources, an Archaeological Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** The Project Archaeologist shall prepare one of the following reports upon completion of the earth-disturbing activities that require monitoring:

- a. **No Archaeological Resources Encountered.** If no archaeological resources are encountered during earth-disturbing activities, then submit a final Negative Monitoring Report substantiating that earth-disturbing activities are completed and no cultural resources were encountered. Archaeological monitoring logs showing the date and time that the monitor was on site and any comments from the Native American Monitor must be included in the Negative Monitoring Report.
- b. **Archaeological Resources Encountered.** If archaeological resources were encountered during the earth disturbing activities, the Project Archaeologist shall provide an Archaeological Monitoring Report stating that the field monitoring activities have been completed, and that resources have been encountered. The report shall detail all cultural artifacts and deposits discovered during monitoring and the anticipated time schedule for completion of the curation and/or repatriation phase of the monitoring.

DOCUMENTATION: The applicant shall submit the Archaeological Monitoring Report to [PDS, PPD] for review and approval. Once approved, a final copy of the report shall be

submitted to the South Coastal Information Center and any culturally-affiliated Tribe who requests a copy. **TIMING:** Upon completion of all earth-disturbing activities, and prior to Rough Grading Final Inspection (Grading Ordinance SEC 87.421.a.2), the report shall be completed. **MONITORING:** [PDS, PPD] shall review the report or field monitoring memo for compliance with the project MMRP, and inform [DPW, PDCI] that the requirement is completed.

CULT#GR-X - ARCHAEOLOGICAL AND TRIBAL MONITORING – FINAL GRADING (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to comply with the County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Cultural Resources, an Archaeological Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** The Project Archaeologist shall prepare a final report that documents the results, analysis, and conclusions of all phases of the Archaeological Monitoring Program if cultural resources were encountered during earth-disturbing activities. The report shall include the following, if applicable:

- a. Department of Parks and Recreation Primary and Archaeological Site forms.
- b. Daily Monitoring Logs
- c. Evidence that all cultural materials have been conveyed as follows:

(1) Evidence that all prehistoric materials collected during the archaeological monitoring program have been submitted to a San Diego curation facility or a culturally affiliated Native American Tribal curation facility that meets federal standards per 36 CFR Part 79, and, therefore, would be professionally curated and made available to other archaeologists/researchers for further study. The collections and associated records, including title, shall be transferred to the San Diego curation facility or culturally affiliated Native American Tribal curation facility and shall be accompanied by payment of the fees necessary for permanent curation. Evidence shall be in the form of a letter from the curation facility stating that the prehistoric archaeological materials have been received and that all fees have been paid.

or

Evidence that all prehistoric materials collected during the grading monitoring program have been repatriated to a Native American group of appropriate tribal affinity and shall be accompanied by payment of the fees necessary, if required. Evidence shall be in the form of a letter from the Native American tribe to whom the cultural resources have been repatriated identifying that the archaeological materials have been received.

(2) Historic materials shall be curated at a San Diego curation facility and shall not be curated at a Tribal curation facility or repatriated. The collections and associated records, including title, shall be transferred to the San Diego curation facility and shall be accompanied by payment of the fees necessary for permanent curation.

Evidence shall be in the form of a letter from the curation facility stating that the historic materials have been received and that all fees have been paid.

- d. If no cultural resources are discovered, a Negative Monitoring Report must be submitted stating that the archaeological monitoring activities have been completed. Grading Monitoring Logs must be submitted with the negative monitoring report.

DOCUMENTATION: The applicant's archaeologist shall prepare the final report and submit it to [PDS, PPD] for approval. Once approved, a final copy of the report shall be submitted to the South Coastal Information Center (SCIC) and any culturally-affiliated Tribe who requests a copy. **TIMING:** Prior to any occupancy, final grading release, or use of the premises in reliance of this permit, the final report shall be prepared. **MONITORING:** [PDS, PPD] shall review the final report for compliance with this condition and the report format guidelines. Upon acceptance of the report, [PDS, PPD] shall inform [PDS, LDR] and [DPW, PDCI], that the requirement is complete and the bond amount can be relinquished. If the monitoring was bonded separately, then [PDS, PPD] shall inform [PDS or DPW FISCAL] to release the bond back to the applicant.

BIO#X—BIOLOGICAL EASEMENT (BIO-4)

In order to protect sensitive biological resources, pursuant to the Resource Protection Ordinance (RPO), a biological open space easement shall be granted. **DESCRIPTION OF REQUIREMENT:** Grant to the County of San Diego an open space easement, as shown on the approved Plot Plan. This easement is for the protection of biological resources and prohibits all of the following on any portion of the land subject to said easement: grading; excavation; placement of soil, sand, rock, gravel, or other material; clearing of vegetation; construction, erection, or placement of any building or structure; vehicular activities; trash dumping; or use for any purpose other than as open space. Granting of this open space authorizes the County and its agents to periodically access the land to perform management and monitoring activities for the purposes of species and habitat conservation. The only exception(s) to this prohibition are:

1. Selective clearing of vegetation by hand to the extent required by written order of the fire authorities for the express purpose of reducing an identified fire hazard. While clearing for fire management is not anticipated with the creation of this easement, such clearing may be deemed necessary in the future for the safety of lives and property. All fire clearing shall be pursuant to the applicable fire code of the Fire Authority Having Jurisdiction and the Memorandum of Understanding dated February 26, 1997, (<http://www.sdcounty.ca.gov/PDS/docs/MemoofUnder.pdf>) between the wildlife agencies and the fire districts and any subsequent amendments thereto.
2. Activities conducted pursuant to a revegetation or habitat management plan approved by the Director of PDS, DPW or DPR.
3. Vegetation removal or application of chemicals for vector control purposes where expressly required by written order of the DEHQ.
4. An Irrevocable Offer of Dedication for the purposes of road right-of-way. Applicable permits from other agencies (Example: Regional Water Quality Control Board, U.S. Fish and Wildlife Service, etc.) and environmental documentation shall be obtained and processed prior to any construction.

DOCUMENTATION: The applicant shall prepare the draft plats and legal descriptions of the easements, then submit them for preparation and recordation with the *[DGS, RP]*, and pay all applicable fees associated with preparation of the documents. **TIMING:** Prior to approval of any plan or issuance of any permit, and prior to use of the premises in reliance of this permit the easements shall be recorded. **MONITORING:** The *[DGS, RP]* shall prepare and approve the easement documents and send them to *[PDS, PCC]* for pre-approval. The *[PDS, PCC]* shall pre-approve the language and estimated location of the easements before they are released to the applicant for signature and subsequent recordation. Upon Recordation of the easements *[DGS, RP]* shall forward a copy of the recorded documents to *[PDS, PCC]* *[DPR, TC]* for satisfaction of the condition.

BIO#X-LBZ EASEMENT (BIO-4)

INTENT: In order to protect sensitive biological resources, pursuant to the Resource Protection Ordinance (RPO), a Limited Building Zone Easement shall be granted to limit the need to clear or modify vegetation for fire protection purposes within an adjacent biological resource area. **DESCRIPTION OF REQUIREMENT:** Grant to the County of San Diego a Limited Building Zone Easement as shown on the Plot Plan. The purpose of this easement is to limit the need to clear or modify vegetation for fire protection purposes within the adjacent biological open space easement and prohibit the construction or placement of any structure designed or intended for occupancy by humans or animals. The only exceptions to this prohibition are:

1. Decking, fences, and similar facilities.
2. Sheds, gazebos, and detached garages, less than 250 square feet in total floor area, that are designed, constructed, and placed so that they do not require clearing or fuel modification within the biological open space easement, beyond the clearing/fuel modification required for the primary structures on the property.

DOCUMENTATION: The applicant shall prepare the draft plats and legal descriptions of the easements, then submit them for preparation and recordation with the *[DGS, RP]*, and pay all applicable fees associated with preparation of the documents. **TIMING:** Prior to approval of any plan or issuance of any permit, and prior to use of the premises in reliance of this permit, the easements shall be recorded. **MONITORING:** The *[DGS, RP]* shall prepare and approve the easement documents and send them to *[PDS, PCC]* for pre-approval. The *[PDS, PCC]* shall pre-approve the language and estimated location of the easements before they are released to the applicant for signature and subsequent recordation. Upon recordation of the easements *[DGS, RP]* shall forward a copy of the recorded documents to *[PDS, PCC]* for satisfaction of the condition.

BIO#X-OPEN SPACE SIGNAGE (BIO-4)

INTENT: In order to protect the proposed open space easement from entry, informational signs shall be installed. **DESCRIPTION OF REQUIREMENT:** Open space signs shall be placed along the biological open space boundary as indicated on the approved Plot Plan. The signs must be corrosion resistant, a minimum of 6" x 9" in size, on posts not less than three (3) feet in height from the ground surface, and must state the following:

**Sensitive Environmental Resources
Area Restricted by Easement**

Entry without express written permission from the County of San Diego is prohibited. To report a violation or for more information about easement restrictions and exceptions contact the County of San Diego, Planning & Development Services
Reference: PDS2020-MUP-20-004

DOCUMENTATION: The applicant shall install the signs as indicated above and provide site photos and a statement from a California Registered Engineer, or licensed surveyor, that the open space signs have been installed at the boundary of the open space easement(s). **TIMING:** Prior to approval of any plan or issuance of any permit, and prior to use of the premises in reliance of this permit, the open space signs shall be installed. **MONITORING:** The [PDS, PCC] shall review the photos and statement for compliance with this condition.

BIO#X–WETLAND PERMITS (BIO-3)

INTENT: In order to comply with the State and Federal Regulations for jurisdictional wetlands and waterways, the following agency permits, or verification that they are not required shall be obtained. **DESCRIPTION OF REQUIREMENT:** The following permit and agreement shall be obtained, or provide evidence from the respective resource agency satisfactory to the Director of PDS that such an agreement or permit is not required:

- a. A Clean Water Act, Section 401/404 permit issued by the California Regional Water Quality Control Board and the U.S. Army Corps of Engineers for all project related disturbances of waters of the U.S. and/or associated wetlands.
- b. A Section 1602 Streambed Alteration Agreement issued by the [California Department of Fish and Wildlife](#) for all project related disturbances of any streambed.

DOCUMENTATION: The applicant shall consult each agency to determine if a permit or agreement is required. Upon completion of the agency review of this project, the applicant shall provide a copy of the permit(s)/agreement(s), or evidence from each agency that such an agreement or permit is not required to the [PDS, PCC] for compliance. **TIMING:** Prior to approval of any grading and/or improvement plans and issuance of any Grading or Construction Permits. **MONITORING:** The [PDS, PCC] shall review the permits/agreement for compliance with this condition. Copies of these permits should be transmitted to the [DPW, ESU], for implementation on the grading plans.

CULT#X–ARCHAEOLOGICAL AND TRIBAL MONITORING (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to mitigate for potential impacts to undiscovered buried archaeological resources and human remains, an Archaeological and Tribal Monitoring Program and potential Data Recovery Program shall be implemented pursuant to the County of San Diego Guidelines for Determining Significance for Cultural Resources and the California Environmental Quality Act (CEQA). **DESCRIPTION OF REQUIREMENT:** A County Approved Principal Investigator (PI) known as the “Project Archaeologist,” shall be contracted to perform archaeological monitoring and a potential data recovery program

during all grading, clearing, grubbing, trenching, and construction activities. The archaeological monitoring program shall include the following:

- a. The Project Archaeologist shall perform the monitoring duties before, during and after construction pursuant to the most current version of the County of San Diego Guidelines for Determining Significance and Report Format and Requirements for Cultural Resources. The Project Archaeologist and Luiseño Native American monitor shall also evaluate fill soils to determine that they are clean of cultural resources. The contract or letter of acceptance provided to the County shall include an agreement that the archaeological monitoring will be completed, and a Memorandum of Understanding (MOU) between the Project Archaeologist and the County of San Diego shall be executed. The contract or letter of acceptance shall include a cost estimate for the monitoring work and reporting.
- c. The Project Archeologist shall provide evidence that a Luiseño Native American has been contracted to perform Native American Monitoring for the project.
- c. The cost of the monitoring shall be added to the grading bonds or bonded separately.

DOCUMENTATION: The applicant shall provide a copy of the Archaeological Monitoring Contract or letter of acceptance, cost estimate, and MOU to [PDS, PPD]. Additionally, the cost amount of the monitoring work shall be added to the grading bond cost estimate.

TIMING: Prior to approval of any grading and or improvement plans and issuance of any Grading or Construction Permits. **MONITORING:** [PDS, PPD] shall review the contract or letter of acceptance, MOU and cost estimate or separate bonds for compliance with this condition. The cost estimate should be forwarded to [PDS, PPD] for inclusion in the grading bond cost estimate, and grading bonds and the grading monitoring requirement shall be made a condition of the issuance of the grading or construction permit.

CULT#X - CULTURAL RESOURCES TREATMENT AGREEMENT AND PRESERVATION PLAN (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to mitigate for potential impacts to undiscovered archaeological resources, develop and enter into a Cultural Resources Treatment Agreement and Preservation Plan with a culturally-affiliated consulting Tribe. **DESCRIPTION OF**

REQUIREMENT: A single Cultural Resources Treatment Agreement and Preservation Plan shall be developed between the applicant or their representative, and a culturally-affiliated consulting Tribe. The Cultural Resources Treatment Agreement and Preservation Plan shall be reviewed and agreed to by the County prior to final signature and authorization. The Cultural Resources Treatment Agreement and Preservation Plan shall include but is not limited to the following:

- i. Parties entering into the agreement and contact information.
- j. Responsibilities of the Property Owner or their representative, Principal Investigator, archaeological monitors, Luiseño Native American monitors, County, and consulting tribes.
- k. Requirements of the Archaeological Monitoring Program including unanticipated discoveries. The requirements shall address grading and grubbing requirements

including controlled grading and controlled vegetation removal in areas of cultural sensitivity, analysis of identified cultural materials, and onsite storage of cultural materials.

- l. Excavated soils. No soils are proposed for export. Consultation with the culturally-affiliated tribes shall occur should excavated soils need to be exported offsite.
- m. Treatment of identified Native American cultural materials.
- n. Treatment of Native American human remains and associated grave goods.
- o. Confidentiality of cultural information including location and data.
- p. Regulations that apply to cultural resources that have been identified or may be identified during project construction.

Note: The Treatment Agreement and Preservation Plan cannot conflict with regulations that apply to the project.

DOCUMENTATION: A copy of the implemented agreement shall be submitted to the [PDS, PPD] for approval. **TIMING:** Prior to approval of any grading and or improvement plans and issuance of any Grading or Construction Permits. **MONITORING:** The [PDS, PPD] shall review the implemented agreement for compliance this condition.

CULT#X - CULTURAL RESOURCES MONITORING REPORT (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to ensure that the Archaeological Monitoring occurred during the earth-disturbing activities, a final report shall be prepared. **DESCRIPTION OF REQUIREMENT:** A final Archaeological Monitoring and Data Recovery Report that documents the results, analysis, and conclusions of all phases of the Archaeological Monitoring Program shall be prepared. The report shall include the following items:

- a. DPR Primary and Archaeological Site forms.
- b. Daily Monitoring Logs
- d. Evidence that all cultural materials collected during the survey, testing, and archaeological monitoring program have been conveyed as follows:
 - (1) All prehistoric cultural materials shall be curated at a San Diego curation facility or a culturally affiliated Tribal curation facility that meets federal standards per 36 CFR Part 79, and, therefore, would be professionally curated and made available to other archaeologists/researchers for further study. The collections and associated records, including title, shall be transferred to the San Diego curation facility or culturally affiliated Tribal curation facility and shall be accompanied by payment of the fees necessary for permanent curation. Evidence shall be in the form of a letter from the curation facility stating that the prehistoric archaeological materials have been received and that all fees have been paid.

or

- Evidence that all prehistoric materials collected during the archaeological monitoring program have been returned to a Native American group of appropriate tribal affinity. Evidence shall be in the form of a letter from the Native American tribe to whom the cultural resources have been repatriated identifying that the archaeological materials have been received.
- (2) Historic materials shall be curated at a San Diego curation facility as described above and shall not be curated at a Tribal curation facility or repatriated. The collections and associated records, including title, shall be transferred to the San Diego curation facility and shall be accompanied by payment of the fees necessary for permanent curation. Evidence shall be in the form of a letter from the curation facility stating that the historic materials have been received and that all fees have been paid.
- d. If no cultural resources are discovered, a Negative Monitoring Report must be submitted stating that the grading monitoring activities have been completed. Grading Monitoring Logs must be submitted with the negative monitoring report.

DOCUMENTATION: The applicant's archaeologist shall prepare the final report and submit it to the [PDS, PPD] for approval. Once approved, a final copy of the report shall be submitted to the South Coastal Information Center (SCIC) and any culturally-affiliated Tribe who requests a copy. **TIMING:** Prior to any occupancy, final grading release, or use of the premises in reliance of this permit, the final report shall be prepared. **MONITORING:** The [PDS, PPD] shall review the final report for compliance this condition and the report format guidelines. Upon acceptance of the report, [PDS, PPD] shall inform [PDS, LDR] and [DPW, PDCI], that the requirement is complete, and the bond amount can be relinquished. If the monitoring was bonded separately, then [PDS, PPD] shall inform [PDS or DPW FISCAL] to release the bond back to the applicant.

BIO#X-OPEN SPACE FENCING (BIO-4)

INTENT: In order to protect the proposed open space easement from entry, or disturbance, permanent fencing shall be installed. **DESCRIPTION OF REQUIREMENT:** Open space fencing shall be placed along the biological open space boundary as indicated on the Plot Plan. The fencing design shall consist of _____. **DOCUMENTATION:** The applicant shall install the fencing or walls as indicated above and provide site photos and a statement from a California Registered Engineer, or licensed surveyor that the open space fencing has been installed at the open space easement boundary. **TIMING:** Prior to any occupancy, final grading release, or use of the premises in reliance of this permit, the fencing or walls shall be placed. **MONITORING:** The [PDS, PCC] shall review the photos and statement for compliance with this condition.

HAZ#X-SOIL REMEDIATION (HAZ-1)

INTENT: In order to remediate potentially contaminated soil as identified in the Phase 1 and Phase 2 Environmental Site Assessment, remediation under the supervision of the Department of Environmental Health and Quality (DEHQ), is required. **DESCRIPTION OF REQUIREMENT:** In the event that any activity, including earthmoving or construction,

discovers the presence of contaminated soils on-site, the contractor and/or property owner shall notify County PDS and DEHQ. The presence of contaminated soils will require soil testing and remediation in accordance with standard County procedures. This process will be determined once the County is notified of the presence of contaminated soils. The plan shall be prepared and implemented pursuant to the [DEHQ SAM Manual](#) under direction from the DEH [SAM](#):

- a. Enrollment in the DEHQ, [Voluntary Assistance Program \(VAP\)](#) is required. If contamination is found to be from an underground storage tank (UST) then enrollment in the DEH, [Local Oversight Program \(LOP\)](#) is required in lieu of enrollment in the VAP. All soil remediation shall be completed under supervision of the SAM/VAP or LOP as required.
- a. All underground storage tanks (UST) shall be removed under permit from [DEH, HMD] if contamination is discovered from the UST, then compliance enrollment in the DEH, LOP is required.
- b. All required grading work shall comply with the [County of San Diego Grading Ordinance 87.101 et. al.](#) If a grading permit is required for the remediation work, it shall be issued for the remediation work only.
- c. The presence, locations and quantities of septic system(s) shall be evaluated. If present, the septic tanks shall be removed under permit and approval from the [DEHQ, LWQ].
- d. If the Director of PDS may allow approval of other engineering plans and/or issuance of other project permits may be permitted as long as there is no risk of effects to public health and safety. Concurrence from the [DEHQ, SAM] is required, and the applicant shall enter into a secured agreement for the completion of the remediation work.

DOCUMENTATION: The applicant shall contract with a California Licensed Environmental Consultant to prepare the treatment plan and implement any required work plan for soil remediation during construction **TIMING:** Prior to approval of any grading and/or improvement plans, issuance of any construction, building or any other permit (except for any grading plan or permit required for the remediation work), and prior to commencement of any construction, or use of the property in reliance on this permit, the applicant shall comply with this condition. Prior to the preconstruction meeting for the project, the following Grading and or Improvement Plan Notes shall be placed on the Preliminary Grading Plan and made conditions of the issuance of said permits. **MONITORING:** DEHQ shall oversee the progress of the remediation. Upon Completion of the remediation project the [DEHQ, SAM] shall issue a "Closure Letter" or similar closure document to DEHQ and the [PDS, LDR]. The [PDS, PCC] shall review the closure letter for compliance with this condition.

BIO#X-RESOURCE AVOIDANCE (BIO-1)

INTENT: In order to avoid impacts to migratory birds and raptors, which are a sensitive biological resource pursuant to the Migratory Bird Treaty Act (MBTA), a Resource Avoidance Area (RAA), shall be implemented on all plans. **DESCRIPTION OF REQUIREMENT:** There shall be no brushing, clearing and/or grading such that none will be allowed within 300 feet of migratory bird nesting habitat and 500 feet of raptor nesting habitat during the breeding season of the migratory bird and raptor within RAA as indicated on these plans. The breeding season is defined as occurring between February 1 and August 31. The Director of PDS [PDS, PCC] may waive this condition, through written concurrence from the US Fish and Wildlife Service and the California Department

of Fish and Wildlife, provided that no migratory birds or raptors are present in the vicinity of the brushing, clearing, or grading as demonstrated by a survey conducted no more than 72-hours prior to clearing or grading. **DOCUMENTATION:** The applicant shall provide a letter of agreement with this condition; alternatively, the applicant may submit a written request for waiver of this condition. Although, No Grading shall occur within the RAA until concurrence is received from the County and the Wildlife Agencies. **TIMING:** Prior to preconstruction conference and prior to any clearing, grubbing, trenching, grading, or any land disturbances and throughout the duration of the grading and construction, compliance with this condition is mandatory unless the requirement is waived by the County upon receipt of concurrence from the Wildlife Agencies. **MONITORING:** The [DPW, PDC] shall not allow any grading in the RAA during the specified dates, unless a concurrence from the [PDS, PCC] is received. The [PDS, PCC] shall review the concurrence letter.

BIO#X-PRE-CONSTRUCTION BAT SURVEY (BIO-2)

INTENT: In order to prevent inadvertent disturbance to special status bats, a pre-construction bat survey shall be conducted within the project area prior to brushing, clearing, or grading. **DESCRIPTION OF REQUIREMENT:** A County-approved biologist shall perform a pre-construction bat survey in suitable roosting habitat within 72 hours of the start of any grading, clearing, and/or grubbing. If special-status bats are identified during the pre-construction survey, then a qualified biologist should establish an adequate buffer zone in which construction activities are prohibited until the bats can be evicted. Removal of special-status bats will require consultation with the CDFW. If any active roosts are found, clearing shall not proceed until after consultation with County and Wildlife Agency staff, and implementation of any protective measures required. **DOCUMENTATION:** The Biological Monitor shall prepare written documentation that certifies that the bat survey has been completed and that bats have been avoided. **TIMING:** Prior to any clearing, grubbing, grading, or any land disturbances, this condition shall be completed and approved. **MONITORING:** The [DPW, PDC] shall not allow any grading, unless a concurrence from the [PDS, PPD] is received. The [PDS, PPD] shall review the concurrence letter.

CULT#GR-X - ARCHAEOLOGICAL AND TRIBAL MONITORING – PRECONSTRUCTION MEETING (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to comply with the County of San Diego Guidelines for Significance – Cultural Resources, an Archaeological Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** The County approved Project Archaeologist and Luiseño Native American Monitor shall attend the pre-construction meeting with the contractors to explain and coordinate the requirements of the archaeological monitoring program. The Project Archaeologist and Luiseño Native American Monitor shall monitor the original cutting of previously undisturbed deposits in all areas identified for development including off-site improvements. The Project Archaeologist and Luiseño Native American monitor shall also evaluate fill soils to determine that they are clean of cultural resources. The archaeological monitoring program shall comply with the County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Cultural Resources. **DOCUMENTATION:** The applicant shall have the contracted Project Archeologist and Luiseño Native American attend the preconstruction meeting to explain the monitoring requirements. **TIMING:** Prior to any clearing, grubbing,

trenching, grading, or any land disturbances this condition shall be completed. **MONITORING:** The [DPW, PDCI] shall confirm the attendance of the approved Project Archaeologist.

PALEO#GR-X - PALEONTOLOGICAL MONITORING (GEO-1)

INTENT: In order to comply with the [San Diego County Guidelines for Determining Significance for Paleontological Resources](#), a Paleontological Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** This project site has marginal levels of sensitive Paleontological resources. All grading activities are subject to the [County of San Diego Grading Ordinance Section 87.430](#), if any significant resources (Fossils) are encountered during grading activities.

- a. The grading contractor is responsible to monitor for paleontological resources during all grading activities. If any fossils are found greater than 12 inches in any dimension, stop all grading activities and contact PDS before continuing grading operations.
- b. If any paleontological resources are discovered and salvaged, the monitoring, recovery, and subsequent work determined necessary shall be completed by or under the supervision of a Qualified Paleontologist pursuant to the [San Diego County Guidelines for Determining Significance for Paleontological Resources](#).

TIMING: The following actions shall occur throughout the duration of the grading construction. **MONITORING:** The [DPW, PDCI] shall make sure that the grading contractor is on-site performing the Monitoring duties of this condition. The [DPW, PDCI] shall contact PDS if the grading contractor or applicant fails to comply with this condition.

CULT#GR-X - ARCHAEOLOGICAL AND TRIBAL MONITORING - DURING CONSTRUCTION (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to comply with the County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Cultural Resources, a Cultural Resource Grading Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** The Project Archaeologist and Luiseño Native American Monitor shall monitor the original cutting of previously undisturbed deposits in all areas identified for development including off-site improvements. The archaeological monitoring program shall comply with the following requirements during earth-disturbing activities:

- f. **Monitoring.** During the original cutting of previously undisturbed deposits, the Project Archaeologist and Luiseño Native American Monitor shall be onsite as determined necessary by the Project Archaeologist. Inspections will vary based on the rate of excavation, the materials excavated, and the presence and abundance of artifacts and features. The frequency and location of inspections will be determined by the Project Archaeologist in consultation with the Luiseño Native American Monitor. Monitoring of the cutting of previously disturbed deposits will be determined by the Project Archaeologist in consultation with the Luiseño Native American Monitor.
- g. **Inadvertent Discoveries.** In the event that previously unidentified potentially significant cultural resources are discovered:

7. The Project Archaeologist or the Luiseño Native American monitor shall have the authority to divert or temporarily halt ground disturbance operations in the area of discovery to allow evaluation of potentially significant cultural resources.
8. At the time of discovery, the Project Archaeologist shall contact the PDS Staff Archaeologist.
9. The Project Archaeologist, in consultation with the PDS Staff Archaeologist and the Luiseño Native American Monitor, shall determine the significance of the discovered resources.
10. Construction activities will be allowed to resume in the affected area only after the PDS Staff Archaeologist has concurred with the evaluation.
11. Isolates and clearly non-significant deposits shall be minimally documented in the field. Should the isolates and/or non-significant deposits not be collected by the Project Archaeologist, then the Luiseño Native American monitor may collect the cultural material for transfer to a Tribal Curation facility or repatriation program.
12. If cultural resources are determined to be significant, a Research Design and Data Recovery Program (Program) shall be prepared by the Project Archaeologist in consultation with the Luiseño Native American Monitor. The County Archaeologist shall review and approve the Program, which shall be carried out using professional archaeological methods. The Program shall include (1) reasonable efforts to preserve (avoidance) "unique" cultural resources or Sacred Sites; (2) the capping of identified Sacred Sites or unique cultural resources and placement of development over the cap, if avoidance is infeasible; and (3) data recovery for non-unique cultural resources. The preferred option is preservation (avoidance).

h. Human Remains. If any human remains are discovered:

1. The Property Owner or their representative shall contact the County Coroner and the PDS Staff Archaeologist.
2. Upon identification of human remains, no further disturbance shall occur in the area of the find until the County Coroner has made the necessary findings as to origin. If the human remains are to be taken offsite for evaluation, they shall be accompanied by the Luiseño Native American monitor.
3. If the remains are determined to be of Native American origin, the NAHC shall immediately contact the Most Likely Descendant (MLD).
4. The immediate vicinity where the Native American human remains are located is not to be damaged or disturbed by further development activity until consultation with the MLD regarding their recommendations as required by Public Resources Code Section 5097.98 has been conducted.
5. The MLD may with the permission of the landowner, or their authorized representative, inspect the site of the discovery of the Native American human remains and may recommend to the owner or the person responsible for the excavation work means for treatment or disposition, with appropriate dignity, of the human remains and any associated grave goods. The descendants shall complete their inspection and make recommendations or preferences for treatment within 48 hours of being granted access to the site.
6. Public Resources Code §5097.98, CEQA §15064.5 and Health & Safety Code §7050.5 shall be followed in the event that human remains are discovered.

- i. **Fill Soils.** The Project Archaeologist and Luiseño Native American monitor shall evaluate fill soils to determine that they are clean of cultural resources.
- j. **Monthly Reporting.** The Project Archaeologist shall submit monthly status reports to the Director of Planning and Development Services starting from the date of the Notice to Proceed to termination of implementation of the archaeological monitoring program. The report shall briefly summarize all activities during the period and the status of progress on overall plan implementation. Upon completion of the implementation phase, a final report shall be submitted describing the plan compliance procedures and site conditions before and after construction.

DOCUMENTATION: The applicant shall implement the Archaeological Monitoring Program pursuant to this condition. **TIMING:** The following actions shall occur throughout the duration of the earth disturbing activities. **MONITORING:** The [DPW, PDCI] shall make sure that the Project Archeologist is on-site performing the monitoring duties of this condition. The [DPW, PDCI] shall contact the [PDS, PPD] if the Project Archeologist or applicant fails to comply with this condition.

PALEO#GR-X - PALEONTOLOGICAL MONITORING (GEO-1)

INTENT: In order to comply with the [County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Paleontological Resources](#), a Paleontological Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** One of the following letters shall be performed upon completion of the grading activities that require monitoring:

- a. If no paleontological resources were discovered, submit a “No Fossils Found” letter from the grading contractor to PDS stating that the monitoring has been completed and that no fossils were discovered, and including the names and signatures from the fossil monitors. The letter shall be in the format of Attachment E of the [County of San Diego Guidelines for Determining Significance for Paleontological Resources](#).
- c. If paleontological resources were encountered during grading, a letter shall be prepared stating that the field grading monitoring activities have been completed, and that resources have been encountered. The letter shall detail the anticipated time schedule for completion of the curation phase of the monitoring.

DOCUMENTATION: The applicant shall submit the letter report to PDS for review and approval. **TIMING:** Upon completion of all grading activities, and prior to Rough Grading Final Inspection ([Grading Ordinance SEC 87.421.a.2](#)), the letter report shall be completed. **MONITORING:** PDS shall review the final negative letter report or field monitoring memo for compliance with the project MMRP, and inform [DPW, PDCI] that the requirement is completed.

CULT#GR-X - ARCHAEOLOGICAL AND TRIBAL MONITORING – ROUGH GRADING (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to comply with the County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Cultural Resources, an Archaeological Monitoring Program shall be implemented. **DESCRIPTION OF**

REQUIREMENT: The Project Archaeologist shall prepare one of the following reports upon completion of the earth-disturbing activities that require monitoring:

- a. **No Archaeological Resources Encountered.** If no archaeological resources are encountered during earth-disturbing activities, then submit a final Negative Monitoring Report substantiating that earth-disturbing activities are completed and no cultural resources were encountered. Archaeological monitoring logs showing the date and time that the monitor was on site and any comments from the Native American Monitor must be included in the Negative Monitoring Report.
- b. **Archaeological Resources Encountered.** If archaeological resources were encountered during the earth disturbing activities, the Project Archaeologist shall provide an Archaeological Monitoring Report stating that the field monitoring activities have been completed, and that resources have been encountered. The report shall detail all cultural artifacts and deposits discovered during monitoring and the anticipated time schedule for completion of the curation and/or repatriation phase of the monitoring.

DOCUMENTATION: The applicant shall submit the Archaeological Monitoring Report to *[PDS, PPD]* for review and approval. Once approved, a final copy of the report shall be submitted to the South Coastal Information Center and any culturally-affiliated Tribe who requests a copy. **TIMING:** Upon completion of all earth-disturbing activities, and prior to Rough Grading Final Inspection (Grading Ordinance SEC 87.421.a.2), the report shall be completed. **MONITORING:** *[PDS, PPD]* shall review the report or field monitoring memo for compliance with the project MMRP, and inform *[DPW, PDCI]* that the requirement is completed.

CULT#GR-X - ARCHAEOLOGICAL AND TRIBAL MONITORING – FINAL GRADING (CULT-1, CULT-2, CULT-3, CULT-4)

INTENT: In order to comply with the County of San Diego Guidelines for Determining Significance and Report Format and Content Requirements for Cultural Resources, an Archaeological Monitoring Program shall be implemented. **DESCRIPTION OF REQUIREMENT:** The Project Archaeologist shall prepare a final report that documents the results, analysis, and conclusions of all phases of the Archaeological Monitoring Program if cultural resources were encountered during earth-disturbing activities. The report shall include the following, if applicable:

- a. Department of Parks and Recreation Primary and Archaeological Site forms.
- b. Daily Monitoring Logs
- c. Evidence that all cultural materials have been conveyed as follows:
 - (1) Evidence that all prehistoric materials collected during the archaeological monitoring program have been submitted to a San Diego curation facility or a culturally affiliated Native American Tribal curation facility that meets federal standards per 36 CFR Part 79, and, therefore, would be professionally curated and made available to other archaeologists/researchers for further study. The collections and associated records, including title, shall be transferred to the San

Diego curation facility or culturally affiliated Native American Tribal curation facility and shall be accompanied by payment of the fees necessary for permanent curation. Evidence shall be in the form of a letter from the curation facility stating that the prehistoric archaeological materials have been received and that all fees have been paid.

or

Evidence that all prehistoric materials collected during the grading monitoring program have been repatriated to a Native American group of appropriate tribal affinity and shall be accompanied by payment of the fees necessary, if required. Evidence shall be in the form of a letter from the Native American tribe to whom the cultural resources have been repatriated identifying that the archaeological materials have been received.

- (2) Historic materials shall be curated at a San Diego curation facility and shall not be curated at a Tribal curation facility or repatriated. The collections and associated records, including title, shall be transferred to the San Diego curation facility and shall be accompanied by payment of the fees necessary for permanent curation. Evidence shall be in the form of a letter from the curation facility stating that the historic materials have been received and that all fees have been paid.

- d. If no cultural resources are discovered, a Negative Monitoring Report must be submitted stating that the archaeological monitoring activities have been completed. Grading Monitoring Logs must be submitted with the negative monitoring report.

DOCUMENTATION: The applicant's archaeologist shall prepare the final report and submit it to [PDS, PPD] for approval. Once approved, a final copy of the report shall be submitted to the South Coastal Information Center (SCIC) and any culturally-affiliated Tribe who requests a copy. **TIMING:** Prior to any occupancy, final grading release, or use of the premises in reliance of this permit, the final report shall be prepared. **MONITORING:** [PDS, PPD] shall review the final report for compliance with this condition and the report format guidelines. Upon acceptance of the report, [PDS, PPD] shall inform [PDS, LDR] and [DPW, PDCI], that the requirement is complete and the bond amount can be relinquished. If the monitoring was bonded separately, then [PDS, PPD] shall inform [PDS or DPW FISCAL] to release the bond back to the applicant.

BIO#X-OPEN SPACE SIGNAGE & FENCING (BIO-4)

INTENT: In order to protect the onsite open space for PDS2020-MUP-20-004, fencing and signage shall be installed. **DESCRIPTION OF REQUIREMENT:** The permanent fences and open space signs shall be placed along the open space boundary as shown on these plans and the approved Conceptual Grading and Development Plan for PDS2020-MUP-20-004.

- a. Evidence shall be site photos and a statement from a California Registered Engineer, or licensed surveyor that the permanent walls or fences, and open space signs have been installed.

- b. The signs must be corrosion resistant, a minimum of 6" x 9" in size, on posts not less than three (3) feet in height from the ground surface, and must state the following:

**Sensitive Environmental Resources
Area Restricted by Easement**

Entry without express written permission from the County of San Diego is prohibited. To report a violation or for more information about easement restrictions and exceptions contact the County of San Diego,
Planning & Development Services
Reference: PDS2020-MUP-20-004

DOCUMENTATION: The applicant shall install the fencing and signage and provide the documentation photos and certification statement to the [PDS, PCC]. **TIMING:** Prior to the occupancy of any structure or use of the premises, and prior to Final Grading Release ([Grading Ordinance Sec. 87.421.a.3](#)) the fencing and signage shall be installed. **MONITORING:** The [PDS, PCC] shall review the photos and statement for compliance with this condition.

BIO#X-EASEMENT AVOIDANCE (BIO-4)

INTENT: In order to protect sensitive resources, pursuant to [County Grading Ordinance Section 87.112](#) the open space easements shall be avoided. **DESCRIPTION OF REQUIREMENT:** The easement indicated on this plan is for the protection of sensitive environmental resources and prohibits all of the following on any portion of the land subject to said easement: grading; excavation; placement of soil, sand, rock, gravel, or other material; clearing of vegetation; construction, erection, or placement of any building or structure; vehicular activities; trash dumping; or use for any purpose other than as open space. It is unlawful to grade or clear within an open space easement, any disturbance shall constitute a violation of the [County Grading Ordinance Section 87.112](#) and will result in enforcement action and restoration. The only exception(s) to this prohibition are:

1. Selective clearing of vegetation by hand to the extent required by written order of the fire authorities for the express purpose of reducing an identified fire hazard. While clearing for fire management is not anticipated with the creation of this easement, such clearing may be deemed necessary in the future for the safety of lives and property. All fire clearing shall be pursuant to the applicable fire code of the Fire Authority Having Jurisdiction and the Memorandum of Understanding dated February 26, 1997, (<http://www.sdcounty.ca.gov/PDS/docs/MemoofUnder.pdf>) between the wildlife agencies and the fire districts and any subsequent amendments thereto.
2. Activities conducted pursuant to a revegetation or habitat management plan approved by the Director of PDS, DPW or DPR.
3. Vegetation removal or application of chemicals for vector control purposes where expressly required by written order of the DEH.
4. An Irrevocable Offer of Dedication for the purposes of road right-of-way. Applicable permits from other agencies (Example: Regional Water Quality Control Board, U.S. Fish and Wildlife Service, etc.) and environmental documentation shall be obtained and processed prior to any construction.

DOCUMENTATION: The applicant shall provide a letter statement to the [PDS, PCC] stating that all Sensitive Resource Easements were avoided during the grading construction, and that no impacts or encroachment into the open space occurred.

TIMING: Prior to Final Grading Release the letter verifying the easements were not disturbed shall be submitted. **MONITORING:** The [DPW, PDC] shall not allow any grading, clearing or encroachment into the open space easement.

ADOPTION STATEMENT: This Mitigated Negative Declaration was adopted and above California Environmental Quality Act findings made by the:

on _____

Sean Oberbauer, Land Use/Environmental Planning Manager
Project Planning Division
