**Subject:** Toxic Recycling Plant on I-15 and Mesa Rock

Dear Mr. Sibbet-

No vote, no representation or comment from those that this plant will affect?? Something definitely is wrong here. Corporate greed, lined pockets, remember who you represent ????? Serious health issues, crime, safety, environment, wildlife and the people in the surrounding areas. Please listen to the comments from your constituents this evening.

Thank you,

Melody Seekins

**Subject:** Mesa Rock Recycling Plant

I am a resident in the area of the proposed toxic plant. Our family is very concerned about health issues, environmental and safety issues to name a few, concerning the construction of this plant. It is unbelievable that this could get buy without a vote from the people you represent. How does this project not need an environmental study? This whole thing smells of deceit and coverup, remember who put you in office, who pays your salary??  
Lets do the right thing, please NO TOXIC PLANT FOR MESA ROCK!!!!!!!!!!!!

RE: Construction Debris Recycling Facility on  
West side of I-15

Opposed to this project!!

There are many issues with this project  
that have all been handled secretly and not  
in the public's best interest. There are  
environmental concerns hours of operation (emissions  
and noise). Ugly, disgusting plant at the north  
entrance to our city. All this done without approval,  
meeting, notification to the residences in the area!
