

**REVIEW FOR APPLICABILITY OF/COMPLIANCE WITH  
ORDINANCES/POLICIES**

**FOR PURPOSES OF CONSIDERATION OF  
Secure Space Self-Storage Bonita, PDS2021-MUP-21-009; PDS2022-CC-22-0102;  
PDS2021-ER-21-18-003**

**August 1, 2024**

**I. HABITAT LOSS PERMIT ORDINANCE** – Does the proposed project conform to the Habitat Loss Permit/Coastal Sage Scrub Ordinance findings?

YES

NO

NOT APPLICABLE/EXEMPT

Discussion:

The proposed project and any off-site improvements are located within the boundaries of the Multiple Species Conservation Program. Therefore, conformance to the Habitat Loss Permit/Coastal Sage Scrub Ordinance findings is not required.

**II. MSCP/BMO** - Does the proposed project conform to the Multiple Species Conservation Program and Biological Mitigation Ordinance?

YES

NO

NOT APPLICABLE/EXEMPT

Discussion:

The proposed project and any off-site improvements related to the proposed project are located outside of the boundaries of the Multiple Species Conservation Program. Therefore, conformance with the Multiple Species Conservation Program and the Biological Mitigation Ordinance is not required.

**III. GROUNDWATER ORDINANCE** - Does the project comply with the requirements of the San Diego County Groundwater Ordinance?

YES

NO

NOT APPLICABLE/EXEMPT

Discussion:

The project will not use any groundwater for any purpose, including irrigation or domestic supply.

**IV. RESOURCE PROTECTION ORDINANCE** - Does the project comply with:

The wetland and wetland buffer regulations (Sections 86.604(a) and (b)) of the Resource Protection Ordinance?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>
The Floodways and Floodplain Fringe section (Sections 86.604(c) and (d)) of the Resource Protection Ordinance?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input checked="" type="checkbox"/>
The Steep Slope section (Section 86.604(e))?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>
The Sensitive Habitat Lands section (Section 86.604(f)) of the Resource Protection Ordinance?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>
The Significant Prehistoric and Historic Sites section (Section 86.604(g)) of the Resource Protection Ordinance?	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>	NOT APPLICABLE/EXEMPT <input type="checkbox"/>

***Wetland and Wetland Buffers:***

The site contains no wetland habitats as defined by the San Diego County Resource Protection Ordinance. The site does not have a substratum of predominately undrained hydric soils, the land does not support, even periodically, hydric plants, nor does the site have a substratum that is non-soil and is saturated with water or covered by water at some time during the growing season of each year. Therefore, it has been found that the proposed project complies with Sections 86.604(a) and (b) of the Resource Protection Ordinance.

***Floodways and Floodplain Fringe:***

The project is not located near any floodway or floodplain fringe area as defined in the resource protection ordinance, nor is it near a watercourse plotted on any official County floodway or floodplain map. Therefore, it has been found that the proposed project complies with Sections 86.604(c) and (d) of the Resource Protection Ordinance.

***Steep Slopes:***

Slopes with a gradient of 25 percent or greater and 50 feet or higher in vertical height are required to be placed in open space easements by the San Diego County Resource Protection Ordinance (RPO). Steep slopes exist on a very small portion of the site to the north; however, an open space easement is proposed over the portion of the site containing steep slopes. There are no steep slope lands within the development footprint.

***Sensitive Habitats:***

Sensitive habitat lands include unique vegetation communities and/or habitat that is either necessary to support a viable population of sensitive species, is critical to the proper functioning of a balanced natural ecosystem, or which serves as a functioning wildlife corridor. Sensitive habitat lands were identified on the site. The project has been conditioned to fully mitigate for any impacts to sensitive habitats lands. Therefore, it has been found that the proposed project complies with Section 86.604(f) of the RPO.

**Significant Prehistoric and Historic Sites:**

The property has been surveyed by a County of San Diego approved archaeologist and it has been determined there is one (or more) archaeological/historical site(s) present. Testing and other investigation determined the archaeological/historical site does not meet the definition of significant site and does not need to be preserved under the Resource Protection Ordinance. Therefore, the project complies with the RPO.

**V. STORMWATER ORDINANCE (WPO)** - Does the project comply with the County of San Diego Watershed Protection, Stormwater Management and Discharge Control Ordinance (WPO)?

YES

NO

NOT APPLICABLE

Discussion:

The Project Storm Water Quality Management Plan dated September 19, 2023, has been reviewed and is found to be complete and in compliance with the WPO.

**VI. NOISE ORDINANCE** – Does the project comply with the County of San Diego Noise Element of the General Plan and the County of San Diego Noise Ordinance?

YES

NO

NOT APPLICABLE

Discussion:

The project would not expose people to nor generate potentially significant noise levels during construction or operation which exceed the allowable limits of the County of San Diego Noise Element of the General Plan, County of San Diego Noise Ordinance, and other applicable local, State, and Federal noise control regulations.

However, construction noise levels at the adjacent habitat are projected to exceed 60 dB(A) Leq, therefore, impacts to nesting coastal California gnatcatchers would be potentially significant during the breeding season without mitigation. Therefore, mitigation measures have been included to require construction activities to occur outside the breeding season, a pre-construction clearance survey, and increased construction boundaries and temporary sound barriers if the coastal California gnatcatcher is detected nesting.
