NOTES:

1: The type and intensity of development depicted on the map must be implemented in accordance with General Plan goals and policies and other County regulations which may further affect the type and intensity of use.

2: Land Use Element, Table LU-1 indicates the applicable Regional Category for each designation.

3: Maximum development intensity for non-residential designations is provided in Land Use Element, Table LU-1.

4: Refer to Community Plan for general land uses and intensities allowed in Specific Plan Area (SPA).

Discussion

Subject property is a 2005 Commercial/Industrial Referral (#2) where the Board of Supervisors directed staff to apply a General Commercial designation to the Referral Map; however, this also required a four-lane classification for Old Highway 395. This property did not come up in testimony during the 2010 Board hearings. In 2005, the property owner requested a General Commercial designation for all of the property, rather than a split Commercial / Estate Residential designation under the existing General Plan. The PC/Staff Recommendation would apply a Rural Commercial designation only to the portion of the property currently designated General Commercial. This recommendation would not generate as much Average Daily Traffic; therefore, a two-lane classification for Old Highway 395 is appropriate. Also, a Rural Commercial designation is appropriate for the Rural Village of Rainbow.
