PC/Staff Recommendation

Discussion

Subject property was a 2005 Commercial / Industrial Referral requesting an increase in intensity from 4.3 dwelling units per acre to General Commercial. In 2005, the Board of Supervisors directed staff to apply a Neighborhood Commercial (NC) designation to the Referral Map. This property did not come up in testimony during the 2010 Board hearings. The PC/Staff Recommendation for a Residential designation was coordinated with the Community Planning Group and is based on the desire to avoid the need for further curb cuts and an increased number of Average Daily Traffic on Bonita Road. Bonita Road currently operates at Level of Service "F" and could not sustain additional trips from a commercial business without a direct impact on the existing traffic on Bonita Road.

Additional Information

Since 2005, the ownership for the parcel fronting on Bonita Road has changed. In addition, the parcel still under the same ownership as the 2005 Referral does not front on Bonita Road and a business would not be easily accessible to the public.
