I live in North County on 5 acres it's Rural Residential zone and this area allows gun ranges on 10 acres. I have neighbors with backyard gun ranges. It is very dangerous as once a bullet just missed my head in my own front yard, the sheriff did not care! It's also very disturbing to me, wildlife in the preserve next door, my horses, guests and co tenants. Okay I do not believe gun ranges should be allowed in backyards in residential neighborhoods.
