Hello,

My family and I are residents of southern Carlsbad, and it is egregious to see the current map being reported as the most "favorable" map by the Redistricting Commission. As a working resident and veteran, along with a volunteer member of our HOA board, I think I've given my fair share to support our country and community, and to see traditional communities of interest torn apart by the current map is disheartening to say the least.

Please consider and support the maps outlined at this website: <https://www.sdcountyredistrictingmap.org/supervisors>

Thank you,

Arthur Karell  
Carlsbad
